The Uses of Enchantment Bruno Bettelheim
2010-05-11 Winner of the National Book Award
and National Book Critics Circle Award "A

charming book about enchantment, a profound book about fairy tales."—John Updike, The New York Times Book Review Bruno Bettelheim was one of the great child psychologists of the

twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development. Analyzing a wide range of traditional stories, from the tales of Sindbad to "The Three Little Pigs," "Hansel and Gretel," and "The Sleeping Beauty," Bettelheim shows how the fantastical, sometimes cruel, but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task, that of finding meaning for one's life.

But what if these long held beliefs were

all wrong? In this stunning, powerful, and ultimately persuasive book, Rodney Stark, one of the most highly regarded sociologists of religion and bestselling author of *The Rise of Christianity* (HarperSanFrancisco 1997) argues that some of our most firmly held ideas about history, ideas that paint the Catholic Church in the least positive light are, in fact, fiction. Why have we held these wrongheaded ideas so strongly and for so long? And if our beliefs are wrong, what, in fact, is the truth? In each chapter, Stark takes on a well-established anti-Catholic myth, gives a fascinating history of how each myth became the conventional wisdom, and presents a startling picture of the real truth. For example, Instead of the Spanish Inquisition being an anomaly of torture and murder of innocent people persecuted for "imaginary" crimes such as witchcraft and blasphemy, Stark argues that not only did the Spanish Inquisition spill very little blood, but it was a major force in support of moderation and justice. Instead of Pope Pius XII

being apathetic or even helpful to the Nazi movement, such as to merit the title, “Hitler’s Pope,” Stark shows that the campaign to link Pope Pius XII to Hitler was initiated by the Soviet Union, presumably in hopes of neutralizing the Vatican in post-World War II affairs. Pope Pius XII was widely praised for his vigorous and devoted efforts to saving Jewish lives during the war. Instead of the Dark Ages being understood as a millennium of ignorance and backwardness inspired by the Catholic Church’s power, Stark argues that the whole notion of the “Dark Ages” was an act of pride perpetuated by anti-religious intellectuals who were determined to claim that theirs was the era of “Enlightenment.” In the end, readers will not only have a more accurate history of the Catholic Church, they will come to understand why it became unfairly maligned for so long. Bearing False Witness is a compelling and sobering account of how egotism and ideology often work together to give us a false truth.

The Social Cancer Jose Rizal 2009-06-01 Filipino national hero Jose Rizal wrote *The Social Cancer* in Berlin in 1887. Upon his return to his country, he was summoned to the palace by the Governor General because of the subversive ideas his book had inspired in the nation. Rizal wrote of his consequent persecution by the church: "My book made a lot of noise; everywhere, I am asked about it. They wanted to anathematize me ['to excommunicate me'] because of it ... I am considered a German spy, an agent of Bismarck, they say I am a Protestant, a freemason, a sorcerer, a damned soul and evil. It is whispered that I want to draw plans, that I have a foreign passport and that I wander through the streets

by night ..."

Nature's Numbers Ian Stewart 2008-08-04 "It

appears to us that the universe is structured in a deeply mathematical way. Falling bodies fall with predictable accelerations. Eclipses can be accurately forecast centuries in advance. Nuclear power plants generate electricity according to well-known formulas. But those examples are the tip of the iceberg. In Nature's Numbers, Ian Stewart presents many more, each charming in its own way.. Stewart admirably captures compelling and accessible mathematical ideas along with the pleasure of thinking of them. He writes with clarity and precision. A Light Song of Light Kei Miller 2010-07-29 Kei

Miller's work was acclaimed by the distinguished Jamaican writer Olive Senior as 'Some of the most exciting poetry I've read in years... An extraordinary new voice singing with clarity and grace.' A Light Song of Light sings in the rhythms of ritual and folktale, praise songs and anecdotes, blending lyricism with a cool wit, finding the languages in which poetry can sing in dark times. The book is in two parts: Day Time and Night Time, each exploring the inseparable elements that together make a whole. Behind the daylight world of community lies another, disordered, landscape: stories of ghosts and bandits, a darkness violent and seductive. At the heart of the collection is the Singerman, a member of Jamaica's road gangs in the 1930s, whose job was to sing while the rest of the gang broke stones. He is a presence both mundane and shamanic. Kei Miller's poems celebrate 'our incredible and abundant lives', facing the darkness and making from it a song of the light.

Ilustrado Miguel Syjuco 2010-04-27 Garnering international prizes and acclaim before its publication, *Ilustrado* has been called "brilliantly conceived and stylishly executed . . . It is also ceaselessly entertaining, frequently raunchy, and effervescent with humor" (2008 Man Asian Literary Prize panel of judges). It begins with a body. On a clear day in winter, the battered corpse of Crispin Salvador is pulled from the Hudson River—taken from the world is the controversial lion of Philippine literature. Gone, too, is the only manuscript of his final book, a work meant to rescue him from obscurity by exposing the crimes of the Filipino ruling families. Miguel, his student and only remaining friend, sets out for Manila to investigate. To understand the death, Miguel scours the life, piecing together Salvador's story through his poetry, interviews, novels, polemics, and memoirs. The result is a rich and dramatic family saga of four

generations, tracing 150 years of Philippine history forged under the Spanish, the Americans, and the Filipinos themselves. Finally, we are surprised to learn that this story belongs to young Miguel as much as to his lost mentor, and we are treated to an unhindered view of a society caught between reckless decay and hopeful progress. Exuberant and wise, wildly funny and deeply moving, *Ilustrado* explores the hidden truths that haunt every family. It is a daring and inventive debut by a new writer of astonishing talent.

How to Do Apologetics Patrick Madrid 2016-07-13
From one of the most respected names in Catholic Apologetics, Patrick Madrid, comes the new book How to Do Apologetics: Making the Case for Our Faith. And it couldn't be more timely. Seismic cultural shifts and increased

attacks on religious liberty often place Christians in the uncomfortable position of having to defend their beliefs — even their belief in God — when their Faith is called into question by atheists, agnostics, Protestants, or people from other religions. This book is the apologist's toolkit covering all the topics you need to understand and apply Patrick Madrid's own successful approach to giving reasons to believe. Using logic, arguments, and evidence to defend the Truth Apologetics with atheists, moral relativists, and non-Christians Special advice and examples for use with Protestants, as well as lukewarm or inactive Catholics Proven strategies for responding graciously to opponents Making a compelling case for God, Jesus Christ and the Catholic Church What you need to do apologetics well PLUS: Patrick Madrid's recommended books & CDs, and a glossary of key apologetics terms! Patrick Madrid shows how YOU "can demonstrate confidently and effectively that Catholic teaching is reasonable, consistent, and compelling."
