**Faith in the City** Angela D. Dillard 2007-04-30 "Spanning more than three decades and organized around the biographies of Reverends Charles A. Hill and Albert B. Cleage Jr., Faith in the City is a major new exploration of how the worlds of politics and faith merged for many of Detroit's African Americans a convergence that provided the community with a powerful new voice and identity. While other religions have mixed politics and creed, Faith in the City shows how this fusion was and continues to be particularly vital to African American clergy and the Black freedom struggle. Activists in cities such as Detroit sustained a record of progressive politics over the course of three decades. Angela Dillard reveals this generational link and describes what the activism of the 1960s owed to that of the 1930s. The labor movement, for example, provided Detroit's Black activists, both inside and outside the unions, with organizational power and experience virtually unmatched by any other African American urban community"--Publisher description.

**Inscription and Erasure** Roger Chartier 2008-08-25 The fear of oblivion obsessed medieval and early modern Europe. Stone, wood, cloth, parchment, and paper all provided media onto which writing was inscribed as a way to ward off loss. And the task was not easy in a world in which writing could be destroyed, manuscripts lost, or books menaced with destruction. Paradoxically, the successful spread of printing posed another danger, namely, that an uncontrollable proliferation of textual materials, of matter without order or limit, might allow useless texts to multiply and smother thought. Not everything written was destined for the archives; indeed, much was written on surfaces that allowed one to write, erase, then write again. In Inscription and Erasure, Roger Chartier seeks to demonstrate how the tension between these two concerns played out in the imaginative works of their times. Chartier examines how authors transformed the material realities of writing and publication into an aesthetic resource exploited for poetic, dramatic, or narrative ends. The process that gave form to writing in its various modes--public or private, ephemeral or permanent--thus became the very material of literary invention. Chartier's chapters follow a thread of reading and interpretation that takes us from the twelfth-century French poet Baudri of Bourgueil, sketching out his poems on wax tablets before they are committed to parchment, through Cervantes in the seventeenth century, who places a "book of memory," in which poems and letters are to be recopied, in the path of his fictional Don Quixote.

**Take It Away, Tommy!** Georgia Dunn 2020-03-23 Tonight's top story: the intrepid team of feline reporters is back on the beat and tackling stories like a runaway toy mouse in this second collection of Breaking Cat News comics for middle-grade readers. Once again Lupin, Elvis, and Puck—alongside boisterous field correspondents like Tommy—deliver hard-hitting reportage on all of the most pressing issues, such as Vacuum Awareness Week, the case of the missing breakfast, and the history of fuzzy blankets. The gang also meets new characters like Burt, the free-spirited barn cat who helps solve some AV problems. And these cats will need all of the help they can get to get to the bottom of some mysterious ghost sightings and prove they're not scaredy. The More-to-Explore section includes paper dolls, how to make pet rock cats, and explores the Big Pink House and the BCN apartment within.

**Tourism in National Parks and Protected Areas** Paul F. J. Eagles 2002 This book describes the state of the art of tourism planning and management in national parks and protected areas. It also provides guidelines for best practice in tourism operations. Other objectives are to: Describe case studies and guidelines that contribute to conservation of biological diversity; consider the role of local communities within or near these areas; outline the development of tourism infrastructure and services; discuss visitor management; provide guidelines to enhance the quality of the tourism experience. The focus is global and the book will appeal to both academics and practitioners.

**The Mystic Way in Postmodernity** Sue Yore 2009 This book challenges experiential, esoteric and colloquial understandings of mysticism by bringing a fresh relevance to the term through an interdisciplinary dialogue between literature, mysticism and theology in the context of postmodernity. In order to achieve this, the author takes selected writings of Iris Murdoch, Denise Levertov and Annie Dillard, and incorporates them into various stages of a redesigned mystic way. The fourteenth-century mystic Julian of Norwich is invoked throughout as a role model whom these three writers seek to emulate as popular writers, contemplatives and theologians. As theologians who are concerned with the pressing issues of our age, Grace Jantzen, Dorothee Soelle and Sallie McFague are drawn on as conversation partners to complete the three-way discussion. The author maintains that understanding the writing and reading of creative texts in the context of practical mysticism facilitates an integrated approach to the use of literature for theological expression.

**Drupal 9 Module Development** Daniel Sipos 2020-08-14 Build and extend flexible Drupal sites and applications with this up-to-date, expert guide to Drupal 9 module development Key FeaturesExplore the essential Drupal 9 APIs for module developmentLearn how to implement data modeling, caching, architecture, and much more in your Drupal applicationsDiscover what's new in the latest Drupal core releasesBook Description With its latest release, Drupal 9, the popular open source CMS platform has been updated with new functionalities for building complex Drupal apps with ease. This third edition of the Drupal Module Development guide covers these new Drupal features, helping you to stay on top of code deprecations and the changing architecture with every release. The book starts by introducing you to the Drupal 9 architecture and its subsystems before showing you how to create your first module with basic functionality. You'll explore the Drupal logging and mailing systems, learn how to output data using the theme layer, and work with menus and links programmatically. Once you've understood the different kinds of data storage, this Drupal guide will demonstrate how to create custom entities and field types and leverage the Database API for lower-level database queries. You'll also learn how to introduce JavaScript

into your module, work with various file systems, and ensure that your code works on multilingual sites. Finally, you'll work with Views, create automated tests for your functionality, and write secure code. By the end of the book, you'll have learned how to develop custom modules that can provide solutions to complex business problems, and who knows, maybe you'll even contribute to the Drupal community! What you will learnDevelop custom Drupal 9 modules for your applicationsMaster different Drupal 9 subsystems and APIsModel, store, manipulate, and process data for effective data managementDisplay data and content in a clean and secure way using the theme systemTest your business logic to prevent regressionStay ahead of the curve and write PHP code by implementing best practicesWho this book is for If you are a Drupal developer looking to learn Drupal 9 to write modules for your sites, this book is for you. **City Creatures** Gavin Van Horn 2015-11-03 We usually think of cities as the domain of humans—but we are just one of thousands of species that call the urban landscape home. Chicago residents knowingly move among familiar creatures like squirrels, pigeons, and dogs, but might be surprised to learn about all the leafhoppers and water bears, black-crowned night herons and bison, beavers and massasauga rattlesnakes that are living alongside them. *City Creatures* introduces readers to an astonishing diversity of urban wildlife with a unique and accessible mix of essays, poetry, paintings, and photographs. The contributors bring a story-based approach to this urban safari, taking readers on birding expeditions to the Magic Hedge at Montrose Harbor on the North Side, canoe trips down the South Fork of the Chicago River (better known as Bubbly Creek), and insect-collecting forays or restoration work days in the suburban forest preserves. The book is organized into six sections, each highlighting one type of place in which people might encounter animals in the city and suburbs. For example, schoolyard chickens and warrior wasps populate “Backyard Diversity,” live giraffes loom at the zoo and taxidermy-in-progress pheasants fascinate museum-goers in “Animals on Display,” and a chorus of deep-freeze frogs awaits in “Water Worlds.” Although the book is rooted in Chicago’s landscape, nature lovers from cities around the globe will find a wealth of urban animal encounters that will open their senses to a new world that has been there all along. Its powerful combination of insightful narratives, numinous poetry, and full-color art throughout will help readers see the city—and the creatures who share it with us—in an entirely new light.

**The Liveaboard Guide** Tony Jones 2019-07-11 The romantic dream of downsizing, giving up the rat race, and living life at 4mph on the inland waterways is proving more and more attractive. But for tens of thousands of people it is not just a romantic dream but an actual lifestyle. Tony Jones is one of those people. He has lived aboard his 50ft narrowboat for over 14 years and in this very practical book he documents what the liveaboard lifestyle is really like, focusing on the practical issues of day to day living for those who want to know what living on a boat actually entails, to see how to manage it for themselves. Topics covered include: · the pros, cons and costs of a residential mooring · power usage and energy consumption (and how it differs from a house) · how to stay warm - the choice of coal, electric, gas or wood heating · boat loos - the pros and cons, and troubleshooting typical problems · entertainment - TV, radio, internet, DVDs · logistical problems - no postal address, GP access, vehicle access or use This second edition has been comprehensively revised to include updated or new information on costs (moorings, license, insurances etc), license fees for different types of craft, composting toilets and ecological living in general, living aboard in London and other cities (suddenly very popular), postal services, boat stretching, butty boats, and so on, as well as more anecdotes and profile stories about liveaboard life. The aim of this book is to feed people's dreams by showing that every possible problem that could arise when living on a boat has a tried and tested solution. The dream is perfectly possible, and this book is the complete practical guide to

achieving it.

**Elvis Puffs Out** Georgia Dunn 2020-10-06 This just in: your favorite purr-nalists are back and reporting on all of the most pressing cat issues in this third collection of *Breaking Cat News* comics for middle-grade readers. Anchor cat Lupin and his faithful field reporters, Elvis and Puck, are as cute and funny as ever in *Elvis Puffs Out*. There's no shortage of news to cover this time around: In the wake of a winter snowstorm, the team tries their hand at meteorology (with mixed results). Man and Woman nurse a stranded kitten back to health. And the pessimistic, straight-laced Elvis demonstrates that even he has a soft side. The fun continues in the “More to Explore” section, with lessons on wooden-spoon puppet theaters, the basics of reporting your own news stories, and—as always—charming paper dolls to craft.

**Pinky and Rex and the Bully** James Howe 2016-06-21 Pinky's favorite color is pink, and his best friend, Rex, is a girl. Kevin, the third-grade bully, says that makes Pinky a sissy. **Early Modern Things** Paula Findlen 2021-03-02 *Early Modern Things* supplies fresh and provocative insights into how objects – ordinary and extraordinary, secular and sacred, natural and man-made – came to define some of the key developments of the early modern world. Now in its second edition, this book taps a rich vein of recent scholarship to explore a variety of approaches to the material culture of the early modern world (c. 1500–1800). Divided into seven parts, the book explores the ambiguity of things, representing things, making things, encountering things, empires of things, consuming things, and the power of things. This edition includes a new preface and three new essays on 'encountering things' to enrich the volume. These look at cabinets of curiosities, American pearls, and the material culture of West Central Africa. Spanning across the early modern world from Ming dynasty China and Tokugawa Japan to Siberia and Georgian England, from the Kingdom of the Kongo and the Ottoman Empire to the Caribbean and the Spanish Americas, the authors provide a generous set of examples in how to study the circulation, use, consumption, and, most fundamentally, the nature of things themselves. Drawing on a broad range of disciplinary perspectives and lavishly illustrated, this updated edition of *Early Modern Things* is essential reading for all those interested in the early modern world and the history of material culture.

*Love and the Law in Cervantes* Roberto González Echevarría 2005-01-01 The consolidation of law and the development of legal writing during Spain's Golden Age not only helped that country become a modern state but also affected its great literature. In this fascinating book, Roberto Gonzalez Echevarria explores the works of Cervantes, showing how his representations of love were inspired by examples of human deviance and desire culled from legal discourse.

[Cats in My Life](#) Jonathan Bower 2017-05-19 'When I was a kid, I hated cats,' Jonathan Bower admits in the first of these ten stories. But gradually he falls under the spell of this fascinating species, and learns that cats are a rich source of interest and emotion for us humans. 'Funny, moving, and surprising, these cat stories are more than stories about cats. You will meow in protest when you reach the last page.' Dr. Hajer Miladi, Tunisia. 'I've read and reread *Cats in My Life* and the stories are taut, funny, sad, and...brilliant!' Anne Scarisbrik Murray, UK and France.

**Zen Buddhist Rhetoric in China, Korea, and Japan** Christoph Anderl 2011-11-25 Through a diachronic and comparative approach this book offers a comprehensive study of Zen Buddhist linguistic and rhetoric devices in China, Korea, and Japan. It draws a vivid picture of the complexity of Zen Buddhist literary production in interaction with doctrinal and ritual issues, as well as in response to the sociopolitical contexts.

**The Peregrine Returns** Mary Hennen 2017-07-21 Peregrine falcons have their share of claims to fame. With a diving speed of over two hundred miles per hour, these birds of prey are the fastest animals on earth or in the sky, and they are now well known for adapting from life on rocky cliffs to a different kind of mountain: modern skyscrapers. But adaptability only helps so much. In 1951, there were no peregrines left in Illinois, for instance, and it looked as if the species would be wiped out entirely in North America. Today, however, peregrines are flourishing. In *The Peregrine Returns*, Mary Hennen gives wings to this extraordinary conservation success story. Drawing on the beautiful watercolors of Field Museum artist-in-residence Peggy Macnamara and photos by Field Museum research assistant Stephanie Ware, as well as

her own decades of work with peregrines, Hennen uses a program in Chicago as a case study for the peregrines' journey from their devastating decline to the discovery of its cause (a thinning of eggshells caused by a by-product of DDT), through to recovery, revealing how the urban landscape has played an essential role in enabling falcons to return to the wild—and how people are now learning to live in close proximity to these captivating raptors. Both a model for conservation programs across the country and an eye-opening look at the many creatures with which we share our homes, this richly illustrated story is an inspiring example of how urban architecture can serve not only our cities' human inhabitants, but also their wild ones.

[Jasmin's Journal](#) Red Thread Co. 2021-10-13 Beautiful white butterfly atop white flowers on the cover of this 8.5 x 11-inch journal with a big 200-page interior. The larger size makes the journal easier to write in while it lies flat. This journal is larger than many others on the market making it a stand-out. Blank journals are great for keeping track of to-do lists at work or home, recording your thoughts or studies. Great gift for back-to-school, or a stocking stuffer. Exterior features the name "Jasmin."

[Remembering Emmett Till](#) Dave Tell 2021-02-15 Take a drive through the Mississippi Delta today and you'll find a landscape dotted with memorials to major figures and events from the civil rights movement. Perhaps the most chilling are those devoted to the murder of Emmett Till, a tragedy of hate and injustice that became a beacon in the fight for racial equality. The ways this event is remembered have been fraught from the beginning, revealing currents of controversy, patronage, and racism lurking just behind the placid facades of historical markers. In *Remembering Emmett Till*, Dave Tell gives us five accounts of the commemoration of this infamous crime. In a development no one could have foreseen, Till's murder—one of the darkest moments in the region's history—has become an economic driver for the Delta. Historical tourism has transformed seemingly innocuous places like bridges, boat landings, gas stations, and riverbeds into sites of racial politics, reminders of the still-unsettled question of how best to remember the victim of this heinous crime. Tell builds an insightful and persuasive case for how these memorials have altered the Delta's physical and cultural landscape, drawing potent connections between the dawn of the civil rights era and our own moment of renewed fire for racial justice.

[Construction Safety](#) Jimmie Hinze 1997 This book is a compilation of a vast number of construction safety research studies. **Cities of Opportunities** Jason Pomeroy 2020-01-30 Culture refers to not only the arts but also other manifestations of human intellectual achievement regarded collectively. It similarly refers to the customs, institutions, and achievements of a social group, a people, or a nation. Innovation refers to the action or process of change, alteration, or revolution; a new method of idea creation or product that may bring about change. It is easy to assume that innovation may be juxtaposed to the preservation of culture and time-tested rituals. Yet as human settlements grew; and as streets and squares evolved through the diverse exchanges of people trading, celebrating, rallying and socially interacting, it should come as little surprise that cities and its places would become, and continue to be, centres of culture and innovation that can be inextricably linked. Culture and Innovation in cities can potentially take on different complexions if viewed through the lens of academics and practitioners drawn from different geographies, disciplines, or fields of expertise when addressing particular urban challenges. It is through this complexity of views that this book seeks to provide a broad perspective on culture and innovation in the context of global cities today; and a rich cornucopia of insights from thought leaders within their respective fields to shape the cities of tomorrow.

*Math for Scientists* Natasha Maurits 2017-08-26 This book reviews math topics relevant to non-mathematics students and scientists, but which they may not have seen or studied for a while. These math issues can range from reading mathematical symbols, to using complex numbers, dealing with equations involved in calculating medication equivalents, the General Linear Model (GLM) used in e.g. neuroimaging

analysis, finding the minimum of a function, independent component analysis, or filtering approaches. Almost every student or scientist, will at some point run into mathematical formulas or ideas in scientific papers that may be hard to understand, given that formal math education may be some years ago. In this book we will explain the theory behind many of these mathematical ideas and expressions and provide readers with the tools to better understand them. We will revisit high school mathematics and extend and

relate this to the mathematics you need to understand the math you may encounter in the course of your research. This book will help you understand the math and formulas in the scientific papers you read. To achieve this goal, each chapter mixes theory with practical pen-and-paper exercises such that you (re)gain experience with solving math problems yourself. Mnemonics will be taught whenever possible. To clarify the math and help readers apply it, each chapter provides real-world and scientific examples.
