

Chapter 28 America In The 1950 S

Right here, we have countless ebook **Chapter 28 America In The 1950 S** and collections to check out. We additionally allow variant types and plus type of the books to browse. The satisfactory book, fiction, history, novel, scientific research, as without difficulty as various other sorts of books are readily available here.

As this Chapter 28 America In The 1950 S, it ends up visceral one of the favored books Chapter 28 America In The 1950 S collections that we have. This is why you remain in the best website to see the amazing books to have.

The Organization Man William H. Whyte 2013-05-31 Regarded as one of the most important sociological and business commentaries of modern times, *The Organization Man* developed the first thorough description of the impact of mass organization on American society. During the height of the Eisenhower administration, corporations appeared to provide a blissful answer to postwar life with the marketing of new technologies—television, affordable cars, space travel, fast food—and lifestyles, such as carefully planned suburban communities centered around the nuclear family. William H. Whyte found this phenomenon alarming. As an editor for *Fortune* magazine, Whyte was well placed to observe corporate America; it became clear to him that the American belief in the perfectibility of society was shifting from one of individual initiative to one that could be achieved at the expense of the individual. With its clear analysis of contemporary working and living arrangements, *The Organization Man* rapidly achieved bestseller status. Since the time of the book's original publication, the American workplace has undergone massive changes. In the 1990s, the rule of large corporations seemed less relevant as small entrepreneurs made fortunes from new technologies, in the process bucking old corporate trends. In fact this "new economy" appeared to have doomed Whyte's original analysis as an artifact from a bygone day. But the recent collapse of so many startup businesses, gigantic mergers of international conglomerates, and the reality of economic globalization make *The Organization Man* all the more essential as background for understanding today's global market. This edition contains a new foreword by noted journalist and author Joseph Nocera. In an afterword Jenny Bell Whyte describes how *The Organization Man* was written.

The Death and Life of Great American Cities Jane Jacobs 2016-07-20 Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

Guide to U.S. Environmental Policy Sally K. Fairfax 2014-08-14 *Guide to U.S. Environmental Policy* provides the analytical connections showing readers how issues and actions are translated into public policies and persistent institutions for resolving or managing environmental conflict in the U.S. The guide highlights a complex decision-making cycle that requires the cooperation of government, business, and an informed citizenry to achieve a comprehensive approach to environmental protection. The book's topical, operational, and relational essays address development of U.S. environmental policies, the federal agencies and public and private organizations that frame and administer environmental policies, and the challenges of balancing conservation and preservation against economic development, the ongoing debates related to turning environmental concerns into environmental management, and the role of the U.S. in international organizations that facilitate global environmental governance. Key Features: 30 essays by

leading conservationists and scholars in the field investigate the fundamental political, social, and economic processes and forces driving policy decisions about the protection and future of the environment. Essential themes traced through the chapters include natural resource allocation and preservation, human health, rights of indigenous peoples, benefits of recycling, economic and other policy areas impacted by responses to green concerns, international cooperation, and immediate and long-term costs associated with environmental policy. The essays explore the impact made by key environmental policymakers, presidents, and politicians, as well as the topical issues that have influenced U.S. environmental public policy from the colonial period to the present day. A summary of regulatory agencies for environmental policy, a selected bibliography, and a thorough index are included. This must-have reference for political science and public policy students who seek to understand the forces that U.S. environmental policy is suitable for academic, public, high school, government, and professional libraries.

The American Yawp Joseph L. Locke 2019-01-22 "I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. *The Yawp* highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Western Civilization, Alternate Volume: Since 1300 Jackson J. Spielvogel 2016-09-14 Best-selling author Jackson Spielvogel has helped over one million students learn about the present by exploring the past. Spielvogel's engaging narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Updated to reflect current scholarship, *WESTERN CIVILIZATION*, 10th Edition, includes more than 150 maps and excerpts of more than 250 primary sources that enliven the past while introducing students to the source material of historical scholarship. Additionally, the text is illustrated with more than 400 photographs that add visual context. A

variety of pedagogical tools, including focus and critical thinking questions, primary source features with assignable questions, and end-of-chapter study aids, make this edition accessible to any learning style. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

To Save the Children of Korea Arissa H. Oh 2015-06-17 To Save the Children of Korea is the first book about the origins and history of international adoption. Although it has become a commonplace practice in the United States, we know very little about how or why it began, or how or why it developed into the practice that we see today. Arissa Oh argues that international adoption began in the aftermath of the Korean War. First established as an emergency measure through which to evacuate mixed-race "GI babies," it became a mechanism through which the Korean government exported its unwanted children: the poor, the disabled, or those lacking Korean fathers. Focusing on the legal, social, and political systems at work, this book shows how the growth of Korean adoption from the 1950s to the 1980s occurred within the context of the neocolonial U.S.-Korea relationship, and was facilitated by crucial congruencies in American and Korean racial thought, government policies, and nationalisms. It also argues that the international adoption industry played an important but unappreciated part in the so-called Korean "economic miracle." Korean adoption served as a kind of template as international adoption began, in the late 1960s, to expand to new sending and receiving countries. Ultimately, Oh demonstrates that although Korea was not the first place that Americans adopted from internationally, it was the place where organized, systematic international adoption was born.

The Other America Michael Harrington 1997-08 Presents the original report on poverty in America that led President Kennedy to initiate the federal poverty program

The Americans Gerald A. Danzer 1999-07

U.S. History P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Creating America 1995 Each unit includes guided reading, vocabulary building, skillbuilder practice, geography applications, primary sources, literature selections, reteaching activities, enrichment activities for gifted and talented students, history workshop resources and answer key.

American Amnesia Jacob S. Hacker 2016-03-29 A "provocative" (Kirkus Reviews), timely, and topical work that examines what's good for American business and what's good for Americans—and why those interests are misaligned. In *American Amnesia*, bestselling political scientists Jacob S. Hacker and Paul Pierson trace the economic and political history of the United States over the last century and show how a viable mixed economy has long been the dominant engine of America's prosperity. We have largely forgotten this reliance, as many political circles and corporate actors have come to mistakenly see government as a hindrance rather than the propeller it once was. "American Amnesia" is more than a rhetorical phrase; elites have literally forgotten, or at least forgotten to talk about, the essential role of public authority in achieving big positive-sum bargains in advanced societies. The mixed economy was the most important social innovation of the twentieth century. It spread a previously unimaginable level of broad prosperity. It enabled steep increases in education, health, longevity, and economic security. And yet, extraordinarily, it is anathema to many current economic and political elites. Looking at this record of remarkable accomplishment, they recoil in horror. And as the advocates of anti-government free market fundamentalist have gained power, they are hell-bent on scrapping the instrument of nearly a century of unprecedented economic and social

progress. In the *American Amnesia*, Hacker and Pierson explain the full "story of how government helped make America great, how the enthusiasm for bashing government is behind its current malaise, and how a return to effective government is the answer the nation is looking for" (The New York Times).

Creating America , Grades 6-8 McDougal Littell 2000-04-24

Bowling Alone Robert D. Putnam 2000 Shows how changes in work, family structure, women's roles, and other factors have caused people to become increasingly disconnected from family, friends, neighbors, and democratic structures--and how they may reconnect.

Containing America Nathan Abrams 2000-01-01 The postwar period in America witnessed a tremendous consumer boom that introduced thousands of new items into the mass market. The contributors to *Containing America* challenge our conceptions of Cold War culture by examining a range of such products - clothes, food, television, magazines, radio, and other forms of entertainment - in order to shed light on how Cold War discourses actually influenced the practices of ordinary behaviour. Their essays address very different sectors of American society - in terms of race, class, ethnicity, sexuality and gender - thus emphasising the multiplicity, diversity, and differing nature of the voices that emerged in cultural production and consumption during the 1950s. *Containing America* points out directions for further research and provides a fresh approach for scholars, students, and others interested in the culture of the Cold War of the 1950s.

The Story of America John Arthur Garraty 1994

Western Civilization: Volume II: Since 1500 Jackson J. Spielvogel 2022-03-25 Bestselling author Jackson Spielvogel has helped over 1 million students learn about the present by exploring the past. His engaging narrative weaves the political, economic, social, religious, intellectual, cultural and military aspects of history into a gripping story that is as memorable as it is instructive.

Updated to reflect current scholarship, *WESTERN CIVILIZATION*, 11th Edition includes excerpts of more than 250 primary sources -- showing you the source material historians use to interpret the past. Detailed maps and vivid photographs bring chapter concepts to life, while a variety of learning tools make this edition accessible to any learning style. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Atomic Age Cinema: The Offbeat, the Classic and the Obscure Barry Atkinson 2018-01-22

The Negro Motorist Green Book Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and

Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Western Civilization Jackson J. Spielvogel 2020-01-23 Bestselling author Jackson Spielvogel has helped over 1 million students learn about the present by exploring the past. His engaging narrative weaves the political, economic, social, religious, intellectual, cultural and military aspects of history into a gripping story that is as memorable as it is instructive. Updated to reflect current scholarship, WESTERN CIVILIZATION, 11th Edition includes excerpts of more than 250 primary sources -- showing you the source material historians use to interpret the past. Unto a Good Land David Edwin Harrell Jr. 2005-08-23 "Unto a Good Land offers a distinctive narrative history of the American people -- from the first contacts between Europeans and North America's native inhabitants, through the creation of a modern nation, to the standing of the United States as a world power. Written by a team of distinguished historians led by David Edwin Harrell, Jr. and Edwin S. Gaustad, this textbook shows how grasping the uniqueness of the bAmerican experiment depends on understanding the role of religion as well as social, cultural, political, and economic factors in shaping U.S. history. A common shortcoming of most United States history textbooks is that while, in recent decades, they have expanded their coverage of social and cultural history, they still tend to shortchange the role of religious ideas, practices, and movements in the American past. "Unto a Good Land addresses this shortcoming in a balanced way. The authors recognize that religion is only one of many factors that have influenced our past -- one, however, that has often been neglected in textbook accounts. This volume gives religion its appropriate place in the story." Unprecedented coverage of the forces that have shaped the history of the United States While none of America's rich history is left out, this volume is the first U.S. history textbook to give serious attention to the religious dimension of American life. This textbook is not a religious history; instead, it offers an account of American history that includes religious ideas, practices, and movements whenever they played a shaping role." Comprehensive and current This volume traces the American story from the earliest encounters between the first North American inhabitants and Europeans through the 2004 presidential election. Complete and balanced treatment is also given to issues of gender, race, and ethnicity, as well as cultural, political, and economic forces. "A clear and compelling narrative The authors are more than expert historians; they are also talented writers who recognize history to be the retelling of human life. United by a seamless narrative structure, these chapters restore the bstory to history." Multiple formats specially designed for flexible classroom use "Unto a Good Land is available as a single hardcover edition or as two paperback volumes, offering maximum flexibility when adapting curriculum for one- and two-semester courses in U.S. history. The two paperback volumes can be used for U.S. history survey courses divided at 1865 or 1900 -- or at any date in between." Informative special features to complement the text In addition to the book's exceptional narrative, an array of special features enhances the instructional value of the text and points students to resources for further study." Includes assistance for teaching and test preparation The instructor's manual for "Unto a Good Land provides helpful suggestions for lesson plans and assignments, and the test bank provides multiple-choice and essay questions for use as study aids, quizzes, or tests." Suitable for instruction at both secular and religious colleges and universities Drawing on their experience in

both secular and religious schools, the authors have ensured that this textbook is suitable for U.S. history classes in a wide variety of settings.

Why We're Polarized Ezra Klein 2020-01-28 One of Bill Gates's "5 books to read this summer," this New York Times and Wall Street Journal bestseller shows us that America's political system isn't broken. The truth is scarier: it's working exactly as designed. In this "superbly researched" (The Washington Post) and timely book, journalist Ezra Klein reveals how that system is polarizing us—and how we are polarizing it—with disastrous results. "The American political system—which includes everyone from voters to journalists to the president—is full of rational actors making rational decisions given the incentives they face," writes political analyst Ezra Klein. "We are a collection of functional parts whose efforts combine into a dysfunctional whole." "A thoughtful, clear and persuasive analysis" (The New York Times Book Review), *Why We're Polarized* reveals the structural and psychological forces behind America's descent into division and dysfunction. Neither a polemic nor a lament, this book offers a clear framework for understanding everything from Trump's rise to the Democratic Party's leftward shift to the politicization of everyday culture. America is polarized, first and foremost, by identity. Everyone engaged in American politics is engaged, at some level, in identity politics. Over the past fifty years in America, our partisan identities have merged with our racial, religious, geographic, ideological, and cultural identities. These merged identities have attained a weight that is breaking much in our politics and tearing at the bonds that hold this country together. Klein shows how and why American politics polarized around identity in the 20th century, and what that polarization did to the way we see the world and one another. And he traces the feedback loops between polarized political identities and polarized political institutions that are driving our system toward crisis. "Well worth reading" (New York magazine), this is an "eye-opening" (O, The Oprah Magazine) book that will change how you look at politics—and perhaps at yourself.

Forging the Shield Donald A. Carter 2015 This illustrated book that includes tables, charts, and maps primarily discusses the role of USAREUR (US Army Europe) in rearming and training the new German Army which was perhaps the Army's single greatest contribution toward maintaining security in Western Europe. Likewise, the relationship between American soldiers and their French and West German hosts evolved over time and is a critical element in telling the story of the US Army in Europe.

Western Civilization: Volume C: Since 1789 Jackson J. Spielvogel 2016-12-05 Best-selling author Jackson Spielvogel has helped over one million students learn about the present by exploring the past. Spielvogel's engaging narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Updated to reflect current scholarship, WESTERN CIVILIZATION, 10th Edition, includes more than 150 maps and excerpts of more than 250 primary sources that enliven the past while introducing students to the source material of historical scholarship. Additionally, the text is illustrated with more than 400 photographs that add visual context. A variety of pedagogical tools, including focus and critical thinking questions, primary source features with assignable questions, and end-of-chapter study aids, make this edition accessible to any learning style. Six Crises Richard Nixon 2013-01-08 For many years before he became President, Richard Nixon's decisions vitally affected the well-being of the nation. Six of those decisions significantly shaped the man who would later become the 37th President of the United States. *Six Crises* is a close-up look at this dynamic man, recalling the demands placed upon him, the thinking behind his decisions, and the pressures of political life.

1950s American Style: A Reference Guide (hard cover) Daniel Niemeyer
Liberty, Equality, Power: A History of the American People John M. Murrin 2015-01-01 A highly respected, balanced, and thoroughly modern approach to U.S. history, LIBERTY, EQUALITY, POWER: A HISTORY OF THE AMERICAN PEOPLE, Seventh Edition, uses these three themes to show how the United States was transformed from hunter-gatherer and

agricultural Native American societies into the most powerful industrial nation on Earth. This approach helps students understand the impact of the notions of liberty and equality, which are often associated with the American story and recognize how dominant and subordinate groups have affected and been affected by the ever-shifting balance of power. The text integrates the best of recent social and cultural scholarship—including fun material on movies and other forms of popular culture—into a political story, offering a comprehensive and complete understanding of American history. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A History of the Book in America David Paul Nord 2015-12-01 The fifth volume of *A History of the Book in America* addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization, and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading—in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies—receive imaginative scrutiny as well. The *Enduring Book* demonstrates that the corporate consolidations of the last half-century have left space for the independent publisher, that multiplicity continues to define American print culture, and that even in the digital age, the book endures. Contributors: David Abrahamson, Northwestern University James L. Baughman, University of Wisconsin-Madison Kenneth Cmiel (d. 2006) James Danky, University of Wisconsin-Madison Robert DeMaria Jr., Vassar College Donald A. Golden Dreams Kevin Starr 2011-09-09 A narrative tour de force that combines wide-ranging scholarship with captivating prose, Kevin Starr's acclaimed multi-volume *Americans and the California Dream* is an unparalleled work of cultural history. In this volume, Starr covers the crucial postwar period—1950 to 1963—when the California we know today first burst into prominence. Starr brilliantly illuminates the dominant economic, social, and cultural forces in California in these pivotal years. In a powerful blend of telling events, colorful personalities, and insightful analyses, Starr examines such issues as the overnight creation of the postwar California suburb, the rise of Los Angeles as Super City, the reluctant emergence of San Diego as one of the largest cities in the nation, and the decline of political centrism. He explores the Silent Generation and the emergent Boomer youth cult, the Beats and the Hollywood "Rat Pack," the pervasive influence of Zen Buddhism and other Asian traditions in art and design, the rise of the University of California and the emergence of California itself as a utopia of higher education, the cooling of West Coast jazz, freeway and water projects of heroic magnitude, outdoor life and the beginnings of the environmental movement. More broadly, he shows how California not only became the most

populous state in the Union, but in fact evolved into a mega-state en route to becoming the global commonwealth it is today. *Golden Dreams* continues an epic series that has been widely recognized for its signal contribution to the history of American culture in California. It is a book that transcends its stated subject to offer a wealth of insight into the growth of the Sun Belt and the West and indeed the dramatic transformation of America itself in these pivotal years following the Second World War.

Cengage Advantage Books: Liberty, Equality, Power: A History of the American People John M. Murrin 2015-02-18 This economically priced version of *LIBERTY, EQUALITY, POWER*, 7th Edition offers readers the complete narrative while limiting the number of features, photos, and maps. A highly respected, balanced, and thoroughly modern approach to U.S. History, *LIBERTY, EQUALITY, POWER* uses these three themes in a unique approach to show how the United States was transformed, in a relatively short time, from a land inhabited by hunter-gatherer and agricultural Native American societies into the most powerful industrial nation on earth. This approach helps students understand not only the impact of the notions of liberty and equality, which are often associated with the American story, but also how dominant and subordinate groups have affected and been affected by the ever-shifting balance of power. The text integrates the best of recent social and cultural scholarship into a political story, offering students a comprehensive and complete understanding of American history. Making America: A History of the United States, Brief Carol Berkin 2013-01-01 *MAKING AMERICA: A HISTORY OF THE UNITED STATES, BRIEF SIXTH EDITION*, presents history as a dynamic process shaped by human expectations, difficult choices, and often the surprising consequences. With this focus on history as a process, *MAKING AMERICA* encourages readers to think historically and to develop into citizens who value the past. The clear chronology, straightforward narrative, and strong thematic structure emphasize communication over intimidation and appeal to readers of varied learning levels. The Brief Sixth Edition retains a hallmark feature of the *MAKING AMERICA* program: pedagogical tools that allow readers to master complex material and enable them to develop analytical skills. Every chapter has chapter outlines, chronologies, focus questions, and on-page glossaries (defining both key terms and general vocabulary) to provide guidance throughout the text; the open, inviting design allows readers to access and use pedagogy to improve learning. A wealth of images throughout provides a visual connection to the past, with captions that help readers analyze the subject of the painting, photograph, or artifact from an historical point of view. Investigating America gets to the heart of learning history: reading and analyzing primary sources. A new feature, *In The Wider World* introduces a global perspective for each chapter. In addition, a new map program provides clear, visually engaging maps with globe insets to put the map in a global context. Available in the following split options: *MAKING AMERICA, Brief Sixth Edition Complete, Volume 1: To 1877, and Volume 2: Since 1865*. Available with InfoTrac Student Collections <http://goengage.com/infotrac>. 120 Years of American Education 1993

Congressional Record United States. Congress 1967

The Age of Eisenhower William I Hitchcock 2018-03-20 A New York Times bestseller, this is the "outstanding" (*The Atlantic*), insightful, and authoritative account of Dwight Eisenhower's presidency. Drawing on newly declassified documents and thousands of pages of unpublished material, *The Age of Eisenhower* tells the story of a masterful president guiding the nation through the great crises of the 1950s, from McCarthyism and the Korean War through civil rights turmoil and Cold War conflicts. This is a portrait of a skilled leader who, despite his conservative inclinations, found a middle path through the bitter partisanship of his era. At home, Eisenhower affirmed the central elements of the New Deal, such as Social Security; fought the

demagoguery of Senator Joseph McCarthy; and advanced the agenda of civil rights for African-Americans. Abroad, he ended the Korean War and avoided a new quagmire in Vietnam. Yet he also charted a significant expansion of America's missile technology and deployed a vast array of covert operations around the world to confront the challenge of communism. As he left office, he cautioned Americans to remain alert to the dangers of a powerful military-industrial complex that could threaten their liberties. Today, presidential historians rank Eisenhower fifth on the list of great presidents, and William Hitchcock's "rich narrative" (The Wall Street Journal) shows us why Ike's

stock has risen so high. He was a gifted leader, a decent man of humble origins who used his powers to advance the welfare of all Americans. Now more than ever, with this "complete and persuasive assessment" (Booklist, starred review), Americans have much to learn from Dwight Eisenhower.
