The Eyes of the Sphinx Erich Von Daniken 1996-03-01 The world-famous bestseller Chariots of the Gods introduced the theory that ancient Earth had established contact with aliens. Now, Erich von Däniken's The Eyes of the Sphinx reveals startling evidence that could prove it. Erich von Däniken's theory of alien contact with the ancient world is so incredible, yet so logical and convincing, that it has become part of a wide-ranging debate that continues to this day. His claims that an alien race helped create the pyramids of Egypt were based upon the ruins themselves. And it is these ruins that now provide researchers with a never-ending source of clues, compelling discoveries, revelations, and evidence that Earth was indeed colonized by an alien race.

Non-Western Educational Traditions Timothy G. Reagan 2004-09-22 This text provides a brief yet comprehensive overview of a number of non-Western approaches to educational thought and practice. Its premise is that understanding the ways that other people educate their children--as well as what counts for them as "education"--may help us think more clearly about some of our own assumptions and values, and to become more open to alternative viewpoints about important educational matters. The

value of this informative, mind-opening text for preservice and in-service teacher education courses is enhanced by "Questions for Discussion and Reflection" and "Recommended Further Readings" included in each chapter. New in the Third Edition: *Chapter 2, "Conceptualizing Culture: 'I, We, and The Other,'" is new to this edition. It is a response to feedback about the problems inherent in our general discourse about "culture," and in addition provides an example of a culture that is near to us but nevertheless alien--the culture of the Deaf-World. *Chapter 9--which deals with Islam and traditional Muslim education--has been substantially revised. *The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice, reflecting not so much a change in the emphases found in the book, but rather, a recognition of the growing scholarly interest in indigenous peoples, their languages, cultures, and histories. *Various points throughout the text have been expanded and clarified, and chapters have been updated as needed.

Lost Secrets of the Gods Michael Pye 2014-07-21 Are there 10,000-year-old secret societies that still exist today? Was there a race of giants that once inhabited the Americas? Did ancient Egypt and ancient China have heretofore undiscovered ties? *Lost Secrets of the Gods* delves into these ancient mysteries and many more in articles by some of the world's most intrepid and knowledgeable researchers. The old paradigms of history are being radically transformed as we discover more evidence of little-known cultures and what they achieved. Many ancient cultures spoke and wrote of visitors that gave them knowledge and helped shape their societies. Who were they, and where did they come from? We now know that many ancient cultures had advanced knowledge of science, agriculture, and astronomy, only some of which has been

rediscovered in the last 100 years. Were *The Iliad* and *The Odyssey* really about an epic struggle in pre-Celtic Europe? What happened to the Persian army that completely disappeared from Egypt 2,500 years ago? Did the ancients know how to create psychic guard dogs to protect sacred sites? There is much more to history than what has officially been recorded. *Lost Secrets of the Gods* reveals startling truths and asks fascinating questions traditional historians have long ignored.

Chariots of the Gods Erich Von Daniken 1999-01-01 THE SEVEN MILLION COPY BESTSELLER The groundbreaking classic that introduced the theory that ancient Earth established contact with aliens. Immediately recognized as a work of monumental importance, *Chariots of the Gods* endures as proof that Earth has been visited repeatedly by advanced aliens from other worlds. Here, Erich von Däniken examines ancient ruins, lost cities, spaceports, and a myriad of hard scientific facts that point to extraterrestrial intervention in human history. Most incredible of all, however, is von Däniken's theory that we are the descendants of these galactic pioneers—and he reveals the archeological discoveries that prove it... The dramatic discoveries and irrefutable evidence:

- An alien astronaut preserved in a pyramid
- Thousand-year-old spaceflight navigation charts
- Computer astronomy from Incan and Egyptian ruins
- A map of the land beneath the ice cap of Antarctica
- A giant spaceport discovered in the Andes

Includes remarkable photos that document mankind's first contact with aliens at the dawn of civilization.

The Unidentified Colin Dickey 2021-07-20 America's favorite cultural historian and author of *Ghostland* takes a "thought-provoking and deliciously unsettling" (Publisher's Weekly) tour of the country's most persistent "unexplained" phenomena In a world where rational, scientific explanations are more available than ever, belief in the unprovable and irrational--in fringe--is on the rise: from Atlantis to aliens, from Flat Earth to the Loch Ness monster, the list goes on. It seems the more our maps of the known world get filled in, the more we crave mysterious locations full of strange creatures. Enter Colin Dickey, Cultural Historian and Tour Guide of the Weird. With the same curiosity and insight that made *Ghostland* a hit with readers and critics, Colin looks at what all fringe beliefs have in common, explaining that today's Illuminati is yesterday's Flat Earth: the attempt to find meaning in a world stripped of wonder. Dickey visits the wacky sites of America's wildest fringe beliefs--from the famed Mount Shasta where the ancient race (or extra-terrestrials, or possibly both, depending on who you ask) called Lemurians are said to roam, to the museum containing the last remaining "evidence" of the great Kentucky Meat Shower--investigating how these theories come about, why they take hold, and why as Americans we keep inventing and re-inventing them decade after decade. The Unidentified is Colin Dickey at his best: curious, wry, brilliant in his analysis, yet eminently readable.

Chariots of Gods Unknown: Unsolved Mysteries of the Past Robert Charroux 2017-05 Long before Erich von Daniken wrote *Chariots of the Gods*, Robert Charroux was writing about our historical visitors from outer space, otherwise called "Ancient Astronauts" or "Ancient Aliens," and stimulating his readers to deep thought and further investigation. This book is no exception. *Chariots of Unknown Gods* reveals unsuspected conceptual constructs, especially of the hitherto unpublished history of our Celtic ancestors - a history unpublished, and actually interdicted, because it runs counter to some of the statements made in the

Bible, in Sumerian and other scriptures, and by historians and prehistorians. The whole history of Western civilization has, in fact, been deliberately distorted in order to develop a mental outlook encouraging particular modes of thought, behavior, and social structure. Charroux, who notably has worked with William Shatner and Leonard Nimoy on television documentaries concerning this topic, has prepared a serious work where nothing was shirked or neglected, and for which he dedicated himself to worldwide research. In 1968, for example, he covered 25,000 miles, traveling all over Mexico, Libya, and Tunisia. Few writers show such dedication and professional integrity in checking their sources. Charroux's readers will find in his immense documentation many ideas and proofs that will open up new vistas of understanding. *Unsolved UFO Mysteries* William J. Birnes 2008-12-14 Focusing on unsolved sightings of UFOs and encounters by people in a variety of situations, the authors combine their files to present a number of baffling UFO situations that remain unexplained by conventional science.

Crash at Corona Don Berliner 2010-04-01 IF UFOS DON'T EXIST, THEN THEY CAN'T CRASH. But something did crash near Corona, a tiny town not far from Roswell, New Mexico, in 1947. And that crash has been dissected and debated ever since. Aviation/science writer Don Berliner and nuclear physicist Stanton Friedman, the original civilian investigator of the so-called Roswell incident, have delved into the controversy to find the truth. They sifted through once-classified government documents, interviewed military and civilian witnesses, pieced together evidence, considered alternative theories, and concluded that a UFO crashed near Corona-and the U.S. government knew it and covered it up. Crash at Corona proves that what was found in the New Mexico desert wasn't a weather balloon or a secret weapon-it was a UFO. "One of the more credible books arguing the existence of UFOs...Most arresting of all is the testimony of those who handled the debris, who had no opportunity to compare notes, yet have described the

materials ...in almost identical language."-Publishers Weekly DON BERLINER has written more than 300 magazine articles and 25 books on aviation history and space and was also a staff writer for the National Investigations Committee on Aerial Phenomena (NICAP). He is board chairman of the non-profit Fund for UFO Research, Inc., and is a delegate to the UFO Research Coalition. STANTON T. FRIEDMAN is a nuclear physicist who has worked for General Electric, General Motors, Westinghouse, and other corporations. He is also the author of TOP SECRET/MAJIC and has appeared on Larry King, Unsolved Mysteries, and Nightline, and was involved with the documentaries UFOs Are Real and Flying Saucers Are Real. He was the final speaker at the fiftieth anniversary conference at the International UFO Museum and Research Center at Roswell, and has given more than 700 lectures on the subject of UFOs.

Spirited Histories Diana Espírito Santo 2022-08-10 *Spirited Histories* combines ethnography with critical theory to provide a sophisticated exploration of the intersection of haunting and the paranormal with technology, media, and history. Retrieving the past in places of trauma and death can take on many facets. One of these is an attention to hauntings, ghosts, and absences that go with the collective experience of loss and disappearance. People memorialize the dead and their stories in myriad ways. But what about the untold stories, or the forgotten, unnamed? This book explores the ways groups of Chilean paranormal investigators and ghost tour operators produce alternate histories using paranormal machinery, rather than simply theatricalizing pain. It offers a look at technologies, machines, and apparatuses - themselves imbued with a long history of supernatural and scientific expectations - and a social analysis of how certain groups of people marshal the voices of the dead to generate particular micro-histories. This fascinating volume will be of interest to a range of disciplines, including anthropology, sociology, history, religious studies, and scholars of technology and new media.

Confessions of an Egyptologist Erich von Daniken 2021 Bestselling author Erich von Däniken shares the story of a 16-year-old grave-diver who discovered a mysterious labyrinth of the old kings under one of the pyramids of Saqqara. In this book, Erich von Däniken shares the story of his friend Adel H., an Egyptologist, who, as a 16-year-old boy, was trapped for days under the Step Pyramid of Saqqara. Based on his conversations with Adel H., he retells the boy's search for a way out of the underground world, how the boy roamed passageways and chambers and saw what he calls "impossible" things of which the professional world is completely unaware. Adel experienced uncanny events, a mixture of spirit realm and reality, which is described here for the first time. "The story of Egypt," Adel says, "has two sides--the official one and the unknown one." It is secrets like the sights and events Adel experiences underground that von Däniken refers to throughout this book. Von Däniken shows that the Great Pyramid of Giza is nothing but a huge library created for the people of the future. He proves his claim through quotes from the few ancient works that still survive. Who actually had an interest for millennia in destroying knowledge/books? It's not about a few thousand, but about millions of books. Von Däniken documents the fanatical destructive rage of the people and means: If we would only have one ten-thousandth of the former writings, human prehistory would have to be completely rewritten. And where are the lost labyrinths? The one of Crete and the gigantic labyrinth of Egypt, of which all ancient historians reported? Against the background of these revelations, von Däniken turns the spot on to another focus of his book. A paradigm shift in the question of extraterrestrial life: "The gods have already come back. They came down again. They are currently orbiting our planet!"

Articulating Rapa Nui Riet Delsing 2015-05-31 In this groundbreaking study, Riet Delsing narrates the colonization of the Pacific island of Rapa Nui and its indigenous inhabitants. The annexation of the island by Chile, in the heydays of world

imperialism, places the small Latin American country in a unique position in the history of global colonialism. The analysis of this ongoing colonization process constitutes a “missing link” in Pacific Islands studies and facilitates future comparisons with other colonial adventures in the Pacific by the United States (Hawai’i, American Samoa), France (Tahiti), and New Zealand (Maori and Cook Islands). The first part of the book surveys the history of the Chile–Rapa Nui relationship from its beginning in the 1880s until the present. Delsing delineates the Rapanui people’s agency along with their cultural logic, showing their resilience and will to remain Rapanui— indigenous Pacific islanders rather than an ethnic minority forcefully integrated into the Chilean nation-state. In the second part, the author describes the Rapanui’s contemporary emphasis on the revitalization of their language, traditional concepts about land tenure, a unique corpus of material and performative culture, renewed contact with other Pacific island cultures, and creative acts of resistance against Chilean colonialism. Emergent in her analysis is the effect of Rapa Nui’s vibrant tourist industry—commodification of Rapanui difference is creating the possibility to loosen economic and political ties with Chile. Drawing on statements of several Rapanui, she concludes that over the past few decades they have acquired a different kind of interpretive power, based on which they are making choices that serve them as a people on the road to cultural and political self-determination. Contemporary Rapa Nui is thus a modern, articulated place, marked by spirited identity politics that show the resilience and adaptability of the indigenous people who inhabit this island.

middle of a remote desert, sits an extension of the Edwards Air Force facility commonly known as Area 51, but its clandestine purpose and operations remain shrouded in secrecy. It’s a highly classified, restricted area, but, cloaked in conspiracy theories, its history and true function remain a mystery. Or all of the above? Taking a thorough review of the historical record, eyewitness accounts, whistleblower testimony, and deathbed confessions, **Area 51: The Revealing Truth of UFOs, Secret Aircraft, Cover-Ups and Conspiracies** peers behind the classified secrets to understand the nature, history, and scope of the most controversial base in the United States. Redfern investigates the Cold War years, U-2 spy plane, SR-71 Blackbird, and chemical and nuclear weapon research as well as the base’s link to an extraterrestrial presence on Earth, reports of alien autopsies, recovery of non-terrestrial spacecraft, and attempts to duplicate the fantastic, alien technology. From UFOs to secret aircraft and the CIA, shadowy government programs and unexplained events surrounding Area 51 are illuminated, including ... The Gods Never Left Us Erich von Däniken 2017-11-20 The Long Awaited Sequel to the Worldwide Best-seller *Chariots of the Gods* When *Chariots of the Gods* was published 50 years ago, it began a worldwide change in humanity's view of the cosmos. In an era of the military space race, Erich von Däniken boldly proclaimed that

Earth had been visited by more advanced beings early in our history. But prescientific man had no concept of space ships, so he called their vehicles "chariots," and those driving the chariots became "gods." Over the next five decades, von Däniken's more than 40 books built an ever-stronger case for Earth being visited by extraterrestrial visitors. And Chariots became an international best seller, with 30 million copies sold in more than two dozen languages. Also during that time, the case for ET visitations millennia ago was being reexamined by contemporary UFO researchers, who found evidence of modern visitations. And von Däniken expanded his perspective to encompass the present. Now, he presents his long-awaited sequel to Chariots of the Gods, proclaiming that the gods never left us with all-new material to show that ancient aliens are still with us. The Gods Never Left Us contends that recent advancements in biotechnology, astrophysics, engineering, and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it. We are--as a race--embarking on the exact same trajectory of our own interplanetary colonization, just as von Däniken suggested Earth itself was colonized. ETs are definitely at work today. And that affects all of us. Why do they do what they do? What could an extraterrestrial species possibly gain from observing us in the same way we look at ants? What have these strangers wanted for the past thousands of years? Can't they leave us alone? And what makes it so difficult for us to acknowledge the existence of these extraterrestrials? That is what this book deals with. "Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research. As always, he adds his own "to the point" take on it all. Readers may also like that his newest work moves in a slightly different direction from his past books. A thoroughly enlightening and enjoyable Read." --Bruce Cunningham, Director, Ancient Mysteries International LLC & Publisher of Advanced Archaeology Review magazine

Ursula K. Le Guin: The Last Interview Ursula K. Le Guin 2019-02-05 "Resistance and change often begin in art. Very often in our art, the art of words." —Ursula K. Le Guin When she began writing in the 1960s, Ursula K. Le Guin was as much of a literary outsider as one can be: a woman writing in a landscape dominated by men, a science fiction and fantasy author in an era that dismissed "genre" literature as unserious, and a westerner living

far from fashionable East Coast publishing circles. The interviews collected here—spanning a remarkable forty years of productivity, and covering everything from her Berkeley childhood to Le Guin envisioning the end of capitalism—highlight that unique perspective, which conjured some of the most prescient and lasting books in modern literature.

Lost Race of the Giants Patrick Chouinard 2013-09-28 An exploration of mythological and archaeological evidence for prehistoric giants • Examines the many corresponding giant mythologies throughout the world, such as the Greek and Roman titans, Norse frost giants, and the biblical Nephilim • Reveals recent finds of giant skeletons in the deserts of Saudi Arabia and India • Explains how giants passed on their sophisticated culture and civilization to humanity before being wiped out in the great age of cataclysms and floods Giants are a cornerstone of the myths, legends, and traditions of almost every culture on Earth. Stories of giants are often considered fantasies of the ancients or primitive attempts to explain natural phenomena, but archaeological discoveries of 10- and 12-foot skeletons--many of which have been suppressed--confirm the existence of a forgotten golden age of giants before recorded history. Patrick Chouinard examines the staggering number of corresponding giant mythologies throughout the world, such as the Greek and Roman titans, Norse frost giants, the Hindu Daityas, the biblical Nephilim, the Celtic Formorach, the Sumerian Anunnaki, and the multitude of myths in which the sky or world is held aloft on the shoulders of a giant. He links these stories to Atlantis as well as other legends of prehistoric civilizations lost to cataclysm and great floods whose survivors spawned the rise of ancient civilizations. The author reveals how physical remains of giant-size peoples have been found on almost every continent, including recent finds in the deserts of Saudi Arabia, Afghanistan, and northern India as well as hundreds of excavations of giant mummies and skeletons across the United States, corresponding directly with Native American

accounts of red-haired giants. He also examines reports from famous explorers such as Magellan, Sir Francis Drake, and Desoto of their encounters with giants on the North American continent. Revealing how giants represent the true earthborn race, Chouinard explains how they engaged in open conflict with the extraterrestrial gods who created humanity for forced labor and how they passed their sophisticated culture and civilization on to humanity before being nearly wiped out in the great age of cataclysms.

Unmasking the Pagan Christ Stanley E. Porter 2006 Rabbi or Messiah? Prophet or the Son of God? People have debated the identity of Jesus of Nazareth since the first century. But what if there was no Jesus? What if there was no Mary or Joseph, no twelve apostles? What if the story of Jesus was no more than a myth to convey spiritual truth? These claims have been around for hundreds of years and have become more prominent with well-known religion columnist Tom Harpur's recent book, The Pagan Christ. Harpur claims that Jesus was not a historical figure, but was one version of an ancient myth that can be traced from ancient Egyptian religion to the Roman mystery cults. Stanley Porter and Stephen Bedard tackle this radical claim by looking at the roots of

the "pagan Christ idea," examining the supposed pagan parallels and presenting the evidence for the historical Jesus. The authors demonstrate that the suggestion of pagan origins for the Gospel story is not based on historical or textual evidence, but rather on a desire to create a universalistic spirituality revolving around a "Cosmic Christ" within each person. A fair examination of both the mythological and biblical texts reveal that the traditional understanding of an actual historical figure known as Jesus of Nazareth appearing two thousand years ago is indeed the only logical conclusion. Stanley E. Porter is President and Dean, and Professor of New Testament at McMaster Divinity College, Hamilton, Ontario, Canada. Porter has M.A. degrees from Claremont Graduate School and Trinity Evangelical Divinity School, and the Ph.D. from the University of Sheffield. He has written widely on issues of concern in study of the New Testament, such as Jesus, Paul, the book of Acts, and John. He has a passion for education in the church, and preaches and teaches regularly. Stephen J. Bedard is the pastor of Woodford Baptist Church and First Baptist Church, Meaford, Ontario, Canada. He holds the M.Div. and M.Th. degrees from McMaster Divinity College, and is actively engaged in further graduate study. Bedard is an advocate of informed preaching and teaching, and is devoted to the ministry of the local church.

Docufictions John Parris Springer 2014-10-01 Through most of the 20th century, the distinction between the fictional narrative film and the documentary was vigorously maintained. The documentary tradition developed side by side with, but in the shadow of, the more commercially successful feature film. In the latter part of the century, however, the two forms merged on occasion, and mockumentaries (fictional works in a documentary format) and docudramas (reality-based works in a fictional format) became part of the film and television landscape. The 18 essays here examine the relationships between narrative fiction films and documentary filmmaking, focusing on how each influenced the

other and how the two were merged in such diverse films and shows as Citizen Kane, M*A*S*H, This Is Spinal Tap, and Destination Moon. Topics include the docudrama in early cinema, the industrial film as faux documentary, the fear evoked in 1950s science fiction films, the selling of "reality" in mockumentaries, and reality television and documentary forms. The essays provide a foundation for significant rethinking of film history and criticism, offering the first significant discussion of two emerging and increasingly important genres. Instructors considering this book for use in a course may request an examination copy here.

The Legends of the Pyramids Jason Colavito 2021-08-03 Could the Great Pyramid of Giza be a repository of ancient magical knowledge? Or perhaps evidence of a vanished pre-Ice Age civilization? Misinformation and myths have attached themselves to the Egyptian pyramids since ancient Greece and Rome. While many Americans believe that the pyramids were built by aliens, archaeologists understand that the Giza pyramids were built by the pharaohs of the Fourth Dynasty around 2450 BCE. So why is there such a disconnect between scholarly opinion and the popular

view of Egypt? In *The Legends of the Pyramids*, Jason Colavito takes us back to Late Antique Egypt, where the replacement of polytheism with Christianity gave rise to local efforts to rewrite the stories of Egyptian history in the image of the Bible. When the Arab conquest absorbed Egypt into the Islamic community, these stories then passed into Islamic historiography and reentered the West. Colavito's *The Legends of the Pyramids* lays open pop culture's view of Egypt in movies, TV shows, popular books, and New Age beliefs, detailing how the hidden history of Egypt has grown alongside the official history of archaeology and Egyptology.

Impossible Truths Erich Von Daniken 2018-01-16 The author of *Chariots of the Gods* presents astounding theories about alien contact in ancient history—updated with new evidence from his research into formerly inaccessible sites Why do flying machines and astronauts appear in the artworks and sacred texts of all ancient cultures? What is the meaning of the immense earth drawings, impossible to view from the ground, that can be found all over the globe? How could prehistoric cultures have engraved diorite and other hard rock with such incredible precision without the use of modern tools? In this mind-bending new book, Erich von Däniken—bestselling author and expert on extraterrestrial influences on early civilization—draws on his latest research to update his astounding theory that the inhabitants of other planets have kept in contact with humankind since the earliest times. • Assess for yourself the stunning visual evidence presented in some 200 photographs. • Examine previously unpublished testimony from expert informants. • Discover new research undertaken by von Däniken after the opening up of previously inaccessible regions, such as the jungle city “Buritaca 200” in Colombia. Featuring profiles of Machu Picchu, the Nazca Lines, and other archaeological mysteries, *Impossible Truths* shines a startling new light on the true relationship between alien species and humankind.

Black Sun Nicholas Goodrick-Clarke 2002 From the end of World War II to the 1970s, neo-Nazis and other fascist groups relied heavily on rituals and symbols borrowed from the Third Reich. Goodrick-Clarke argues that in response to an ascendant globalization and neo-liberalism, European and American neo-Nazi ideology significantly changed in character, finding inspiration in Aryan cults, aristocratic paganism, anti-Semitic demonology, Eastern religion, and the occult, resulting in a new quasi-mysticism typified by the use of the symbol of the Black Sun as a mystical source of energy capable of regenerating the so-called “Aryan” race. He explores the growth and development of the religious ideology of the movement focusing on such neo-Nazi philosophers as Wilhelm Landig, the popularizer of new volkisch movements; Julio Evola, who incorporates Hindu caste hierarchy ideas into his doctrine of a Gnostic-Manichaeic “Esoteric Hitlerism”; theorists of Nazi-Satanism; and a number of others. The Gods Were Astronauts Erich von Däniken 2002 Why do nearly all the world's major religions share similar myths? Erich Von Däniken, author of the runaway international bestseller *Chariots of the Gods*, believes he knows: the winged deities populating ancient religious texts were in reality extraterrestrials. Fully illustrated with compelling color and black-and-white photographs, the book takes us from Myanmar to Peru's and Egypt's unexplained “landing strips.”

Eyewitness to the Gods Erich Von Daniken 2019-10 The father of the ancient alien theory with more than 65 million books sold reveals everything he has withheld for years. In all his years of service, why didn't Erich von Däniken ever doubt his theory that inhabitants of other planets had come into contact with humanity ages ago, and that they still observe us today? How could von Däniken in all these years say firmly that the UFO phenomenon is real and that people are being abducted by aliens? Why does he repeatedly criticize the official historiography and our religions and

thus accept scorn and hostility? The answers to these questions are: Because Erich von Däniken spoke to people who supported his theories. Because people who saw UFOs or were kidnapped by aliens trusted him. And because experts and insiders inaugurated secrets known to only a few people. In this book, the now 81-year-old presents selected eyewitnesses and insiders for the first time, reveals secrets and stories that he has hitherto kept private, and presents reports and revelations that leave one speechless!

Atlantis and the Silver City Peter Daughtrey 2013-03-05 Delve into an ancient mystery and witness the unveiling of the most complete and persuasive evidence for the real location of the lost empire of Atlantis. More than two thousand years ago, Plato laid out a series of cryptic clues about the location of Atlantis. Since then, countless experts have tried to crack his code. Today, some experts claim Atlantis lies under the volcanic rocks of Santorini. Others place it in the Bermuda Triangle or off the coast of Africa or say it vanished forever beneath the waves of the Atlantic Ocean. But what if Atlantis is closer than we think? What if we could walk the streets of its ancient capital today? After a twenty-year forensic examination of Plato's writings, Peter Daughtrey believes we can do just that. Having matched an unprecedented number of Plato's clues to a modern locale, Daughtrey pinpoints the exact location of the once-glittering capital city of Atlantis and outlines the full reach of the empire. Daughtrey's quest takes him from the dusty stone quarries of Portugal and the hieroglyphs of Egyptian temples to the newly refurbished museums of Baghdad. Along the way, he unearths long-forgotten, vitally significant artifacts, pieces together sensational evidence of a lost alphabet, and identifies today's descendants of this early civilization—and even reveals the location of another undersea settlement from the empire of Atlantis. Hailed as “an intriguing, thought-provoking read” by Graham Hancock, the bestselling author of *Fingerprints of the Gods*, *Atlantis and the Silver City* is a detailed and accurate account of an adventurous journey of discovery, told with

enthusiasm and verve.

Old Fields John R. Stilgoe 2014-03-04 Glamour subverts convention. Models, images, and even landscapes can skew ordinary ways of seeing when viewed through the lens of photography, suggesting new worlds imbued with fantasy, mystery, sexuality, and tension. In *Old Fields*, John Stilgoe—one of the most original observers of his time—offers a poetic and controversial exploration of the generations-long effort to portray glamour. Fusing three forces in contemporary American culture—amateur photography after 1880; the rise of glamour and fantasy; and the often-mysterious quality of landscape photographs—Stilgoe provides a wide-ranging yet concentrated take on the cultural legacy of our photographic history. Through the medium of “shop theory”—the techniques, tools, and purpose-made equipment a maker uses to realize intent—Stilgoe looks at the role of Eastman Kodak in shaping the ways photographers purchased cameras and films, while also mapping the divisions that were created by European-made cameras. He then goes on to argue that with the proliferation of digital cameras, smart phones, and Instagram, young people's lack of knowledge about photographic technique is in direct correlation to their lack of knowledge of the history of glamour photography. In his exploration of the rise of glamour and fantasy in contemporary American culture, Stilgoe offers a provocative and very personal look into his enduring fascination with, and the possibilities inherent in, creating one's own images.

The Egypt Code Robert Bauval 2007-10-01 Why did the ancients align their monuments so precisely with the stars? What were the practical and symbolic reasons behind these mysterious configurations? From the author of *The Orion Mystery*, the best-selling book that introduced the revolutionary star-correlation theory about the Giza pyramids, *The Egypt Code* reveals an

amazing Grand Unified Plan behind the legendary temples of upper Egypt. Robert Bauval, one of the world's most prominent and controversial Egyptologists, completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts. The Egypt Code revisits the Pyramid Age and the Old Kingdom, proposing a vast sky-ground correlation for the Memphite-Heliopolis region, and presenting the possibility of a grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile. The central idea of the book is that the cosmic order, which the ancients referred to as "Maat," was comprised of the observable cycles of the sun and stars, in particular the star Sirius, and that the changes that took place due to the precession of the equinoxes and the so-called Sothic Cycle are reflected in the

orientation and location of religious sites.

Invented Knowledge Ronald H. Fritze 2009-05-15 This incredible exploration of the murky world of pseudo-history reveals the mix of proven facts, informed speculation, and pure fiction behind lost continents, ancient super-civilizations, and conspiratorial cover-ups—as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter-day Saints. Drawing on the best scholarship available, Ronald H. Fritze shows that in spite of strong, mainstream historical evidence to the contrary, many of these ideas have proved durable and gained widespread acceptance. As the examples in *Invented Knowledge* reveal, pseudo-historians capitalize on and exploit anomalies in evidence to support their claims, rather than examining the preponderance of research as a whole.
