Easy-to-read

content, an enhanced focus on preparing for the NCLEX® Examination, and a wealth of tips and study tools make Foundations and Adult Health Nursing, 6th Edition, your must-have text! All-in-one reference includes fundamentals, skills, maternity, pediatric, geriatric, mental health, community, anatomy and physiology, and medical-surgical content - everything you need in one convenient text. Companion CD includes

animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. The consistent, logical framework of the nursing process connects specific disorders to patient care. The Introduction to Anatomy and Physiology chapter and an overview of A&P at the beginning of all body systems chapters provide a clear, basic understanding of A&P that LPN/LVNs need to know. A mathematics review chapter provides a complete review of basic arithmetic skills and

practice in drug dosage calculation to ensure safe medication administration. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. Over 100 skills in a step-by-step format with full-color illustrations present clearly defined nursing actions and rationales for skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to

action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. Coordinated Care boxes emphasize parameters for prioritizing tasks, as well as assigning tasks to and supervising unlicensed assistive personnel. An emphasis on communication features real-life examples of nurse-patient dialogue and illustrates practical guidelines for effective communication. Patient Teaching boxes and Family Teaching

boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion Considerations boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy

People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Complementary and Alternative Therapy boxes includes disorder-specific therapies, precautions, and possible side effects of non-traditional treatments. Enhanced focus on the NCLEX Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment. Additional review questions on Evolve provide instant feedback with

correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts.

### **Adult Health Nursing** Barbara Lauritsen

Christensen 1999 For everything an LPN/LVN student needs to know about medical-surgical, anatomy and physiology, check out ADULT HEALTH NURSING. Now in full color, it provides a detailed overview of only the medical-surgical and anatomy and physiology content needed to educate LPN/LVNs. Created as a complement to the well-respected FOUNDATIONS OF NURSING, these two texts provide the most

comprehensive content needed in a successful LPN/LVN curriculum. This four-color textbook is available separately or packaged with FOUNDATIONS at a competitive price. \*

Therapeutic Dialogues in every chapter provide practical guidelines for effective communication. \* Case study-based Care Plans focus on patient outcomes and the latest NANDA nursing diagnoses. \* Critical Thinking Questions follow each care plan to promote clinical decision making abilities. \* Patient/Family Teaching is stressed in boxes and narrative to highlight this vital nursing responsibility. \* Medication Tables

provide information on action, dosage, side effects, and nursing considerations for commonly used drugs. \* Nursing process framework provides a logical, consistent format. \* Easy-to-understand writing style enhances learning and understanding. \* Numerous boxes and tables highlight and summarize important content. \* Hundreds of full color illustrations and photographs to promote learning.

**Understanding and Evaluating Research** Sue L. T. McGregor 2017-10-25 **Understanding and Evaluating Research: A Critical Guide** aims to sensitize students to the necessity of learning

how not to defer to the mysterious authority of the experts, but rather to learn how to be a critical consumer of others' research, and to gain confidence in their ability to be producers of research. Sue McGregor shows students how to be research literate, and how to find, critique and apply other people's scholarship. This textbook is grounded in a solid understanding of the prevailing research methodologies for creating new knowledge (philosophical underpinnings), which in turn dictate problem posing, theory selection, and research methods (tasks for sampling, collecting and analyzing data, and

reporting results).

Each chapter in this completely revised Study Guide promotes learning, understanding, and

application of the core content covered in the fourth edition of the parent text. Challenging exercises ensure that students meet the learning objectives set by the text. Objectives are included with Activities specific to each Objective. Activities may include any or all of the following: Labeling and Tracing; Matching (Definitions) Completion; Identification; NCLEX-style multiple-choice questions, with textbook page numbers where the content is located for easy reference; and critical thinking questions. Text page references are provided. A complete answer key is provided in the Instructor's Manual.

Nursing Interventions & Clinical Skills Martha Keene Elkin 2004 Nursing Interventions & Clinical Skills provides complete coverage of basic, intermediate, and advanced skills in a streamlined, visually-oriented format. This text features a unique, user-friendly, full-color presentation, with more than a thousand photos and drawings. The nursing process framework and clear, 2-column format with rationales help put nursing skills into the context of care delivery. Skills are clustered, with similar skills covered together, to reflect the way they are commonly taught. Includes basic, intermediate, and

advanced skills. Standard beginning and completion protocols for each skill are summarized on inside front cover for easy reference so that routine steps need not be constantly repeated. Skills are clustered, with similar skills covered together, to reflect the way they are commonly taught. Easy-to-follow 2-column format for skills includes rationales for key steps to help students understand why specific techniques are used. Nurse-Alerts highlight safety issues or critical steps in the skills Glove logo provides a visual reminder to apply clean gloves. Delegation Considerations guide nurses when

assigning a skill to unlicensed assistive personnel. Special considerations include age-related, home-care, and long term care. Communication Tips provide guidelines for students on how to prepare, support, and instruct clients. Over a thousand full-color photographs and drawings clearly show how steps are performed. Six new skills include Wound Vac, Verifying Tube Placement for a Large-Bore or Small-Bore Feeding Tube, Removal of an Indwelling Catheter, Urinary Diversions, Adapting the Home Setting for Clients with Cognitive Deficits, and Medication and Medication Device

Safety. New chapter on Palliative Care (Chapter 39) covers Care of the Dying Client. Includes new 2002 CDC Hand Hygiene guidelines.

Documentation samples focus on how to document unexpected responses. Expanded Home Care and Long Term Care considerations. Client teaching is expanded throughout and incorporated into Communication Tips. Visually highlights sterile gloving step to emphasize the importance of this essential action. *Adult Health Nursing* Barbara Lauritsen Christensen 2003 An ideal companion text to *Foundations of Nursing*, this clearly-written, colorful, and attractively-designed resource prepares the LPN/LVN for today's medical-surgical nursing practice. Content focuses on the nursing process and nursing actions, addressing contemporary issues that include care of the older adult, cultural considerations, delegation to unlicensed assistive personnel, patient/family teaching, and home/long-term care. Used together, these two texts provide all the content covered in the entire LPN/LVN curriculum. The

nursing process is applied consistently and logically to the discussion of disorders and appears in complete summary form at the end of every chapter. Full-color art, photography, and design add visual appeal to text content. An Overview of Anatomy and Physiology opens all body systems chapters. Objectives are divided into Anatomy & Physiology and Medical-Surgical categories. Nursing Care Plans are developed around specific case studies with an emphasis on patient goals, outcomes, and questions to promote critical thinking. Clinical Pathways reflect collaborative care. Assessment is separated out

into Subjective and Objective Data. Nursing Diagnoses paired with disorder-appropriate Nursing Interventions are screened and highlighted in the text. Critical Thinking Questions are found at the end of every Nursing Care Plan. Therapeutic Dialogue boxes focus on communication through real-life examples of nurse-patient dialogue. Patient Teaching boxes examine discharge instructions and health promotion for patients and families. Home Health Considerations boxes discuss issues facing patients and caregivers in the home care setting. Older Adult Considerations boxes bring a

gerontologic perspective to the analysis of specific disorders. Cultural and Ethnic Considerations boxes teach students about specific cultural preferences and how to address the needs of cultural diversity when planning nursing care. Medications tables provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Key Terms appear with phonetic pronunciations at the beginning of the chapter, are in color at first mention, and are defined in the Glossary. Pronunciations have been reviewed by an English as a Second Language (ESL) consultant TOC

reorganized based on reviewers' suggestions to improve accessibility of content Complementary and Alternative Therapy boxes in nearly every chapter give a breakdown of specific therapies, along with precautions and possible side effects End-of-chapter pedagogy is reorganized, with Key Points and Chapter Challenge (Study Questions) immediately following the end of the narrative Chapter Challenge ends the chapter with NCLEX-style multiple-choice Study Questions References and Suggested Readings are revised and updated and, where applicable, are followed by Additional Resources such as agencies and
