A Social History of Indian Football Kausik Bandyopadhyay 2018-10-24

A Social History of Indian Football covers the period 1850-2004. It considers soccer as a derivative sport, creatively and imaginatively adapted to suit modern Indian socio-cultural needs - designed to fulfil political imperatives and satisfy economic aspirations. The book is concerned with the appropriation, assimilation and subversion of sporting ideals in colonial and post-colonial India for nationalist needs. The book assesses the role of soccer in colonial Indian life, to delineate the inter-relationship between those who patronised,

promoted, played and viewed the game, to analyse the impact of the colonial context on the games evolution and development and shed light on the diverse nature of trysts with the sport across the country. Throughout this book, soccer is the lens that illuminates India's colonial and post-colonial encounter. This volume was previously published as a special issue of the journal *Soccer and Society*.

Lost and Found Sarah
Jakes 2014-04-01 Don't
let your past keep you
from a full future. Like
every girl, Sarah Jakes
dreamed of a life full
of love, laughter, and
happy endings. But her
dreams changed
dramatically when she
became pregnant at age
thirteen, a reality only
compounded by the fact
that her father, Bishop
T.D. Jakes, was one of
the most influential
megachurch pastors in
the nation. As a teen
mom and a high-profile
preacher's kid, her road
was lonely. She was
shunned at school,
gossiped about at
church. And a few years
later, when a fairy-tale
marriage ended in a
spiral of hurt and
rejection, she could
have let her pain
dictate her future.
Instead, she found
herself surrounded by a
God she'd given up on,

crashing headlong with
Him into a destiny she'd
never dreamed of.
Sarah's captivating
story, unflinchingly
honest and deeply
vulnerable, is a vivid
reminder that God can
turn even the deepest
pain into His
perfection. More than a
memoir, *Lost and Found*
offers hope and
encouragement. Perhaps
you, like Sarah, find
yourself wandering the
detours of life.
Regardless of how lost
you feel, you, too, can
be found.

Bruce Poon Tip's
extraordinary first-
person account of his
entrepreneurial
instincts to start and
develop G Adventures,
the highly successful
international travel
adventure company - and
along the way he reveals
his unusual management
secrets that not only

keep his employees fully engaged and energized but also keep his customers extremely happy. His unique approach has worked in marvellous ways. Poon Tip has created an entirely new and refreshing approach to management. For example, there is no CEO at G Adventures - instead, every employee is a CEO, empowered to make instantaneous decisions to help clients on the spot. But while there's no CEO, there is a company Mayor, who take the pulse of corporate morale. There's no HR department - but there is a Talent Agency and company Culture Club. It hasn't always been easy to try to balance his desire for a socially responsible company along with the desire to generate profits. But thanks to Poon Tip's vision, G Adventures has flourished and has done

its best to maintain its looptail approach. In short, it's been an extraordinary ride, and in many ways G Adventures is at the vanguard of what modern-day companies are beginning to look like.

The God Code Gregg
Braden 2005-01-01 What
would it mean to
discover an ancient
language—a literal
message—hidden within
the DNA of life itself?
What we once believed of
our past is about to
change. . . . A coded

message has been found
within the molecules of
life, deep within the
DNA in each cell of our
bodies. Through a
remarkable discovery
linking Biblical
alphabets to our genetic
code, the "language of
life" may now be read as
the ancient letters of a
timeless message.
Regardless of race,
religion, heritage, or
lifestyle, the message
is the same in each cell
of every woman, child,
and man, past and
present. Sharing all-
new, fascinating
research, Gregg Braden
discusses the life-
changing discovery that
led him from a
successful career in the

Janey the Vet Janey

Lowes 2020-03-19 'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare

Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer

help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

Javatrekker Dean Cycon 2007-10-17 In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. In Javatrekker: Dispatches from the World of Fair Trade Coffee, a unique hybrid of Fair Trade business, adventure travel, and cultural anthropology, author Dean Cycon brings readers face-to-face with the real people who make our morning coffee ritual possible. Second

only to oil in terms of its value, the coffee trade is complex with several levels of middlemen removing the 28 million growers in fifty distant countries far from you and your morning cup. And, according to Cycon, 99 percent of the people involved in the coffee economy have never been to a coffee village. They let advertising and images from the major coffee companies create their worldview. Cycon changes that in this compelling book, taking the reader on a tour of ten countries in nine chapters through his passionate eye and unique perspective. Cycon, who is himself an amalgam-equal parts entrepreneur, activist, and mischievous explorer-has traveled extensively throughout the world's tropical coffeelands, and shows readers places and

people that few if any outsiders have ever seen. Along the way, readers come to realize the promise and hope offered by sustainable business principles and the products derived from cooperation, fair pricing, and profit sharing. Cycon introduces us to the Mamos of Colombia-holy men who believe they are literally holding the world together-despite the severe effects of climate change caused by us, their "younger brothers." He takes us on a trip through an ancient forest in Ethiopia where many believe that coffee was first discovered 1,500 years ago by the goatherd Kaldi and his animals. And readers learn of Mexico's infamous Death Train, which transported countless immigrants from Central America northward to the U.S.

border, but took a horrifying toll in lost lives and limbs. Rich with stories of people, landscapes, and customs, Javatrekker offers a deep appreciation and understanding of the global trade and culture of coffee. In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. What is Fair Trade Coffee? Coffee prices paid to the farmer are based on the international commodity price for coffee (the "C" price) and the quality premium each farmer negotiates. Fair Trade provides an internationally determined minimum floor price when the C plus premium sinks below

\$1.26 per pound for conventional and \$1.41 for organics (that's us!). As important as price, Fair Trade works with small farmers to create democratic cooperatives that insure fair dealing, accountability and transparency in trade transactions. In an industry where the farmer is traditionally ripped off by a host of middlemen, this is tremendously important. Cooperatives are examined by the Fairtrade Labeling Organization (FLO), or the International Fair Trade Association (IFAT), European NGOs, for democratic process and transparency. Those that pass are listed on the FLO Registry or become IFAT members. Cooperatives provide important resources and organization to small farmers in the form of technical assistance for

crop and harvest improvement, efficiencies in processing and shipping, strength in negotiation and an array of needed social services, such as health care and credit. Fair Trade also requires pre-financing of up to sixty percent of the value of the contract, if the farmers ask for it. Several groups, such as Ecologic and Green Development Fund have created funds for pre-finance lending.

The Isaiah Effect Gregg Braden 2009-02-04

Seventeen hundred years ago, key elements of our ancient heritage were lost, relegated to the esoteric traditions of mystery schools and sacred orders. Among the most empowering of the forgotten elements are references to a science with the power to bring

everlasting healing to our bodies and initiate an unprecedented era of peace and cooperation between governments and nations. In his groundbreaking new book, *The Isaiah Effect*, Gregg Braden turns to the Isaiah Scroll, perhaps the most important of the Dead Sea Scrolls discovered in 1946, to offer insight into a powerful form of ancient prayer. In *The Isaiah Effect*, Braden, author of *Awakening to Zero Point* and *Walking Between the Worlds*, combines research in quantum physics with the works of the prophet Isaiah and the ancient Essenes. He demonstrates how prophecies of global catastrophe and suffering may only represent future possibilities, rather than forecast impending doom, and that we have the power to influence those possibilities. In

addition to describing multiple futures, the Isaiah texts take us one step further, clearly describing the science of how we choose our futures. Tracing key words of Isaiah's text back to their original language, we discover how he taught a mode of prayer that was lost to the West during Biblical editing in the fourth century. Braden offers detailed accounts of how elements of this mode of prayer have been applied in a variety of situations, ranging from healing life-threatening conditions to entire villages using collective prayer to prevail during the 1998 fires in southern Peru. In each instance, the correlation between the offering of the prayer and a shift of the events in question was beyond coincidence--the prayers had measurable effects! As modern

science continues to validate a relationship between our outer and inner worlds, it becomes more likely that a forgotten bridge links the world of our prayers with that of our experience. Each time we engage ourselves, our loved ones, and our communities with Isaiah's life-affirming message of hope, we secure nothing less than our future and the future of the only home we know.
