Towards a New Standard

Massimo Cerruti

2017-01-11 In many

European languages the National Standard

Variety is converging with spoken, informal, and socially marked varieties. In Italian this process is giving rise to a new standard variety called Neo-standard Italian, which partly consists of regional features. This

book contributes to current research on standardization in Europe by offering a comprehensive overview of the re-standardization dynamics in Italian. Each chapter investigates a specific dynamic shaping the emergence of Neo-standard Italian and Regional Standard Varieties, such as the acceptance of previously non-standard features.

the reception of Old Italian features excluded from the standard variety, the changing standard language ideology, the retention of features from Italo-Romance dialects, the standardization of patterns borrowed from English, and the developmental tendencies of standard Italian in Switzerland. The contributions investigate phonetic/phonological, prosodic, morphosyntactic, and lexical phenomena, addressed by several empirical methodologies and theoretical vantage points. This work is of interest to scholars and students working on language variation and change, especially those focusing on standard languages and standardization dynamics.

The Sisterhood Of The Travelling Pants Ann

Brashares 2012-05-01

From the New York Times bestselling author Ann Brashares Best friends Lena, Tibby, Bridget and Carmen, all born within weeks of one another, are preparing to spend their first summer apart. When Carmen buys a pair of second-hand jeans, the girls discover that despite their different physiques, the jeans look great on all of them. They promise to rotate the magical jeans, dubbed 'the travelling pants', amongst them and at the summer's end record their favourite adventure while wearing the pants. The jeans travel the world with the girls, visiting grandparents in Greece, attending soccer camp in Mexico, spending summer with Dad in South Carolina and working at home. They tie together the four distinct

characters, each individual and courageous young woman, as they find their own strength in the face of new love, unexpected friendships, a father's remarriage and a reckless relationship. The result is a true sisterhood of support and acceptance.

Performance and Popular Music Ian Inglis

2017-07-05 Since the emergence of rock'n'roll

in the early 1950s, there have been a number of live musical performances that were not only memorable in themselves, but became hugely influential in the way they shaped the subsequent trajectory and development of popular music. Each, in its own way, introduced new styles, confronted existing practices, shifted accepted definitions, and provided templates for others to follow.

Performance and Popular Music explores these processes by focusing on some of the specific occasions when such transformations

occurred. An international array of scholars reveal that it is through the (often disruptive) dynamics of performance - and the interaction between performer and audience - that patterns of musical change and innovation can best be recognised. Through multi-disciplinary analyses which consider the history, place and time of each event, the performances are located within their social and professional contexts, and their immediate and long-term musical consequences considered. From the Beatles and Bob Dylan to Michael Jackson and Madonna, from Woodstock and Monterey to Altamont and Live Aid, this book provides an indispensable assessment of the importance of live performance in the practice of popular music, and an essential guide to some of the key moments in its history.

What Hell Is Not
Alessandro D'Avenia
2019-01-24 The school year is finished, exams

are over and summer stretches before seventeen-year-old Federico, full of promise and opportunity. But then he accepts a request from one of his teachers to help out at a youth club in the destitute Sicilian neighbourhood of Brancaccio. This narrow tangle of alleyways is controlled by local mafia thugs, but it is also the home of children like Francesco, Maria, Dario, Totò: children with none of Federico's privileges, but with a strength and vitality that changes his life forever. Written in intensely passionate and lyrical prose, *What Hell Is Not* is the phenomenal Italian bestseller about a man who brought light to one of the darkest corners of Sicily, and who refused to give up on the future of its children.

Wait Till I'm Dead Allen Ginsberg 2016-02-02
Rainy night on Union Square, full moon. Want more poems? Wait till I'm dead.—Allen Ginsberg, August 8, 1990, 3:30 A.M. The first new Ginsberg collection in over fifteen years, *Wait Till I'm Dead* is a landmark publication, edited by renowned Ginsberg scholar Bill Morgan and introduced by award-winning poet and Ginsberg enthusiast Rachel Zucker. Ginsberg wrote incessantly for more than fifty years, often composing poetry on demand, and many of the poems collected in this volume were scribbled in letters or sent off to obscure publications and

unjustly forgotten. *Wait Till I'm Dead*, which spans the whole of Ginsberg's long writing career, from the 1940s to the 1990s, is a testament to Ginsberg's astonishing writing and singular aesthetics. Following the chronology of his life, *Wait Till I'm Dead* reproduces the poems together with extensive notes.

Containing 104 previously uncollected poems and accompanied by original photographs, *Wait Till I'm Dead* is the final major contribution to Ginsberg's sprawling oeuvre, a must-read for Ginsberg neophytes and longtime fans alike.

help school staff members and others broaden their view of assessment and put assessment into the broader context of school restructuring while keeping the focus on students. The handbook is arranged in sections, each dealing with a separate topic. Each section contains a number of papers by different authors that represent the best thinking on the topic. Each section begins with an overview that discusses the major perspectives, ideas, issues, and concerns that relate to the section topic and describes how each paper fits into this fabric. The sections are: (1) "Setting the Stage"; (2) "Placing Student Performance Assessment within the Context of School Restructuring"; (3) "Developing Student Learning Goals for the 21st Century"; (4) "Aligning Assessment with Curriculum and Instruction"; (5) "Designing Performance Tasks"; (6)

"Establishing Performance Criteria"; (7) "Using Performance Assessment Information for Improvement"; and (8) "Implementing Performance Assessment."

In all, there are 98 papers in the handbook and 3 "resources": a glossary, a list of assessment information sources, and a list of contributors. Most of the articles contain references and illustrations. (SLD)

Doctors and Healers
Tobie Nathan 2018-08-08

We think we know what healers do: they build on patients' irrational beliefs and treat them in a 'symbolic' way. If they get results, it's thanks to their capacity to listen, rather than any influence on a clinical level. At the same time, we also think we know what modern medicine is: a highly technical and rational process, but one that scarcely listens to patients at all. In this book, ethnopsychiatrist Tobie Nathan and philosopher Isabelle Stengers argue that

commonly posed opposition between traditional and modern medicine is misleading. They show instead that healers are interesting precisely because they don't listen to patients, using techniques of 'divination' rather than 'diagnosis'. Healers construct genuine therapeutic strategies by identifying the origins of symptoms in external forces, outside of the mind of the sufferer. Modern medicine, for its part, is characterized by empiricism rather than rationality. What appears to be the pursuit of rationality is ultimately only a means to dismiss and exclude other forms of treatment. Blurring the distinctions between traditional and modern practices and drawing on perspectives from across the globe, this ethnopsychiatric manifesto encourages us to think in radically new ways about illness, challenging accepted notions on the

relationship between sufferer and symptom.

World Music: A Very Short Introduction

Philip V. Bohlman

2002-05-30 'World music' emerged as an invention of the West from encounters with other cultures. This book draws readers into a remarkable range of these historical encounters, in which music had the power to evoke the exotic and to give voice to the voiceless. In the course of the volume's eight chapters the reader witnesses music's involvement in the modern world, but also the individual moments and particular histories that are crucial to an understanding of music's diversity. World Music is wide-ranging in its geographical scope, yet individual chapters provide in-depth treatments of selected

music cultures and regional music histories. The book frequently zooms in on repertoires and musicians - such as Bob Marley, Bartok, and Nusrat Fateh Ali Khan - and attempts to account for world music's growing presence and popularity at the beginning of the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The House in the Tree

Bianca Pitzorno 2017-04
All children dream of
having a secret house
where they can live on
their own, far from any
rules and regulations.
But not all of them are
as lucky as Aglaia, who
lives at the top of a
magical tree together
with her friend Bianca
and an incredible host
of flying dogs, talking
cats, carnivorous
flowers and children who
speak in verse.
Inventively illustrated
by Quentin Blake,
Aglaia's adventures -

Marcovaldo Italo Calvino
2012-10-26 A charming
portrait of one man's
dreams and schemes, by
"the greatest Italian
writer of the twentieth
century" (The Guardian).
In this enchanting book
of linked stories, Italo
Calvino charts the
disastrous schemes of an
Italian peasant, an
unskilled worker in a
drab northern industrial
city in the 1950s and
'60s, struggling to
reconcile his old
country habits with his
current urban life.
Marcovaldo has a
practiced eye for
spotting natural beauty
and an unquenchable
longing for the
unspoiled rural world of
his imagination. Much to
the continuing
puzzlement of his wife,
his children, his boss,
and his neighbors, he
chases his dreams and
gives rein to his
fantasies, whether it's
sleeping in the great
outdoors on a park
bench, following a stray
cat, or trying to catch
wasps. Unfortunately,
the results are never

quite what he
anticipates. Spanning
from the 1950s to the
1960s, the twenty
stories in Marcovaldo
are alternately comic
and melancholy, farce
and fantasy. Throughout,
Calvino's unassuming
masterpiece "conveys the
sensuous, tangible
qualities of life" (The
New York Times).

in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

Polish Scientific

Philosophy Francesco Coniglione 1993 One can often encounter an opinion that Polish scientific (or analytic) philosophy (or the Lvov-Warsaw School) deserves to be much better known than actually is. This book is thought as a response to such a claim. The papers collected in this volume are divided into two parts: Background and Influence and History and Systematics. However, there is no sharp borderline between themes which are touched in both parts. Generally speaking, all papers of the first part relate the Lvov-Warsaw School to some philosophical movements (Brentanism, phenomenology and Marxism) external to it whereas the papers collected in the second one focus on internal issues connected with the school (only Roberto Poli takes into account Brentano's views in his discussion of reism). Since the Polish school of mathematical logic is much better known than the Polish analytical

philosophy we decided to omit here any treatment of the former. Thus, this collection centers on purely philosophical matters. We projected this volume not as an exhaustive panorama of Polish analytic philosophy but rather as a series of essays on particular persons or topic. As a result one can find here papers on Twardowski, Ajdukiewicz, Kotarbinski, Tarski and Lukasiewicz as well as on ethics on science, nominalism, and the methodology of psychology. We hope that this book will contribute to a better knowledge and evaluation of Polish achievements in analytic philosophy. We would like to express our gratitude to Professor Leszek Nowak, the editor-in-chief of Poznan Studies in the Philosophy of the Sciences and the Humanities, who initiated the idea of the collection and helped in its preparation.
