Volkswagen Beetle Cabriolet Malcolm Bobbitt 2022-01-21 Written by Malcolm Bobbitt - whose companion Volkswagen titles cover the Karmann Ghia coupé and convertible, and possibly the greatest classic of all time, the VW Bus - this new edition of Volkswagen Beetle Cabriolet chronicles the history of this practical and sought after convertible Beetles from the classic era. The author traces the Beetle Cabrio's ancestry from its pre-war origins, following its development through to 1980, by which time more than 330,000 examples had been built, and up to the present day, when the New Beetle cabriolet continues to be in strong demand worldwide. As VW's engineering quality has ensured a very high survival rate, this book is also a guide to Beetle Cabrio ownership, providing buying advice, specifications, and information on customising. Includes a chapter

devoted to the New Beetle. *VW Transporter and Microbus Specification Guide 1967-1979* Vincent Molenaar 2013-03-01 This comprehensive guide is the first one to tell the whole story of the Volkswagen Bay-Window Transporter, produced from 1967 - 1979. This new paperback edition deals with the Transporter's development, its technical evolution, the model codes, the specification detail changes, the factory fitted M-codes and Transporter export. Using this book, Bus enthusiasts can crack the codes of their own specific vehicle, to find out the factory-fitted specifications like paint and trim colours, engine and transmission types, and even the date of manufacture, model and destination code. The first guide to tell the whole story of the VW Bay-Window Transporter. The photographs took over three years to collect from Volkswagen archives resulting in an invaluable source of crucial information for restoration. Superbly illustrated with 470 colour photographs. Vincent Molenaar and Alexander Prinz are keen experts on Bay-Window buses.

VW Beetle Specification Guide 1949-1967 Richard Copping 2018-10-31 The VW Beetle is one of the best-loved of all classic cars, with many thousands preserved across the world, many in regular use. Over the years countless changes were introduced, together making a mid sixties Beetle, for instance, very different from one built in the mid-50s, or mid-70s, despite the obvious similarities. With the aid of hundreds of full colour photographs this new edition in paperback documents all the Beetle's specification changes and model differences during the classic period 1949-67, making it possible to determine the original specification and fittings of any Beetle from this period. Uses the same format as for the highly successful VW Transporter spec guides. Aimed at early-Beetle owners and enthusiasts. Superbly illustrated with 300 colour photographs. New edition in paperback for 2018.

VW Phaeton - Did Zeus' anger hit sales of Volkswagen's luxury car Sven Röhme 2004-05-03

Essay from the year 2003 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 74% (A) entspricht 1,0, University of Teesside (Tesside Business School), course: Managing Markets, language: English, abstract: After the introduction of the first Volkswagen luxury car in May 2002, sales are still far behind the Volkswagen's expectation (Handelsblatt, 2003). It seems that the VW Phaeton faces the same destiny as its antique namesake Phaeton. In the Greek mythology, Phaeton was the son of Helios, the sun god. Helios has driven the family chariot across the sky, wearing the rays of the sun as a crown, lighting the day. One day Phaeton convinced his father to lend him the beautiful chariot. But Phaeton, in contrast to his father, was not able to drive the chariot appropriately, and drove the chariot so close to the earth that he boiled the oceans and scorched the land. So Zeus had to stop him by killing him with a lightning bolt (Vaughn, 2003). Volkswagen certainly had not considered this explanation when naming the Phaeton, but referred more likely to the second meaning of Phaeton; an elegant carriage of the 17th century which the owners drove

on their own. Nevertheless, there are signs that the Volkswagen engagement in the high-class (luxury) car market is tougher than expected. It seems people are less persuadable to buy a high-quality car of the experienced and renowned German car manufacturer. This shows the divergence of the formerly targeted 12.000 to 15.000 units (Weernink, 2001) annually in global sales 2003 which is opposed by the actual numbers of only 2.600 units in Germany - the main market of the Phaeton - from January to October (Kraftfahrtbundesamt KBA) and estimated sales of 3500 units worldwide (Handelsblatt, 2003). The targeted sales of 20.000 units in 2004 (Weernink, 2003) seem to be completely unrealistic. But the Volkswagen top-management remained silent. Although Volkswagen always claims that the Phaeton's technology, specifications and passenger protection is absolutely comparable with the competing Mercedes S-Class, BMW 7 and Audi A8, customers seem to spot a big disadvantage of the VW Phaeton - the lack of perception and the missing customer benefit of expressing the driver's status.
