**Rural Sociology in India** A.R. Desai 1994  
**Embryology of Angiosperms** B. M. Johri  
2012-12-06 Thirty-four years have elapsed since  
the publication of the late Professor P.

Maheshwari's text, An Introduction to the  
Embryology of Angiosperms, a work which for  
many years served as an invaluable guide for  
students and a rich source book for research  
workerso Various texts dealing with sections of

the broad spectrum of topics encompassed by Maheshwari in his book have appeared in the interim, but a compendious modern work dealing with the whole field has been lacking. This present volume splendidly meets the need, and it is altogether fitting that Professor B. M. Lohri, long an associate and close colleague of Professor Maheshwari and himself a prolific contributor to the subject, should have undertaken the task of editing it. When Maheshwari wrote, it was still feasible for one author to handle the subject, but today even someone with his fine breadth of vision and depth of understanding could not, alone, do it justice. So the effort has to be a collaborative one; and Professor Lohri's achievement has been to bring together a team of authoritative collaborators, assign them their responsibilities, and put them to work to produce a text as integrated in its treatment as the diversity of the subject would allow. The product vividly illustrates the advances that have been made in

the study of angiosperm reproductive systems in the last 30 years, and the book is surely destined to become the new standard for student and researcher alike.

**Principles of Marketing** John F. Tanner, Jr.  
Environment and Society Magnus Boström

2018-06-13 This book offers a critical analysis of core concepts that have influenced contemporary conversations about environment-society relations in academic, political, and civil circles. Considering these conceptualizations are currently shaping responses to environmental crises in fundamental ways, critical reflections on concepts such as the Anthropocene, metabolism, risk, resilience, environmental governance, environmental justice and others, are well-warranted. Contributors to this volume, working across a multitude of areas within environmental social science, scrutinize underlying worldviews and assumptions, asking a common set of key questions: What are the different concepts able to explain? How do they take into account society-environment relations?

What social, cultural, or geo-political biases and blinders are inherent? What actions or practices do the concepts inspire? The transdisciplinary engagement and reflexivity regarding concepts of environment-society relations represented in these chapters is needed in all spheres of society—in academia, policy and practice—not the least to confront current tendencies of anti-reflexivity and denialism.

**At the Bottom of Indian Society** Stephen Fuchs 1981 Description: In recent years the harijan problem has become very acute in india's social and political life. The problem of caste and untouchability has been discussed from various viewpoints, not always with due impartiality and a thorough knowledge of the facts. It gives a new explanation for the origin of caste and untouchability, dating it back to the pre-indian past of the arjans and dravidians. It contributes greatly to a better knowledge of the harijans by a short description and characterisation of all the individual harijan castes throughout india. Such a study had never been undertaken before. This study of the harijans has enabled the author to arrive at new conclusion hitherto rarely

mentioned in the literature on caste and untouchability: 1. The problem of untouchability originated among the high castes. Therefore, for the abolition of untouchability, the high-castes must be tackled first. They must be convinced that untouchability is to their own economic and social disadvantage. So far reformers have attacked the problem at the wrong end: by trying to uplift the harijans. No wonder they failed. 2. The indian high-castes are not consistent in linking untouchability with certain impure occupations. The stigma of untouchability is attached to certain trades in one region, while in other regions workers in the same trade are not excluded from the hindu fold. 3. Various trades, ritually pure and impure, are closely connected in indian economy. This explains why certain trades, though apparently ritually pure, yet can be carried out only by untouchables. The conclusions presented in the present book may have important practical implications for the abolition of untouchability

and thus for the solution of a national problem which causes so much political unrest and untold suffering to vast masses of the indian population, at the same time blackening the fair image of the indian nation in the world. *Indira Bai* Gulvadi Venkata Rao 2019-06-10  
Indira Bai, born in an orthodox Saraswat Brahmin family in the small town of Kamalapura, is married and widowed as a child. The bright, curious girl resists forces of social conservatism—the mindless chores and cruel rituals of widowhood. To reform her, the head of the religious mutt is brought in. When he tries to seduce her, a distraught Indira runs away to eminent lawyer Amrita Raya’s house. Encouraged in her pursuit of knowledge and freedom, Indira acquires a matriculation degree and later chooses to marry Assistant Collector Bhaskara Rao. This novel, laced with feminist intent, traces Indira’s self-fashioning into a modern, educated, and assertive woman. Published in 1899, *Indira Bai* documents the transformation of the Saraswat Brahmin community based in the erstwhile South Canara region of Karnataka due to the encounter between the Kannada social world and colonial

modernity. Simultaneously, this text of social history represents the pan-Indian churning provoked by the reform movement in the nineteenth century, with its central focus on the condition of women.
