Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy Francesca Helm 2015-12-02 The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

Metaphors for Personal & Professional Evolution Consuelo Casula 2021-03 The metaphor is a flexible, powerful tool to indirectly promote positive change. *Metaphors for Personal & Professional Evolution: Princesses, Porcupines and Garderers* is a literary gem, written by a teacher/psychotherapist who offers readers detailed sequential instructions. Readers learn to identify situations in which metaphors may offer options for introduction of change, and then work their way through the uses, ideas, construction, and delivery. As metaphors, by nature, allow the readers and listeners to reach their own conclusions, the problem-solving efforts are experiential by nature. This approach can be far more effective in bringing about cooperation and acceptance than a more straightforward or direct request could bring. This book is an instructional generously laden with examples. As the stories within are told, readers remember their own internal processes of problem -solving and how it has changed through personal growth, maturation and life circumstances. An Italian classic, this book has previously been translated in to four other languages. The two translators are psychotherapists, each known for their effective use of metaphors in therapy. Their own language skills, along with their own professional and personal experiences led to a commitment to be as true to the original manuscript as possible. The English translation reflects a careful commitment to remain true to the author's original message and manner of expression. Now it is brought to a wide group of English readers with the expectation that materials will be meaningful in both personal and professional applications. Whether you want change for yourself personally, whether you seek to be a more effective teacher and leader, or whether you are merely interested in reading a fascinating study on the potency of bringing about change from an indirect direction, this piece of literature will speak to you, and perhaps through you.

Pezzettino Leo Lionni 2012-01-10 A classic fable about the search for identity, from Caldecott Honor winning picture book creator Leo Lionni. Pezzettino lives in a world in which everyone is big and does daring and wonderful things. But he is small, just a "little piece," which is the meaning of pezzettino in Italian. How Pezzettino learns that he belongs to no one but himself is the joyous and satisfying conclusion to this beautiful mosaic style picture book.

Globalizing the student rebellion in the long '68 Andrés Payà Rico, 2018-09-28 This volume brings us closer to the dynamics of the educational world, especially students, from a wide range of national and regional scenarios, with a special focus on Europe and Latin America. In this way, a plural panorama is shown, in which the stories centered on the usual protagonists of the 1968 processes are accompanied by other scenarios, often considered secondary, but which this volume inserts in a more general story that helps us understand how the processes of the 60s were not concrete or national, but got an absolute regional and global significance. We see a complex process of transnational demand that ranged from Eastern Europe, included in the Soviet bloc, to the very heart of the Western Hemisphere, with the United States as the main axis, passing through the politically varied Western Europe, submitted to the same processes and cultural influences. In this sense, to the works that deal with the United States and France, are added others focused on Italy, Spain and Brazil, as priority focus areas, together with other European and Latin American landscapes: Great Britain, Portugal, Greece, Slovakia, Hungary, Chile, Uruguay and Mexico, without missing, in addition, the case of one of the most unique actors on the international scene: the State of Israel. With this volume, we want to continue advancing in the knowledge of the educational world of the second half of the 20th century. Great are the challenges of this world at the beginning of the 21st century and many of them were already evident in 1968. Others have materialized as a result of those events. To confront both of them, we must first identify and analyze them, as well as being aware of their magnitude. We hope that all this work can contribute to this aim.

Damascus Nights Rafik Schami 2014-08-08 Rafik Schami's award-winning novel. In the classical Arab tradition of tale-telling, here is a magical book that celebrates the power of storytelling, delightfully transformed for modern sensibilities by an award-winning author. The time is present-day Damascus, and Salim the coachman, the city's most famous storyteller, is mysteriously struck dumb. To break the spell, seven friends gather for seven nights to present Salim with seven wondrous "gifts"—seven stories of their own design. Upon this enchanting frame of tales told in the fragrant Arabian night, the words of the past grow fainter, as ancient

customs are yielding to modern turmoil. While the hairdresser, the teacher, the wife of the locksmith sip their tea and pass the water pipe, they swap stories about the magical and the mundane: about djinnis and princesses, about contemporary politics and the difficulties of bargaining in a New York department store. And as one tale leads to another... and another... all of Damascus appears before your eyes, along with a vision of storytelling—and talk—as the essence of friendship, of community, of life. A sly and graceful work, a delight to readers young and old, Damascus Nights is, according to Publishers Weekly, "a highly atmospheric, pungent narrative."

Scars Like Wings Erin Stewart 2021-01-12 Relatable, heartbreaking, and real, this is a story of resilience—the perfect novel for readers of powerful contemporary fiction like *Girl in Pieces* and *Every Last Word*. Before, I was a million things. Now I'm only one. The Burned Girl. Ava Lee has lost everything there is to lose: Her parents. Her best friend. Her home. Even her face. She doesn't need a mirror to know what she looks like—she can see her reflection in the eyes of everyone around her. A year after the fire that destroyed her world, her aunt and uncle have decided she should go back to high school. Be "normal" again. Whatever that is. Ava knows better. There is no normal for someone like her. And forget making friends—no one wants to be seen with the Burned Girl, now or ever. But when Ava meets a fellow survivor named Piper, she begins to feel like maybe she doesn't have to face the nightmare alone. Sarcastic and blunt, Piper isn't afraid to push Ava out of her comfort zone. Piper introduces Ava to Asad, a boy who loves theater just as much as she does, and slowly, Ava tries to create a life again. Yet Piper is fighting her own battle, and soon Ava must decide if she's going to fade back into her scars . . . or let the people by her side help her fly.

Reading for Learning Maria Nikolajeva 2014-06-15 How does reading fiction affect young people? How can they transfer fictional experience into real life? Why do they care about fictional characters? How does fiction enhance young people's sense of self-hood? Supported by cognitive psychology and brain research, this ground-breaking book is the first study of young readers' cognitive and emotional engagement with fiction. It explores how fiction stimulates perception, attention, imagination and other cognitive activity, and opens radically new ways of thinking about literature for young readers. Examining a wide range of texts for a young audience, from picturebooks to young adult novels, the combination of cognitive criticism and children's literature theory also offers significant insights for literary studies beyond the scope of children's fiction. An important milestone in cognitive criticism, the book provides convincing evidence that reading fiction is indispensable for young people's intellectual, emotional and social maturation.

The Most Important Thing Antonella Abbatiello 2022-03-15 The animals of the forest have assembled to discuss what is the most important thing: to have a trunk like an elephant, quills like a porcupine, or a long neck like a giraffe? Naturally, every animal is convinced that its particular trait is the most important one and that everyone should have it. But when the double pages open to show all the animals with the quills of a porcupine, the long neck of a giraffe, or the trunk or the elephant, everyone must agree that the true importance lies precisely in their collective 'diversity'. It is that which makes them all unique and essential to life of the forest. *The Most Important Thing* received a UNESCO honorable mention for peace and collaboration. An important message of diversity and inclusion delivered in the form of a charming modern fable.

Physiologus 1979 One of the most popular and widely read books of the Middle Ages, "Physiologus" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587

version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "Physiologus" will delight readers with its ancient tales of ant-lions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book. Raymond A. Sokolov, "New York Times Book Review" **Stones into Schools** Greg Mortenson 2009-12-01 From the author of the #1 bestseller *Three Cups of Tea*, the continuing story of this determined humanitarian's efforts to promote peace through education In this dramatic first-person narrative, Greg Mortenson picks up where *Three Cups of Tea* left off in 2003, recounting his relentless, ongoing efforts to establish schools for girls in Afghanistan; his extensive work in Azad Kashmir and Pakistan after a massive earthquake hit the region in 2005; and the unique ways he has built relationships with Islamic clerics, militia commanders, and tribal leaders. He shares for the first time his broader vision to promote peace through education and literacy, as well as touching on military matters, Islam, and women—all woven together with the many rich personal stories of the people who have been involved in this remarkable two-decade humanitarian effort. Since the 2006 publication of *Three Cups of Tea*, Mortenson has traveled across the U.S. and the world to share his vision with hundreds of thousands of people. He has met with heads of state, top military officials, and leading politicians who all seek his advice and insight. The continued phenomenal success of *Three Cups of Tea* proves that there is an eager and committed audience for Mortenson's work and message.

A History of Childhood Colin Heywood 2017-12-08 Colin Heywood's classic account of childhood from the early Middle Ages to the First World War combines a long-run historical perspective with a broad geographical spread. This new, comprehensively updated edition incorporates the findings of the most recent research, and in particular revises and expands the sections on theoretical developments in the 'new social studies of childhood', on medieval conceptions of the child, on parenting and on children's literature. Rather than merely narrating their experiences from the perspectives of adults, Heywood incorporates children's testimonies, 'looking up' as well as 'down'. Paying careful attention to elements of continuity as well as change, he tells a story of astonishing material improvement for the lives of children in advanced societies, while showing how the business of preparing for adulthood became more and more complicated and fraught with emotional difficulties. Rich with evocative details of everyday life, and providing the most concise and readable synthesis of the literature available, Heywood's book will be indispensable to all those interested in the study of childhood.

Bookmarks - A manual for combating hate speech online through human rights education 2014-05-13 The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one of the most worrying

forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks is published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.

Feeding the City Sara Roncaglia 2013-07-15 Every day in Mumbai 5,000 dabbawalas (literally translated as "those who carry boxes") distribute a staggering 200,000 home-cooked lunchboxes to the city's workers and students. Giving employment and status to thousands of largely illiterate villagers from Mumbai's hinterland, this co-operative has been in operation since the late nineteenth century. It provides one of the most efficient delivery networks in the world: only one lunch in six million goes astray. Feeding the City is an ethnographic study of the fascinating inner workings of Mumbai's dabbawalas. Cultural anthropologist Sara Roncaglia explains how they cater to the various dietary requirements of a diverse and increasingly global city, where the preparation and consumption of food is pervaded with religious and cultural significance. Developing the idea of "gastrosemantics" - a language with which to discuss the broader implications of cooking and eating - Roncaglia's study helps us to rethink our relationship to food at a local and global level.

Il re della foresta Alessandro Ghebreigziabiher Ben è molto orgoglioso di essere un leone. Abbandonato fin da piccolo dai genitori, fuggiti per non cadere nelle mani dei bracconieri, è vissuto col mito del coraggio e della forza, ma soprattutto alimentando l'odio verso la paura. Da tutto ciò potrete capire quanto Ben trovi difficile aprirsi col suo branco, più che mai

per un grande segreto. Non è proprio vero che non abbia paura di niente...

Jesuit Kaddish James Bernauer, S.J. 2020-03-30 While much has been written about the Catholic Church and the Holocaust, little has been published about the hostile role of priests, in particular Jesuits, toward Jews and Judaism. Jesuit Kaddish is a long overdue study that examines Jesuit hostility toward Judaism before the Shoah and the development of a new understanding of the Catholic Church's relation to Judaism that culminated with Vatican II's landmark decree *Nostra aetate*. James Bernauer undertakes a self-examination as a member of the Jesuit order and writes this story in the hopes that it will contribute to interreligious reconciliation. Jesuit Kaddish demonstrates the way Jesuit hostility operated, examining Jesuit moral theology's dualistic approach to sexuality and, in the case of Nazi Germany, the articulation of an unholy alliance between a sexualizing and a Judaizing of German culture. Bernauer then identifies an influential group of Jesuits whose thought and action contributed to the developments in Catholic teaching about Judaism that eventually led to the watershed moment of *Nostra aetate*. This book concludes with a proposed statement of repentance from the Jesuits and an appendix presenting the fifteen Jesuits who have been honored as "Righteous Among the Nations" by Israel's Yad Vashem Holocaust Center. Jesuit Kaddish offers a crucial contribution to the fields of Catholicism and Nazism, Catholic-Jewish relations, Jesuit history, and the history of anti-Semitism in Europe.
