and themes in the book, connecting them to Murdoch's larger oeuvre, as well as to central themes in 20th century and contemporary thought. The essays bring forth the strength, originality, and continuing relevance of Murdoch's late thought, addressing, among other matters, her thinking about the Good, the role and nature of metaphysics in the contemporary world, the roles of art in human understanding, questions of unity and plurality in thinking, the possibilities of spiritual life without God, and questions of style and sensibility in intellectual work.

*iris-murdoch-springer*

2023-02-13 The novelist and philosopher Iris Murdoch and the painter Harry Weinberger engaged in over twenty years of close friendship and intellectual discourse, centred on sustained discussion of the practice, teaching and morality of art.

This book presents a reappraisal of Murdoch's novels – chiefly, three mature novels, *The Sea, The Sea* (1978), *Nuns and Soldiers* (1980) and *The Good Apprentice* (1985), and two enigmatic late novels, *The Green Knight* (1993) and *Jackson's Dilemma* (1995) – perceived through the prism of her discourse with Weinberger.

It draws upon a run of almost

Weinberger, and upon Murdoch's philosophical writings, Weinberger's private writings, the remarks of both artists in numerous interviews, and other material relating to their views on art and art history, much of which is unpublished and has received no previous critical attention. Scrutiny of their shared values, methods and the imagistic dialogue that takes place in their art provides original perspectives on Murdoch's creativity, and new ways of understanding her experimentation with the visual arts. Moreover, this book provides a new line of enquiry into many of Murdoch's other

novels, and more generally into the relationship between the visual arts and literature.

This study is supported by close readings of selected novels exemplifying the subtle variety of ways she deploys music, sounds and silence in her fiction. It also covers Murdoch's knowledge of music and her allusions to music throughout her work, and includes a survey of musical settings of her words by various composers.

### **Varieties of Virtue Ethics** David

Carr 2016-11-30 This book explores recent developments in ethics of virtue. While acknowledging the Aristotelian roots of modern virtue ethics – with its emphasis on the moral importance of character – this collection recognizes that more recent accounts of virtue have been shaped by many other influences, such as Aquinas, Hume, Nietzsche, Hegel and Marx, Confucius and Lao-tzu. The authors also examine the bearing of virtue ethics on other disciplines such as psychology, sociology and theology, as well as attending to some wider

public, professional and educational implications of the ethics of virtue. This pioneering book will be invaluable to researchers and students concerned with the many contemporary varieties and applications of virtue ethics.

*Murdoch on Truth and Love*

Gary Browning 2018-06-19 This book reviews Iris Murdoch's thought as a whole. It surveys the breadth of her thinking, taking account of her philosophical works, her novels and her letters. It shows how she explored many aspects of experience and brought together apparently contradictory concepts such as truth and love. The volume

deals with her notions of truth, love, language, morality, politics and her life. It shows how she offers a challenging provocative way of seeing things which is related to but distinct from standard forms of analytical philosophy and Continental thought. Unlike so many philosophers she does offer a philosophy to live by and unlike many novelists she has reflected deeply on the kind of novels she aimed to write. The upshot is that her novels and her philosophy can be read together productively as contributions to how we can see others and the world.

frightfulness and ruthlessness of being in love, from the author of the Booker Prize-winning novel *The Sea, The Sea* Martin Lynch-Gibson believes he can possess both a beautiful wife and a delightful lover. But when his wife, Antonia, suddenly leaves him for her psychoanalyst, Martin is plunged into an intensive emotional reeducation. He attempts to behave beautifully and sensibly. Then he meets a woman whose demonic splendor at first repels him and later arouses a consuming and monstrous passion. As his Medusa informs him, “this is nothing to do with happiness.”

*A Severed Head* was adapted

for a successful stage production in 1963 and was later made into a film starring Claire Bloom, Lee Remick, Richard Attenborough, and Ian Holm.

uncovers the importance and significance of such concepts as transcendence, loss, self, other, love, and home for establishing and maintaining a human life and world, and recovering it, should it be lost. Written with both clarity and academic rigour, this book offers novel ideas, firmly grounded in existing philosophical literature, and is intended for both professional scholars and general readers of Améry.

**Metaphysics as a Guide to Morals** Iris Murdoch 1994-03-01  
The decline of religion and ever increasing influence of science pose acute ethical issues for us all. Can we reject the literal

truth of the Gospels yet still retain a Christian morality? Can we defend any 'moral values' against the constant encroachments of technology? Indeed, are we in danger of losing most of the qualities which make us truly human? Here, drawing on a novelist's insight into art, literature and abnormal psychology, Iris Murdoch conducts an ongoing debate with major writers, thinkers and theologians—from Augustine to Wittgenstein, Shakespeare to Sartre, Plato to Derrida—to provide fresh and compelling answers to these crucial questions.

Murdoch 2010-07-20 In a crumbling London rectory after the Second World War, a priest descends into madness in this tale of good and evil by a Man Booker Prize winner. Carel Fisher was once a bastion of faith, a shining example of

Anglican goodness and Christian values. But time and circumstance have worn him down as surely as the bombs of the Blitz have broken apart the very walls around him. His convictions have vanished and his belief in mankind has tarnished. Imprisoned within his own mind and the decaying walls of his ruined rectory, he has few companions left: his niece and his household staff, all of whom become collateral damage as Father Carel's reality becomes a twisted mirror for his views on the human condition. As relationships and desires, resentments and retributions, begin to crowd the small church, secrets are

revealed that will shatter the lives of all involved, no matter how good or innocent they are. At once haunting and mysterious, *The Time of the Angels* is a captivating tale of madness and morality that “excites and delights,” while calling into question ideas of religion and decency in a world torn apart by the aftereffects of war (The New York Times).

modernists who, far from presenting perfect, finished models for life and the self, embrace raw and semi-chaotic experience. Close readings of works by Paul Cézanne, Gertrude Stein, Franz Kafka, Gerard Manley Hopkins, Wallace Stevens, Paul Klee, and Virginia Woolf explore how modernist texts and artworks display a deep-rooted openness to the world that turns us into "perpetual beginners." Pushing back against ideas of modernism as fragmentation or groundlessness, Mildenberg argues that this openness is less a sign of powerlessness and deferred meaning than of the very provisionality of

experience.

*Aesthetic Experience and Moral Vision in Plato, Kant, and*

*Murdoch* Meredith Trexler

Drees 2021-09-18 This book addresses how Plato, Kant, and Iris Murdoch (each in different ways) view the connection aesthetic experience has to morality. While offering an examination of Iris Murdoch's philosophy, it analyses deeply the suggestive links (as well as essential distinctions) between Plato's and Kant's philosophies.

Meredith Trexler Drees

considers not only Iris Murdoch's concept of unselfing,

but also its relationship with Kant's view of Achtung and Plato's view of Eros. In addition, Trexler Drees suggests an extended, and partially amended, version of Murdoch's view, arguing that it is more compatible with a religious way of life than Murdoch herself realized. This leads to an expansion of the overall argument to include Kant's affirmation of religion as an area of life that can be improved through Plato's and Murdoch's vision of how being good and being beautiful can be part of the same life-task.

Drawing specifically on Iris Murdoch's moral philosophy, and examining the experiences of civilians during the Bosnian War (1992-5), Joseph Wiinikka-Lydon argues that current research into war

and current understandings of subjectivity need new ways to articulate the moral dimension of being a subject if we are to understand how violence affects one's moral being and development. He develops an understanding of the human person as a tensile moral subject, one that forefronts the moral challenges and vulnerability inherent in lives affected by war. With these resources, Wiinikka-Lydon argues for a moral vocabulary and images of the human as a moral being that can better articulate the experience of violence and moral injury.

**New Philosophical Essays on Love and Loving** Simon Cushing

2021-09-20 New philosophical essays on love by a diverse group of international scholars. Topics include contributions to the ongoing debate on whether love is arational or if there are reasons for love, and if so what kind; the kinds of love there may be (between humans and artificial intelligences, between non-human animals and humans); whether love can explain the difference between nationalism and patriotism; whether love is an necessary component of truly seeing others and the world; whether love, like free will, is "fragile," and may not survive in a deterministic world; and whether or not love is actually a good

thing or may instead be a force opposed to morality. Key philosophers discussed include Immanuel Kant, Iris Murdoch, Bernard Williams, Harry Frankfurt, J. David Velleman, Niko Kolodny, Thomas Hurka, Bennett Helm, Alfred Mele and Derk Pereboom. Essays also touch on the treatment of love in literature and popular culture, from Graham Greene's *The End of the Affair* to Spike Jonze's movie *Her*.

and the young man has fallen out of a window to his death. Edward searches for redemption through a reunion with his famous father, the reclusive painter Jesse Baltram. Funny and compelling, *The Good Apprentice* is at once a supremely sophisticated entertainment and an inquiry into the spiritual crises that afflict the modern world. Pearl S. Buck's Novels of China and America Rob Hardy

2021-08-30 This book, the first single-authored book-length study of Buck's fiction for over twenty years, shows how Buck's thought developed through the medium of her fiction - from her early turbulent years in China to her last lonely days in the United States, with chapters examining her loss of faith in Christianity, her reflections on Chinese life

during and after the breakdown of Old China, her voluminous reading, her confrontation with the horrors of American racism and sexism after her return to the United States, and her final metaphorical search for home as she approached death. The book argues that Buck, the first American woman to win both the Pulitzer and Nobel prizes for literature, was a heroic forerunner of those who, while occupying a place in the world, never feel fully at home there; in Buck's case because her Chinese identity throughout her life struggled with her American. For this reason Pearl S. Buck's fiction deserves to be considered alongside that of

**Open Access** Peter Suber

2012-07-20 A concise

introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work "open access": digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years,

scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy

makers.

Oxford when most male undergraduates and many tutors were conscripted away to fight in the Second World War. Together, these young women, all friends, developed a philosophy that could respond to the war's darkest revelations. Neither the great Enlightenment thinkers of the past, the logical innovators of the early twentieth century, or the new Existentialist philosophy trickling across the Channel, could make sense of this new human reality of limitless depravity and destructive power, the women felt. Their answer was to bring philosophy back to life. We are metaphysical animals, they realized, creatures that can

question their very being. Who am I? What is freedom? What is human goodness? The answers we give, they believed, shape what we will become. Written with expertise and flair, *Metaphysical Animals* is a lively portrait of women who shared ideas, but also apartments, clothes and even lovers. Mac Cumhaill and Wiseman show how from the disorder and despair of the war, four brilliant friends created a way of ethical thinking that is there for us today.

scholarship on their relationship has been largely biographical, focusing in particular on Canetti's alleged role as the real-life model for some of Murdoch's most invidious protagonists. Little research, however, has been done on the extensive common ground between the two writers' literary projects. In this groundbreaking comparative study, Elaine Morley conducts a careful philological comparison of Murdoch's and Canetti's works, from their literary themes and theories to their idiosyncratic stylistic practices. Morley demonstrates that these authors were preoccupied with a common philosophical problem,

and that they were in fact not only personally close, but also more intellectually allied than has been previously thought. Elaine Morley is Lecturer in German and Comparative Literature at Queen Mary, University of London where she convenes the MA in Anglo-German Cultural Relations."

With breakneck plotting and intricately flawed characters, *The Philosopher's Pupil* is a darkly humorous novel from the Man Booker Prize-winning author of *The Sea, The Sea*, masterfully exploring the human condition and the inherent blend of comedy and tragedy therein.

2020-07-11 This book introduces methodological concepts aimed at including women in the canon of the

history of philosophy. The history of women philosophers is as long and strong as the history of philosophy, and this holds true not only for the European tradition, as the research of women philosophers of the past shows.

The phenomenon of ignoring and excluding women in 19th and 20th century views on the history of philosophy was a result of the patriarchal tradition that ostracized women in general. Studying a richer and more pluralistic history of philosophy presents us with worlds we have never entered and have never been able to approach. This book will appeal to philosophers and intellectual historians wanting to view the history of philosophy in a new light and who are in favor of an inclusive perspective on that history.
