Frogeye Sprite John Baggott 2013-11-30 Frogeye Sprite - The Complete Story is the only book to have been written exclusively about the iconic Mark 1 Austin Healey Sprite. The headlights in the bonnet and unusual radiator grill shape gave the car a cheeky grin, so it soon gained the name 'Frogeye'. The book covers the full story of the design, development and manufacture of the Sprite, including the considerable success of the car in racing and rallying. Topics covered include: the car's racing success with drivers such as Stirling Moss, John Sprinzel, Paddy Hopkirk and Alec Poole; the special-bodied and bespoke grand touring versions such as the Sebring Sprite, Alexander GT and Lenham GT, plus the one-off Lumbertubs Sprite; modern day Sprites - new-builds and restorations; owners' experiences of living with and driving the Frogeye; information about clubs and support for owners. Foreword by Bic Healey. This simply-designed British sports car continues to be held in high esteem fifty-five years after it was launched, and this history is superbly illustrated with 270 full colour photographs.

M1 Abrams Main Battle Tank Manual Bruce Oliver Newsome 2017-06-10 The American M1 Abrams main battle tank is a revolutionary design: it broke an evolutionary development lineage from the M20 medium tank of 1941 to the M60 (which it replaced, and which stayed in production until 1987). The M1 remains the only main battle tank in the inventories of the US Army and the US Marine Corps, with years of service to come, while no replacement has been procured. It is believed that the M1 will easily serve for more than 50 years in the US alone. The US retains about 6,000 M1s, while almost 2,000 are in use with the armies of other countries including Australia, Egypt, Iraq, Kuwait, and Saudi Arabia.

Jaguar C-type Philip Porter 2017-10-03 This glorious book tells the story of the celebrated lightweight Jaguar C-type, chassis number XKC 051, that Duncan Hamilton and Tony Rolt drove to victory in the 1953 Le Mans 24 Hours. The car went on to have a busy post-works racing career, first with Ecurie Ecosse, then with privateer drivers Bill Smith and Geoffrey Allison. Among its small number of collector custodians in later years, the names Briggs Cunningham in America and Adrian Hamilton (son of Duncan) in the UK stand out. The development of the C-type is described, focusing on the three lightweights of 1953 with thinner-gauge aluminum bodies, pioneering disc brakes, and aircraft-style fuel tanks. All this is covered in fascinating detail, supported by interviews with drivers and mechanics, a fine collection of period images and studio photographs.
