The Basic Code of the Universe Massimo Citro 2011-07-26 Explains the universal information code connecting every person, plant, animal, and mineral and its applications in science, health care, and cosmic unity • Examines research on consciousness, quantum physics, animal and plant intelligence, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water • Reveals the connections between the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water DNA dictates the physical features of an organism. But what dictates how something grows--from the division of cells in a human being to the fractal patterns of a crystal? Massimo Citro reveals that behind the complex world of Nature lies a basic code, a universal information field--also known as the Akashic field, which records all that was, is, and will be--that directs not only physical development and behavior but also energetic communication and interactions among all living and non-living things. The author examines research on consciousness, quantum physics, animal and plant intelligence, the power of intention, emotional fields, Kirlian

photography, and the effects of thoughts, emotions, and music on water. Linking the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water, Citro shows how the universal information field connects every person, plant, animal, and mineral--a concept long known by shamans and expounded by perennial wisdom. Putting this science of the invisible to practical use, he explains his revolutionary system of vibrational medicine, known as TFF, which uses the information field to obtain the benefits of natural substances and medications in their "pure" informational form, offering side-effect-free remedies for health and well-being.

Homo stupidens Piero Calzona 2014-05-14 Siamo sicuri che Homo sia sapiens? Siamo sicuri che le religioni abbiano un'utilità per l'umanità? Per rispondere a queste due domande l'Autore ha dovuto dedicare tredici anni di ricerca serrata attraverso la lettura di circa cinquecento libri di varie discipline. L'antropologia, la paleontologia, l'etnologia, la biologia evolutiva, la microbiologia, la genetica e tante altre discipline relative all'evoluzionismo gli hanno dato le risposte che cercava. In questa ricerca storico-

antropologica l'Autore apre nuovi scenari sulla natura dell'uomo e sulle origini della religione, scenari che evidenziano le catastrofi causate dall'uomo e che ci fanno presagire un futuro incerto per la specie Homo.

Ciao! Come Stai? Giovanni Lollo 2008-07-14 Ciao, se ti fossi appena svegliato da un lunghissimo letargo e aprissi gli occhi, guardandoti allo specchio, quale sarebbe la prima domanda che ti porresti? Ti assicuro che non sarebbe: Chi è quello nello specchio? Questa sarebbe la seconda. La prima domanda che ti faresti ancora prima di guardarti nello specchio, ancora prima di

formulare un pensiero sensato, sarebbe: Come sto? E' la domanda più importante che potremo mai rivolgere a noi stessi. E' la domanda che ci facciamo appena ci rendiamo conto di essere vivi. L'abbiamo espressa a noi stessi alla nascita, quando ci hanno tagliato il cordone ombelicale e la risposta che abbiamo dato allora ha determinato la vita che abbiamo vissuto finora. Ora sei di fronte ad una importante scelta, puoi rifarti la domanda con una consapevolezza nuova. Ora puoi decidere liberamente, consapevole di quanto importante sia la domanda. Ciao! Come stai? *Samya of Colours* Samya Ilaria Di Donato 2017

O código básico do universo Citro 2022-08-30 O Dr. Massimo Citro, médico especializado em psicoterapia e descobridor da TFF (Transferência Farmacológica Freqüencial), revela, neste livro, um estudo absolutamente inovador e nos mostra o que há por trás do mundo complexo da natureza: um código básico, um campo universal de informação que registra tudo o que foi, é e será, e isso não apenas locais e terrestres, em termos cósmicos. Unindo os trabalhos de Ervin László sobre o campo akáshico, o Rupert Sheldrake sobre campos morfogenéticos, de Richard Gerber sobre medicina vibracional e de Masaru Emoto sobre a memória da água, o Dr. Citro mostra como o campo akáshico universal de informação conecta cada pessoa, animal, planta e mineral em todas as partes do Universo. Fazendo uso prático dessa ciência do invisível, ele explica seu revolucionário sistema de medicina vibracional, que utiliza o campo universal de informação para obter os benefícios de substâncias e medicamentos naturais em sua forma informacional "pura", oferecendo tratamentos livres de efeitos colaterais para a saúde e o bem-estar.

The 5 Biological Laws Andrea Taddei
2013-09-02 The 5 Biological Laws discovered by Dr. Hamer, they represent a new key of reading and understanding of all the defined processes called pathological. This book, in particular, deals in a very in-depth way the conflicts regarding the inherent conflicts of devaluation of the bones, the muscles and the articulations. A somatic map of reference, with which it is possible to go back in a precise and verifiable way to the bony and muscular pains, is illustrated. Furthermore, they are explained from the point of view of the 5 Biological Laws, most common and diffuse pathologies regarding the osteo-muscular system like: the arthritis, the arthrosis, the osteoporosis, the scoliosis, the herniated disc, the fibromyalgia, the rheumatoid arthritis and the valgus big toe. The book is composed by 2 sections: a first one, from the first to the tenth chapter, illustrates and explains the 5 biological laws, their meaning and what they involve; while from the eleventh to fifteenth chapter the conflicts, concerning the tissues resulted from the mesoderm, bones, muscles and articulations, are dealt. The book does not want to supply only a "prescription pad" of the map of the muscular, bony and articular pains, but it wants to make the reader understand the reason why, how, when and for how long the pains of the muscle-skeletal apparatus last in relation to the personal background.

Bodybuilding George Touliatos 2018-08-06 The title of this book, "the good, the bad & the ugly", briefly explains the deeper aspect of what iron sport is about and represents. The good refers to the flashy and glamorous side of it. Tanned, oiled, shaved, ripped, veiny and muscular bodies posing on stage. Supreme physiques that reveal this majestic-but misunderstood sport. The bad, encloses all the sacrifices as part of this discipline life style. Dedication, devotion, tunnel vision that basically build a strong character and will power. The ugly side of bodybuilding is hardly revealed, simply because truth hurts and shocks. Drug abuse leads to a plethora of side effects and diseases, making bodybuilding a potentially dangerous life style. Only a physician who walked his talk (as a former competitive bodybuilder), could say it better than anyone else, with reality.

L'onda capovolta Donato Merico 2017-05-09 Esiste un modo per salvare se stessi? Per l'autore certamente sì ma solo attraverso un percorso che richiede coraggio, umiltà e, soprattutto, forza per affrontare il dolore che scaturirà da questo viaggio a ritroso nel tempo: dal ricordo emozionale della vita intrauterina sino, attraverso il trauma del parto, ai primi mesi di vita dei bambini che si è stati. Il bambino che non è stato "ascoltato" nei suoi bisogni, poiché la madre e in seguito le altre figure di riferimento non hanno potuto, voluto o saputo farlo, ne ricava una profonda frustrazione, una ferita narcisistica che lo renderà un adulto incapace di "ascoltarsi" e di comprendere le proprie sensazioni, fino a provare una sorta di "distacco da se stesso" causa di varie forme di malessere fisico, psichico o relazionale, che lo porterà a

cercare qualsiasi cosa "fuori da sé", come: il super lavoro, i doveri famigliari, gli svaghi fatui, la religione, la politica, le dipendenze di vario tipo, per tenere a bada l'"angoscia esistenziale".

Psychomagic Alejandro Jodorowsky 2010-06-18 A healing path using the power of dreams, theater, poetry, and shamanism

- Shows how psychological realizations can cause true transformation when manifested by concrete poetic acts
- Includes many examples of the surreal but successful actions Jodorowsky has prescribed to those seeking his help

While living in Mexico, Alejandro Jodorowsky became familiar with the colorful and effective cures provided by folk healers. He realized that it is easier for the unconscious to understand the language of dreams than that of rationality. Illness can even be seen as a physical dream that reveals unresolved emotional and psychological problems. Psychomagic presents the shamanic and genealogical principles Jodorowsky discovered to create a healing therapy that could use the powers of dreams, art, and theater to empower individuals to heal wounds that in some cases had traveled through generations. The concrete and often surreal poetic actions Jodorowsky employs are part of an elaborate strategy intended to break apart the dysfunctional persona with whom the patient identifies in order to connect with a deeper self. That is when true transformation can manifest. For a young man who complained that he lived only in his head and was unable to grab hold of reality and advance toward the financial autonomy he desired, Jodorowsky gave the prescription to paste two gold coins to the soles of his shoes so that all day he would be walking on gold. A judge whose vanity was ruling his every move was given the task of dressing like a tramp and begging

outside one of the fashionable restaurants he loved to frequent while pulling glass doll eyes out of his pockets. The lesson for him was that if a tramp can fill his pockets with eyeballs, then they must be of no value, and thus the eyes of others should have no bearing on who you are and what you do. Taking his patients directly at their words, Jodorowsky takes the same elements associated with a negative emotional charge and recasts them in an action that will make them positive and enable them to pay the psychological debts hindering their lives.

Medicine Upside Down Giorgio Mambretti
2013-03-01 Dr Hamer is a highly controversial figure: his patients love him, yet other doctors want to block him, and meanwhile he gathers acknowledgements, but at the same time he is put on trial as well. Many believe that most of the opposition against him is because his theories -- and above all his long list of patients who have been healed -- go completely against established medicine... How can it be that diseases like cancer can simply be an attempt of the brain to fix (which means to heal) some emotional traumas? And that identifying such traumas and solving them can equate to healing the body? This is the only book available in Italy which is really up-to-date and comprehensive, very clear and supported by some brilliant cartoons: all these qualities have turned it into a real best seller. At long last a book on Dr Hamers new Germanic Medicine that is both really easy-to-read and comprehensive. Approach these controversial, yet fascinating theories with objectivity and open-mindedness.

Cancer Can Be Cured! Father Romano

Zago 2008-11-24 Father Romano Zago, a

Franciscan Friar and scholar, wrote the book *Cancer Can Be Cured* to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of *Aloe Arborescens* and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande dol Sul , Brazil that he and the provincial Father Arno Reckziegel, witnessed the healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy where this aloe species grows naturally he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching the science behind this aloe species and the publication of that research in this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf *Aloe arborescens* juice, honey and a small amount of distillate (1%); how to take

the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the immune system and protect against diseases. However, this is the first book to reveal the little known potency

At this historic moment he comes across two men -- the scientist, Professor Vorobev, and the revolutionist, Joseph Stalin -- who have radical, mysterious plans for the future. Soon they will accompany him on a long, cold march through an era of brutality and absurdity. *The Commissariat of Enlightenment* is a mesmerizing novel of ideas that brilliantly links the tragedy and comedy of the Russian Revolution with the global empire of images that occupies our imaginations today.
