The White Tiger Aravind Adiga 2008-04-22 SOON TO BE A MAJOR MOTION PICTURE The stunning Booker Prize-winning novel from the author of *Amnesty* and *Selection Day* that critics have likened to Richard Wright's *Native Son*, *The White Tiger* follows a darkly comic Bangalore driver through the poverty and corruption of modern India's caste society. "This is the authentic voice of the Third World, like you've never heard it before" (John Burdett, *Bangkok 8*). The white tiger of this novel is Balram Halwai, a poor Indian villager whose great ambition leads him to the zenith of Indian business culture, the world of the Bangalore entrepreneur. On the occasion of the president of China's impending trip to Bangalore, Balram writes a letter to him describing his transformation and his experience as driver and servant to a wealthy Indian family, which he thinks exemplifies the contradictions and complications of Indian society. Recalling *The Death of Vishnu* and *Bangkok 8* in ambition, scope, *The White Tiger* is narrative genius with a mischief and personality all its own. Amoral, irreverent, deeply endearing, and utterly contemporary, this novel is an international publishing sensation—and a startling, provocative debut.

Violence and Trolling on Social Media Sara Polak 2020-10-30 'Trolls for Trump', virtual rape, fake news – social media discourse, including forms of virtual and real violence, has become a formidable, yet elusive, political force. What characterizes online vitriol? How do we understand the narratives generated, and also address their real-world – even life-and-death – impact? How can hatred, bullying, and dehumanization on social media platforms be addressed and countered in a post-truth world? This book unpicks discourses, metaphors, media dynamics, and framing on social media, to begin to answer these questions. Written for and by cultural and media studies scholars, journalists, political philosophers, digital communication professionals, activists and advocates, this book makes the connections between theoretical approaches from cultural and media studies and practical challenges and experiences 'from the field', providing insight into a rough media landscape.

Transfiction Klaus Kaindl 2014-01-28 This volume on Transfiction (understood as an aestheticized imagination of translatorial action) recognizes the power of fiction as a vital and pulsating academic resource, and in doing so helps expand the breadth and depth of TS. The book covers a selection of peer-reviewed papers from the 1st International Conference on Fictional Translators and Interpreters in Literature and Film (held at the University of Vienna, Austria in 2011) and links literary and cinematic works of translation fiction to state-of-the-art translation theory and practice. It presents not just a mixed bag of cutting-edge views and perspectives, but great care has been taken to turn it into a well-rounded transficcionario with a fluid dialogue among its 22 chapters. Its investigation of translatorial action in the mirror of fiction (i.e. beyond the cognitive barrier of 'fact') and its multiple transdisciplinary trajectories make for thought-provoking readings in TS, comparative literature, as well as foreign language and literature courses.

Foucault's Pendulum Umberto Eco 2007-03-05 Bored with their work, three Milanese editors cook up "the Plan," a hoax that connects the medieval Knights Templar with other occult groups from ancient to modern times. This produces a map indicating the geographical point from which all the powers of the earth can be controlled—a point located in Paris, France, at Foucault's Pendulum. But in a fateful turn the joke becomes all too real, and when occult groups, including Satanists, get wind of the Plan, they go so far as to kill one of the editors in their quest to gain control of the earth. Orchestrating these and other diverse characters into his multilayered semiotic adventure, Eco has created a superb cerebral entertainment.

This Special Issue of *Plants* comprises papers that describe the current status and future outlook of herbicide resistance research and development in weedy and domestic plants, with topics covering the full spectrum from resistance mechanisms to resistance management. The unifying framework for this Special issue is the challenge posed to all of the contributing authors: What are the (potential) implications for herbicide resistance management?

Bright Dead Things Ada Limón 2019-02-07 'Bright Dead Things buoyed me in this dismal year. I'm thankful for this collection, for its wisdom and generosity, for its insistence on holding tight to beauty even as we face disintegration and destruction.' Celeste Ng, author of *Everything I Never Told You* A book of bravado and introspection, of feminist swagger and harrowing loss, *Bright Dead Things* considers how we build our identities out of place and human contact - tracing in intimate detail the ways the speaker's sense of self both shifts and perseveres as she moves from New York City to rural Kentucky, loses a dear parent, ages past the capriciousness of youth and falls in love. In these extraordinary poems Ada Limón's heart becomes a 'huge beating genius machine' striving to embrace and understand the fullness of the present moment. 'I am beautiful. I am full of love. I am dying,' the poet writes. Building on the legacies of forebears such as Frank O'Hara, Sharon Olds and Mark Doty, Limón's work is consistently generous, accessible, and 'effortlessly lyrical' (New York Times) - though every observed moment feels complexly thought, felt and lived.

Mended Sydney Landon 2015-05-25 THE STUNNING CONCLUSION TO THE LUCIAN & LIA TRILOGY... My name is Lucian Quinn and I own one of the most successful software companies in the world. I'm twenty-nine, rich and single. Impressive right? I'm also a favorite target for every hungry socialite looking to land the uncatchable catch. Maybe it sounds vain, but the fact that I'm a God between the sheets doesn't hurt my stock any. What these women don't know though is that I'm completely screwed up and damaged beyond repair by my past. The only part of me I'll ever willingly give them is the hour it takes to make them scream...several times. Then I saw her... I'm Lia Adams and I'm in my last year at St. Claire's University in North Carolina. I grew up with an abusive mother, and a twisted stepfather who was worse...so much worse. I'm so close to escaping from my past and making my dreams come true. I'll do anything necessary to survive, even work as an escort to help pay for my college expenses. The men that I accompany to various events as an escort for Date Night are mostly harmless and just want an attractive woman on their arm for an evening. It has never gone further than that...until him... Lucian finally shares his past heartache and guilt with Lia. Free of the shadows that have haunted them, they are ready to move forward together. Until...the woman who destroyed Lucian's life eight years ago is suddenly free. Lucian is in a frantic race against time to convince those around him that Cassie is the ultimate threat to all that he holds dear. He'll stop at nothing to protect the woman he loves even if he has to wage a war against his best friend to do it. Book 3 in the *Lucian & Lia Trilogy*. THIS IS THE FINAL BOOK IN THE TRILOGY. Dieses Aushandeln von Entscheidungen steht im Fokus verschiedener Erscheinungsformen von Politikkritik, die in der Sprachwissenschaft inzwischen selbst ein Thema der Forschung geworden ist. Der vorliegende Band dokumentiert die Vorträge, die bei der Arbeitstagung der Arbeitsgemeinschaft Sprache in der Politik zum Thema »Protest - Parteienscheit - Politikverdrossenheit: Politikkritik in der Demokratie« vom 7. bis 9. Mai 2015 an der Universität Trier gehalten worden sind. Die Autoren und Autorinnen des Sammelbandes nähern sich dem Gegenstand »Politikkritik in der Demokratie« aus unterschiedlichen, interdisziplinären Perspektiven: Im ersten Teil des Bandes wird Politikkritik aus sprach- und literaturwissenschaftlicher Sicht diachronisch betrachtet. Im zweiten, umfangreicheren Abschnitt des Sammelbandes »Kommunikative Praktiken und sprachliche Strategien der Politikkritik heute« werden aus sprach- und sozialwissenschaftlicher Perspektive unterschiedliche Facetten kommunikativer Praktiken und sprachlicher Strategien von Politikkritik an konkreten Beispielen erläutert. Die Beiträge des dritten Teils analysieren den Untersuchungsgegenstand länderübergreifend. Die Beiträge stellen eine Basis für die weitere Erforschung eines zentralen Gegenstands der Politolinguistik dar.

Past Life William Lane 2021-08 She wanted to photograph time: everything lost to time, and everything returned by it. Anna grows up in a third-storey unit in Parramatta with her adoptive Russian mother Sophia. When her teacher Miss Glass gives her a Box Brownie camera, small acts of observation coupled with the art of photography become her escape. On visiting the suburb of Castle Hill with her schoolfriend Lisaveta she falls into a seductive world of gardens and orchards. At the Thompson's place she embarks on a mission to photograph the orchard by night and day. It is there she meets Friedrich an older man, of German origin but from the Soviet Union, who lives in a shed on the property. She eventually learns that he was once a celebrated writer, his ambitions destroyed by the war. As events unfold Anna realises that her connections to the orchard and to Fredrich are deeper than she ever could have imagined. The mysteries and secrets of the past unfold in the most shocking, tender and unexpected of ways. Set in Sydney, and Russia, *Past Life* is a glorious novel about the various ways the gifts and traumas of the past play out in the present. It is the affecting story of relationships across generations and William Lane's most hauntingly beautiful work to date. 'Throughout this moving narrative, the traumas and triumphs of the past transform

in the light of letters, poems, novels, paintings, photographs, dreams, and memories. Developing with the eerie precision of a photographic plate, old wars, lost loves, swim into view, then intersect, blossom, fade -- and take on new meaning.' -- Carmel Bird

Extinction Events Liz Breazeale 2019-09 In this collection of short stories, Liz Breazeale explores the connections between humans and the natural world by examining the processes and history of our planet. A myriad of extinction events large and small have ruptured the history of the earth, and so it is with the women of this book, who struggle to define themselves amid their own personal cataclysms and those igniting the world around them. They are a mother watching the islands of the world disappear one by one, a new bride using alien abduction to get closer to her estranged parent, a daughter searching for her mother among the lost cities of the world, a sister trying and failing to protect her mythical continent-obsessed brother. Here extinction events come in all sizes and shapes: as volcanic eruptions and devastating plagues and meteor impacts, as estrangements and betrayals and losses. Dark, angry, and apocalyptic, Extinction Events is a compendium of all the ways in which life can be annihilated.

Why Noncompliance Tanja A. Börzel 2021-02-15 Why Noncompliance traces the history of noncompliance within the European Union (EU), focusing on which states continuously do or do not follow EU Law, why, and how that affects the governance in the EU and beyond. In exploring the EU's long and varied history of noncompliance, Tanja A. Börzel takes a close look at the diverse groups of noncompliant states throughout the EU's existence. Why do states that are vocally critical of the EU have a better record of compliance than those that support the EU? Why has noncompliance been declining since the 1990s, even though the EU was adding member-states and numerous laws? Börzel debunks conventional wisdoms in EU compliance research, showing that noncompliance in the EU is not caused by the new Central and Eastern European member states, nor by the Eurosceptic member states. So why do these states take the brunt of Europe's misplaced ire? Why Noncompliance introduces politicization as an explanatory factor that has been long overlooked in the literature and scholarship surrounding the European Union. Börzel argues that political controversy combined with voting power and administrative capacity, explains why noncompliance with EU law has been declining since the completion of the Single Market, cannot be blamed on the EU's Central and Eastern European member states, and is concentrated in areas where EU seeks to protect citizen rights. Thanks to generous funding from Freie Universität Berlin, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellopen.org) and other repositories.

Limber Angela Pelster 2014-03-24 "As the author reveals in these charming essays, nature is imbued with enticing mysteries, and trees can be agents of salvation." --Kirkus Reviews Angela Pelster's startling essay collection charts the world's history through its trees: through roots in the ground, rings across wood, and inevitable decay. These sharp and tender essays move from her childhood in rural Canada surrounded by skinny poplar trees in her backyard to a desert in Niger, where the Loneliest Tree in the World once grew. A squirrel's decomposing body below a towering maple prompts a discussion of the science of rot, as well as a metaphor for the ways in which nature programs us to consume ourselves. Beautiful and deeply thoughtful, Limber valiantly asks what it means to sustain life on this planet we've inherited. "One of the quirkiest and most original books about the natural world that I have read in quite some time . . . the essays reveal not just the life of trees but how they connect us to the greater world around us." --Seattle Times "Whether Pelster is talking about an old mining town buried alive, a tree that belonged only to itself, or a mother buried with her children in the desert, her prose invites the reader to pause and wonder . . . Pelster questions our mortality, how we define ourselves, and faith; and has fun doing so." --Publishers Weekly "What a strange and unexpected treasure chest this is . . . Who

is this Angela Pelster and where has she been all our lives?" --Lawrence Weschler

With the right tools, we can start to make sense of all this data to see patterns and trends that would otherwise be invisible to us. By transforming numbers into graphical shapes, we allow readers to understand the stories those numbers hide. In this practical introduction to understanding and using information graphics, you'll learn how to use data visualizations as tools to see beyond lists of numbers and variables and achieve new insights into the complex world around us. Regardless of the kind of data you're working with--business, science, politics, sports, or even your own personal finances--this book will show you how to use statistical charts, maps, and explanation diagrams to spot the stories in the data and learn new things from it. You'll also get to peek into the creative process of some of the world's most talented designers and visual journalists, including Condé Nast Traveler's John Grimwade, National Geographic Magazine's Fernando Baptista, The New York Times' Steve Duenes, The Washington Post's Hannah Fairfield, Hans Rosling of the Gapminder Foundation, Stanford's Geoff McGhee, and European superstars Moritz Stefaner, Jan Willem Tulp, Stefanie Posavec, and Gregor Aisch. The book also includes a DVD-ROM containing over 90 minutes of video lessons that expand on core concepts explained within the book and includes even more inspirational information graphics from the world's leading designers. The first book to offer a broad, hands-on introduction to information graphics and visualization, The Functional Art reveals: • Why data visualization should be thought of as "functional art" rather than fine art • How to use color, type, and other graphic tools to make your information graphics more effective, not just better looking • The science of how our brains perceive and remember information • Best practices for creating interactive information graphics • A comprehensive look at the creative process behind successful information graphics • An extensive gallery of inspirational work from the world's top designers and visual artists On the DVD-ROM: In this introductory video course on information graphics, Alberto Cairo goes into greater detail with even more visual examples of how to create effective information graphics that function as practical tools for aiding perception. You'll learn how to: incorporate basic design principles in your visualizations, create simple interfaces for interactive graphics, and choose the appropriate type of graphic forms for your data. Cairo also deconstructs successful information graphics from The New York Times and National Geographic magazine with sketches and images not shown in the book. The Persistence of Language Shannon T. Bischoff 2013-05-28 This edited collection presents two sets of interdisciplinary conversations connecting theoretical, methodological, and ideological issues in the study of language. In the first section, Approaches to the study of the indigenous languages of the Americas, the authors connect historical, theoretical, and documentary linguistics to examine the crucial role of endangered language data for the development of biopsychological theory and to highlight how methodological decisions impact language revitalization efforts. Section two, Approaches to the study of voices and ideologies, connects anthropological and documentary linguistics to examine how discourses of language contact, endangerment, linguistic purism and racism shape scholarly practice and language policy and to underscore the need for linguists and laypersons alike to acquire the analytical tools to deconstruct discourses of inequality. Together, these chapters pay homage to the scholarship

of Jane H. Hill, demonstrating how a critical, interdisciplinary linguistics narrows the gap between disparate fields of analysis to treat the ecology of language in its entirety.

Receptive Multilingualism Jan D. ten Thije 2007-06-05 Receptive multilingualism refers to the language constellation in which interlocutors use their respective mother tongue while speaking to each other. Since the mid-nineties receptive multilingualism is promoted by the European commission on par with other possibilities of increasing the mobility of the European citizens. Throughout the last ten years a marked increase in the research on this topic has been observable. This volume reveals new perspectives from different theoretical frameworks on linguistic analyses of receptive multilingualism in Europe. Case studies are presented from contemporary settings, along with analyses of historical examples, theoretical considerations and, finally, descriptions of didactical concepts established in order to transfer and disseminate receptive multilingual competence. The book contains results from research carried out at the Research Center on Multilingualism at the University of Hamburg as well as contributions by various international scholars working in the field of receptive multilingualism.

Region-Making and Cross-Border Cooperation Elisabetta Nadalutti 2017-12-15 This book explores the nature of regions and how they function, particularly at the local and micro-level. Whilst recent years have seen a resurgence in debates around the roles which regions can play in development, the focus has tended to be on 'macro' regional institutions such as the EU, ASEAN, ECOWAS or MERCOSUR. In contrast, this book offers a nuanced analysis of the important field of sub-regionalism and sub-national cross-border cooperation. Region-Making and Cross-Border Cooperation takes a fresh look at both theoretical and empirical approaches to 'region-making' through cooperation activities at the micro-level across national borders in Europe, Southeast Asia, Latin America, Africa and the Middle East. The book aims to explore the role that institutional dynamics play at the micro-level in shaping local and global ties, investigate what the formal and informal integration factors are that bolster regionalism and regionalization processes, and to clarify to what extent, and under what conditions, cooperation at the micro-level can be instrumental to solving common problems. Scholars and students within politics, sociology, geography, and economics would find this book an important guide to regionalism at a micro-local level perspective.

Incarnadine Mary Szybist 2013-02-05 In *Incarnadine*, Mary Szybist restlessly seeks out places where meaning might take on new colour. Through the lens of an iconic moment, the Annunciation of an unsettling angel to a young woman, Szybist describes the confusion and even terror of moments in which our longing for the spiritual may also be a longing for what is fundamentally alien to us. In a world where we are so often asked to choose sides, to believe or not believe, to embrace or reject, *Incarnadine* offers lyrical and brilliantly inventive alternatives.

Handbook of African Medicinal Plants, Second Edition Maurice M. Iwu 2014-02-04 With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

More Than a Body Lexie Kite 2020-12-29 Drs. Lindsay and Lexie Kite know firsthand how hard filtering out media influence is when it comes to self-image. Both struggled as young women to overcome the expectations of body size and shape, but were able to learn to love, appreciate, and reclaim their own bodies, eventually earning their PhDs in body image resilience. The twin sisters founded the nonprofit Beauty Redefined and have made it their mission to help other women see themselves without societal expectations distorting their self-perception. More than a Body is a self-help book focused on going beyond body positivity, showing

how a mindset focused on appearance sets women up for insecurities and self-judgement. In this book, they offer an action plan for readers to combat that mindset, and instead learn how the body can be "an instrument, not an ornament," with practical, actionable steps to take when consuming media, exercising, practicing self-reflection and self-compassion, and finding a purpose in life.
