Representing Yourself in Federal Court United States District Court
2017-08-04 This Handbook is designed to help people dealing with civil lawsuits in federal court without legal representation. Proceeding without a lawyer is called proceeding "pro se1," a Latin phrase meaning "for oneself," or sometimes "in propria persona," meaning "in his or her own person." Representing yourself in a lawsuit can be complicated, time consuming, and costly. Failing to follow court procedures can mean losing your case. For these reasons, you are urged to work with a lawyer if possible. Chapter 2 gives suggestions on finding a lawyer. Do not rely entirely on this Handbook. This Handbook provides a summary of civil lawsuit procedures, but it may not cover all procedures that may apply in your case. It also does not teach you about the laws that will control

your case. Make sure you read the applicable federal and local court rules and do your own research at a law library or online to understand your case. The United States District Court for the Northern District of California has Clerk's Offices in the San Francisco, San Jose and Oakland courthouses. Clerk's Office staff can answer general questions, but they cannot give you any legal advice. For example, they cannot help you decide what to do in your lawsuit, tell you what the law means, or even advise you when documents are due. There are Legal Help Centers in the San Francisco, Oakland and San Jose courthouses where you can get free help with your lawsuit from an attorney who can help you prepare documents and give limited legal advice. This attorney will not be your lawyer and you will still be representing yourself. See Chapter 2 for more details.

Judicial Integrity 2004-05-01

Traditional separation of powers theories assumed that governmental despotism will be prevented by dividing the branches of government which will check one another. Modern governments function with unexpected complicity among these branches. Sometimes one of the branches becomes overwhelming. Other governmental structures, however, tend to mitigate these tendencies to domination. Among

other structures courts have achieved considerable autonomy "vis-a-vis" the traditional political branches of power. They tend to maintain considerable distance from political parties in the name of professionalism and expertise. The conditions and criteria of independence are not clear, and even less clear are the conditions of institutional integrity. Independence (including depolitization) of public institutions is of particular practical relevance in the post-Communist countries where political partisanship penetrated institutions under the single party system. Institutional integrity, particularly in the context of administration of justice, became a precondition for accession to the European Union. Given this practical challenge the present volume is centered around three key areas of institutional integrity, primarily within the administration of justice: First, in

a broader theoretical-
interdisciplinary context the
criteria of institutional
independence are discussed. The
second major issue is the relation of
neutralized institutions to branches
of government with reference to

accountability. Thirdly, comparative
experience regarding judicial
independence is discussed to
determine techniques to enhance
integrity.
