**Closing the Vocabulary Gap** Alex Quigley  
2018-04-06 As teachers grapple with the challenge of a new, bigger and more challenging school curriculum, at every key stage and phase, success can feel beyond our reach. But what if there were 50,000 small solutions to help us bridge that gap? In *Closing the Vocabulary Gap*, Alex Quigley explores the increased demands of an academic curriculum and how closing the vocabulary gap between our 'word poor' and 'word rich' students could prove the vital

difference between school failure and success. This must-read book presents the case for teacher-led efforts to develop students' vocabulary and provides practical solutions for teachers across the curriculum, incorporating easy-to-use tools, resources and classroom activities. Grounded in the very best available evidence into reading development and vocabulary acquisition, *Closing the Vocabulary Gap* sets out to: help teachers understand the vital role of vocabulary in all learning; share what every teacher needs to know about reading (but was afraid to ask); unveil the intriguing history of words and exactly how they work; reveal the elusive secrets to achieve spelling success; provide strategies for vocabulary development for all teachers of every subject and phase. With engaging anecdotes from the author's extensive personal teaching experience woven throughout, as well as accessible summaries of relevant research, Alex Quigley has written an invaluable resource suitable for

classroom teachers across all phases, literacy leaders and senior leadership teams who wish to close the vocabulary gap.

Improving Mathematics Education National Research Council 2001-12-28 Improving Mathematics Education has been designed to help inform stakeholders about the decisions they face, to point to recent research findings, and to provide access to the most recent thinking of experts on issues of national concern in mathematics education. The essence of the report is that information is available to help those charged with improving student achievement in mathematics. The documents cited above can guide those who make decisions about content, learning, teaching, and assessment. The report is organized around five key questions: What should we teach, given what we know and value about mathematics and its roles? How should we teach so children learn, given what we know about students, mathematics, and how people learn mathematics? What preparation and support do teachers need? How do we know whether what

we are doing is working? What must change? Each of the five main chapters in this report considers a key area of mathematics education and describes the core messages of current publication(s) in that area. To maintain the integrity of each report's recommendations, we used direct quotes and the terminology defined and used in that report. If the wording or terminology seems to need clarification, the committee refers the reader directly to the original document. Because these areas are interdependent, the documents often offer recommendations related to several different areas. While the individual documents are discussed under only one of the components in Improving Mathematics Education, the reader should recognize that each document may have a broader scope. In general, the references in this report should serve as a starting point for the interested reader, who can refer to the original documents for fuller discussions of the recommendations and, in some cases,

suggestions for implementation. Improving Mathematics Education is designed to help educators build a critical knowledge base about mathematics education, recognizing that the future of the nation's students is integrally intertwined with the decisions we make (or fail to make) about the mathematics education they receive.

*The Genius of Jane Austen* Paula Byrne 2018-06-18 A radical look at Jane Austen as you've never seen her - as a lover of farce, comic theatre and juvenilia. The Genius of Jane Austen celebrates Britain's favourite novelist 200 years after her death and explores why her books make such awesome movies, time after time.

Jane Austen loved the theatre. She learned much of her art from a long tradition of English comic drama and took joyous participation in amateur theatricals. Her juvenilia, then *Sense and Sensibility*, *Pride and Prejudice*, *Mansfield Park* and *Emma* were shaped by the arts of theatrical comedy. Her admiration for drama's dialogue, characterisation, plotting, exits and entrances is why she has been dramatised so successfully on screen in the last twenty years - and these versions are at the centre of her continuing fame, culminating in her celebration on 10 note. Austen expert and author of *The Real Jane Austen*, Paula Byrne looks at stage adaptations of Austen's novels (including one called *Miss Elizabeth Bennet* by A. A. Milne) to modern classics, including the BBC *Pride and Prejudice* and *Persuasion*, Emma Thompson's *Sense and Sensibility*, and the phenomenally brilliant and successful *Clueless*. *The Genius of Jane Austen* presents an Austen not of prim manners and genteel calm, but filled with wild comedy and

outrageous behaviour.

*The Immortal Life of Henrietta Lacks* Rebecca Skloot 2010-02-02 #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews •

Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had

launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. [Mathematical Tasks](#) Chris McGrane 2020-10-01

If we want our pupils to develop fluency, understanding and the ability to solve complex problems, then it is vital that teachers develop the ability to select, adapt and design appropriate mathematical tasks. In 'Mathematical Tasks: The Bridge Between Teaching and Learning', Chris McGrane and Mark McCourt a range of practical approaches, strategies and principles behind the design and effective use of tasks in the mathematics classroom that lead to all pupils becoming successful learners. First-hand interviews with world class mathematics education experts and practicing teachers bring to life the ideas behind how tasks can act as a bridge between what the teacher wants the pupil to make sense of and what the pupil actually does makes sense of; tasks are how we enable pupils to enact mathematics - it is only by being mathematical that pupils can truly make connections across mathematical ideas and understand the bigger picture. This is a book for classroom teachers.

Chris McGrane offers a range of practical examples for nurturing deep learning in mathematics that can be adapted and embedded in one's own classroom practice. This is also a book for those who are interested in the theory behind tasks. Chris and his interviewees examine the key role tasks play in shaping learning, teaching, curriculum and assessment. Suitable for teachers at all stages in their careers and teachers are encouraged to return to the book from time to time over the years to notice how their use of tasks in the classroom changes as they themselves develop.

**Living the Sermon on the Mount** Glen H Stassen 2014-12-11 In *Living the Sermon on the Mount*, theologian and award-winning author Glen H. **An Astrobiology Strategy for the Search for Life in the Universe** National Academies of Sciences, Engineering, and Medicine 2019-04-20  
Astrobiology is the study of the origin, evolution, distribution, and future of life in the universe. It is an inherently interdisciplinary field that encompasses astronomy, biology, geology, heliophysics, and planetary science, including complementary laboratory activities and field studies conducted in a wide range of terrestrial environments. Combining inherent scientific interest and public appeal, the search for life in the solar system and beyond provides a scientific rationale for many current and future activities carried out by the National Aeronautics and

Science Administration (NASA) and other national and international agencies and organizations. Requested by NASA, this study offers a science strategy for astrobiology that outlines key scientific questions, identifies the most promising research in the field, and indicates the extent to which the mission priorities in existing decadal surveys address the search for life's origin, evolution, distribution, and future in the universe. This report makes recommendations for advancing the research, obtaining the measurements, and realizing NASA's goal to search for signs of life in the universe.

**Creating Autoethnographies** Tessa Muncey 2010-03-25 Creating Autoethnographies is an introduction to autoethnography, a form of autobiographical personal narrative that explores the writer's experience of life. The first ever practical text on this increasingly popular research method, it provides a background and considers some of the criticisms of the approach. It is suitable for all social science students, both at postgraduate and also upper level undergraduate stage. The book is structured to

mirror the process of writing about experience, from establishing an idea through to the process of writing and the development of creative writing skills, and provides detailed worked examples of the whole process. The final two chapters are devoted to exploring two cases in which readers can see the principles discussed in action. There are also a wide range of case studies drawn from a wide a range of social science disciplines and exercises throughout the text. In the book, Tessa Muncey identifies a number of trends in social science research, such as the increasing focus on the individual and giving a voice to service users, that are resulting in an increase of interest in narrative research. *Creating Autoethnographies* is a timely contribution to the field. Tessa Muncey is one of the leading names in this field and is the annual organiser and chair of the Mixed Methods Conference.

Stretch and Challenge for All Torsten Payne 2017-02-23 *Stretch and Challenge for ALL* is packed with activities to get the most out of learners in any lesson. If you have a class of 30 students, how can you differentiate so that every learner is challenged appropriately? If you are looking for ideas which will enthuse students and develop their understanding and thinking skills, this is the book for you. These tried-and-tested techniques are designed to engage and stretch all pupils, including the most able. As most teachers teach mixed ability groups, these activities will stretch all students, regardless of their ability level. The book is designed to reduce teacher workload without compromising on the quality of students' learning. Photocopiable activities help to cut down on planning time. Torsten Payne set out to write a

book that he, as a full-time teacher, would want to use: crammed full of ideas, strategies and resources - all explained as quickly and simply as possible. The activities have been chosen using three criteria: Are they accessible? Could all students, regardless of their ability, understand the tasks and be able to have a go at completing them without long teacher explanations beforehand? Do they make students think for themselves and make their own mental connections? Not only will this make the teacher's life easier, but it also encourages independence, meaning that students use higher level thinking skills, remember more and learn resilience - all key skills directly linked to progress. Do they give students a chance to shine? Every activity here has been chosen precisely because there is not a ceiling on what can be achieved. Instead it is up to students to take each activity as far as their ability allows and to demonstrate just what they are capable of. Discover practical strategies to add challenge

to all types of lesson, across all subjects and key stages. Suitable for all teachers. This is a photocopiable resource.

Wellbeing in the Primary Classroom Adrian Bethune 2018-09-06 Evidence has shown that happy people (those who experience more positive emotions) perform better in school, enjoy healthier relationships, are generally more successful and even live longer! It is an ever-growing concern, therefore, that children's levels of happiness and wellbeing are decreasing, while their levels of stress, anxiety and depression are increasing. As a result, many schools and teachers are looking for accessible ways to address these mental health problems in young people. In this practical and thoughtful book, experienced teacher and advisor on children's wellbeing, Adrian Bethune, takes the latest evidence and research from the science of happiness and positive psychology and brings them to life. Wellbeing in the Primary Classroom is packed full of tried-and-tested activities and

techniques and has a foreword by Sir Anthony Seldon, former Master of Wellington College, well known for introducing and advocating happiness and wellbeing in education. It is an essential guide to supporting emotional and mental wellbeing in the primary classroom.

**Made to Last (Where Love Begins Book #1)**

Melissa Tagg 2013-09-15 Miranda Woodruff has it all. At least, that's how it looks when she's starring in her homebuilding television show, *From the Ground Up*. So when her network begins to talk about making cuts, she'll do anything to boost ratings and save her show--even if it means pretending to be married to a man who's definitely not the fiance who ran out on her three years ago. When a handsome reporter starts shadowing Miranda's every move, all his digging into her personal life brings him a little too close to the truth--and to her. Can the girl whose entire identity is wrapped up in her on-screen persona finally find the nerve to set the record straight? And if she does, will the

life she's built come crashing down just as she's found a love to last? "Sweet, fun, and faith-filled, Melissa Tagg's *Made To Last* is a story made to delight lovers of romance and behind-the-scenes reality TV. Pull up an armchair and enjoy!"--Lisa Wingate, National Bestselling Author of *Blue Moon Bay*, one of Booklist's Top 10 of 2012 "Clever plot. Engaging, funny, fresh writing. A winning voice with deeper layers that touch the heart. Melissa Tagg is the whole package. A delight for CBA readers."--Rachel Hauck, award-winning and bestselling author of *Once Upon a Prince* "If there is such thing as a perfect story, Melissa Tagg has written it with this first novel. Laugh-out-loud funny, a delightful premise, hunky heroes, surprising plot twists and poignant, heart-tugging moments, all wound together with beautiful writing. *Made to Last* is a keeper that will charm its way onto your shelf, and into your heart."--Susan May Warren, RITA Award winner and bestselling author of *Take a Chance on Me* "*Made to Last* is a fun romantic

comedy that will have you turning the pages. Melissa Tagg is a fresh voice to watch."--Jenny B. Jones, award-winning author of *Save the Date* and *There You'll Find Me* "Melissa Tagg has written a fun, fast-paced romance. Her first novel will certainly not be her last."--Kristin Billerbeck, author of *The Scent of Rain* "A must for fans of romantic comedy! Melissa Tagg's endearing characters charmed me and their story line captured my imagination. Reading *Made To Last* was like eating a hot fudge brownie sundae with girlfriends. Fun. Delicious. Completely entertaining."--Becky Wade, author of *My Stubborn Heart* and *Undeniably Yours* "With witty dialogue, lovable characters, and an entertaining plot, Melissa Tagg is sure to become a new favorite among fans of Christian romance. *Made to Last* reminds us all that we are more than the roles we play. At our core, beneath our failures and hang-ups, we are loved and cherished by a faithful God."--Katie Ganshert, author of *Wildflowers From Winter*

and *Wishing on Willows* "Readers are going to fall in love with Melissa Tagg's novels! She writes vivid stories filled with true-to-life characters who wrestle with questions about life, faith and romance. Melissa's writing is equal parts laugh out loud humor and moments that touch your heart. I can't wait for others to discover this talented new author!"--Beth K. Vogt, author of *Wish You Were Here* and *Catch a Falling Star* "What happens when a harmless lie you didn't intend to tell takes on a life of its own? When you're Miranda Woodruff, star of a home improvement show, you learn how to let go and become who God called you to be because nothing else is left. A great story with life-impacting truth surrounded by romance to make you swoon."--Cara Putman, award-winning author of *A Wedding Transpires on Mackinac Island* "Reading *Made to Last*, Melissa Tagg's debut novel, was like meeting new friends whom I wanted to continue hanging out with long after the book ended. Melissa's fresh voice and ability

to craft a well-written story hooked me with the opening line and held my attention to the very end. Her flawed characters, LOL moments and spiritual truth provided a foundation for a stellar debut novel. I even had to dab my teary eyes a couple of times. Melissa Tagg is an author to watch and one whose books I want to fill my shelves."--Lisa Jordan, award-winning author of Lakeside Reunion and Lakeside Family
