**Charlie Hernández & the League of Shadows** Ryan Calejo 2019-10-22 "A perfect pick for kids who love Rick Riordan." -Booklist (starred review) "A winner for all kids, but it will be especially loved by Latinx and Hispanic families." -Kirkus Reviews (starred review) The Lightning Thief meets the Story Thieves series in this middle grade fantasy inspired by Hispanic folklore, legends, and myths from the Iberian Peninsula and Central and South America. Charlie Hernández has always been proud of his Latin American heritage. He loves the culture, the art, and especially the myths. Thanks to his abuela's stories, Charlie possesses an almost encyclopedic knowledge of the monsters and ghouls who have spent the last five hundred years haunting the imaginations of children all across the Iberian Peninsula, as well as Central and South America. And even though his grandmother sometimes hinted that the tales might be more than mere myth, Charlie's always been a pragmatist. Even barely out of diapers, he knew the stories were just make-believe—nothing more than intricately woven fables meant to keep little kids from misbehaving.

But when Charlie begins to experience freaky bodily manifestations—ones all too similar to those described by his grandma in his favorite legend—he is suddenly swept up in a world where the mythical beings he's spent his entire life hearing about seem to be walking straight out of the pages of Hispanic folklore and into his life. And even stranger, they seem to know more about him than he knows about himself. Soon, Charlie finds himself in the middle of an ancient battle between La Liga, a secret society of legendary mythological beings sworn to protect the Land of the Living, and La Mano Peluda (a.k.a. the Hairy Hand), a cabal of evil spirits determined to rule mankind. With only the help of his lifelong crush, Violet Rey, and his grandmother's stories to guide him, Charlie must navigate a world where monsters and brujas rule and things he couldn't possibly imagine go bump in the night. That is, if he has any hope of discovering what's happening to him and saving his missing parents (oh, and maybe even the world). No pressure, muchacho.

**I Can Make You Hate** Charlie Brooker 2012-10-02 Would you like to eat whatever you want and still lose weight? Who wouldn't? Keep dreaming, imbecile. In the meantime, if you'd like to read something that alternates between laugh-out-loud-funny and apocalyptically angry, keep holding this book. Steal it if necessary. In his latest collection of rants, raves, hastily spluttered articles and scarcely literate

scrawl, Charlie Brooker proves that there is almost nothing in this universe, big or small, that can't reduce a human being to a state of pure blind hatred. It won't help you lose weight, feel smarter, sleep more soundly, or feel happier about yourself. It WILL provide you with literally hours of distraction and merriment. It can also be used to stun an intruder, if you hit him with it correctly (hint: strike hard, using the spine, on the bridge of the nose). ONLY A PRICK WOULDN'T BUY THIS BOOK. DON'T BE THAT PRICK.

**How To Watch Television** Jason Mittell 2013-09-16 We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it 'good' or 'bad.' Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in a broader social context. How to Watch Television brings together forty original essays from today's leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular

television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, How to Watch Television is designed to engender classroom discussion among television critics of all backgrounds. **What Goes on** Walter Everett 2019 In a stretch of just seven years, the Beatles recorded hundreds of songs which tower above those of their worthy peers as both the product of

cultural leadership and an artistic reflection of their turbulent age, the 1960s. Walter Everett and Tim Riley's *What Goes On: The Beatles, Their Music, and Their Time* blends historical narrative, musicology, and music analysis to tell the full story of the Beatles and how they redefined pop music. The book traces the Beatles' development chronologically, marking the band's involvement with world events such as the Vietnam War, strides in overcoming racial segregation, gender stereotyping, student demonstrations, and the generation gap. It delves deeply into their body of work, introducing the concepts of musical form, instrumentation, harmonic structure, melodic patterns, and rhythmic devices in a way that is accessible to musicians and non-musicians alike. Close readings of specific songs highlight the tensions between imagination and mechanics, songwriting and technology, and through the book's musical examples, listeners will learn how to develop strategies for creating their own rich interpretations of the potential meanings behind their favorite songs. Videos hosted on the book's companion website offer full definitions and performance demonstrations of all musical concepts discussed in the text, and interactive listening guides illustrate track details in real-time listening. The unique multimedia approach of *What Goes On* reveals just how great this music was in its own time, and why it remains important today as a body of singular achievement.

**The Moral Uncanny in Black Mirror**  
Margaret Gibson 2020 This erudite volume examines the moral universe of the hit Netflix show *Black Mirror*. It brings together scholars in media studies, cultural studies, anthropology, literature, philosophy, psychology, theatre and game studies to analyse the significance and reverberations of Charlie Brooker's dystopian universe with our present-

day technologically mediated life world. Brooker's ground-breaking *Black Mirror* anthology generates often disturbing and sometimes amusing future imaginaries of the dark side of ubiquitous screen life, as it unleashes the power of the uncanny. This book takes the psychoanalytic idea of the uncanny into a moral framework befitting *Black Mirror*'s dystopian visions. The volume suggests that the *Black Mirror* anthology doesn't just make the viewer feel, on the surface, a strange recognition of closeness to some of its dystopian scenarios, but also makes us realise how very fragile, wavering, fractured, and uncertain is the human moral compass.

**Red Plenty** Francis Spufford  
2012-02-14 "Spufford cunningly maps out a literary genre of his own . . . Freewheeling and fabulous." —The Times (London) Strange as it may seem, the gray, oppressive USSR was founded on a fairy tale. It was built on the twentieth-century magic called "the planned economy," which was going to gush forth an abundance of good things that the lands of capitalism could never match. And just for a little while, in the heady years of the late 1950s, the magic seemed to be working. *Red Plenty* is about that moment in history, and how it came, and how it went away; about the brief era when, under the rash leadership of Khrushchev, the Soviet Union looked forward to a future of rich communists and envious capitalists, when Moscow would out-glimmer Manhattan and every Lada would be better engineered than a Porsche. It's about the scientists who did their genuinely brilliant best to make the dream come true, to give the tyranny its happy ending. *Red Plenty* is history, it's fiction, it's as ambitious as Sputnik, as uncompromising as an Aeroflot flight attendant, and as different from what you were expecting as a glass of Soviet champagne.

**The Queen of Tuesday** Darin Strauss  
2020-08-18 Lucille Ball, Hollywood's first true media mogul, stars in this "bold" (The Boston Globe), "boisterous novel" (The New Yorker) with a thrilling love story at its

heart—from the award-winning, bestselling author of *Chang & Eng* and *Half a Life* A WASHINGTON POST BEST BOOK OF THE YEAR • “A gorgeous, Technicolor take on America in the middle of the twentieth century.”—Colson Whitehead, Pulitzer Prize-winning author of *The Nickel Boys* This indelible romance begins with a daring conceit—that the author’s grandfather may have had an affair with Lucille Ball. Strauss offers a fresh view of a celebrity America loved more than any other. Lucille Ball—the most powerful woman in the history of Hollywood—was part of America’s first high-profile interracial marriage. She owned more movie sets than did any movie studio. She more or less single-handedly created the modern TV business. And yet Lucille’s off-camera life was in disarray. While acting out a happy marriage for millions, she suffered in private. Her partner couldn’t stay faithful. She struggled to balance her fame with the demands of being a mother, a creative genius, an entrepreneur, and, most of all, a symbol. The Queen of Tuesday—Strauss’s follow-up to *Half a Life*, winner of the National Book Critics Circle Award—mixes fact and fiction, memoir and novel, to imagine the provocative story of a woman we thought we knew.

*Speculative Everything* Anthony Dunne 2013-12-06 How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose "what if" questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

*Into The Unknown* Andy Murray 2017-06-08 Since the earliest days of

British television drama, scriptwriter Nigel Kneale has been a seminal figure. His Quatermass serials for the BBC were a seismic event in the 1950s, before finding international success when adapted by Hammer Films for the big screen. Later TV plays, such as *The Road*, *The Stone Tape* and *The Year of the Sex Olympics*, skilfully blend elements of science fiction and the ghost story. They remain classics and Kneale himself a great influence on popular culture. Revised and updated, this new edition of *Into the Unknown* charts Nigel Kneale's extraordinary career, from his childhood on the Isle of Man, to his fraught days at the BBC, strange adventures in Hollywood, and his status as legend to legions of fans. It draws on a wealth of research and many hours of interviews with Kneale himself, as well as prominent admirers. These include John Carpenter, Ramsey Campbell, Grant Morrison, Russell T Davies, and Mark Gatiss and Jeremy Dyson of the League of Gentlemen.

It was a brutal and surreal satire of the world of TV, media and celebrity, written with Brooker's trademark savage wit. Unavailable for some years, we are republishing it to reach his many thousands of new fans. In TV Go Home, visit a parallel world where reality TV and 'new media' have got completely out of control. Shows include Daily Mail Island, where inhabitants of a small island are

force-fed the newspaper and become ever more outraged, an eternal version of Watchdog where viewers are invited to 'phone in and complain about every single facet of every single object, product and service in the world' and various extremely rude shows featuring Mick Hucknall's testicles. Star of the book is Brooker's famous creation Nathan Barley, pretentious Hoxton new-media type 'whose very existence indelibly tarnishes the world's already questionable track record'. Not for the faint-hearted, TV Go Home is a gloriously funny, filthy and spectacularly angry book. God Woody Allen 1975 God.

Guardian 'Truly the intellect for our baffling times' The Times 'This book is absolutely stupid' The Pool Television Series as Literature Reto Winckler 2021 This book explores how television series can be understood as a form of literature, bridging the gap between literary and television studies. It goes beyond existing adaptation studies and narratological

approaches to television series in both its scope and depth. The respective chapters address literary works, themes, tropes, techniques, values, genres, and movements in relation to a broad variety of television series, while drawing on the theoretical work of a host of scholars from Simone de Beauvoir and Yuri Lotman to Ted Nannicelli and Jason Mittel, and on critical approaches ranging from narratology and semiotics to empirical sociology and phenomenology. The book fosters new ways of understanding television series and literature and lays the groundwork for future scholarship in a number of fields. By questioning the alleged divide between television series and works of literature, it contributes not only to a better understanding of television series and literary texts themselves, but also to the development of interdisciplinary scholarship in the humanities. Reto Winckler is an Associate Research Fellow at South China Normal University, Guangzhou, China. His research revolves around Shakespeares plays and their multi-medial afterlives, concentrating on issues of madness and folly, ordinary language philosophy, and the adaptation of Shakespeare in contemporary television series and digital media. His articles have been published in Shakespeare, Adaptation, Cahiers Elisabethains, and elsewhere. Victor Huertas-Martin is an Assistant Lecturer at the Facultat de Filologia, Traducció i Comunicació of the Universitat de València, Spain. Besides the hybridity of theatrical and filmic languages in TV Shakespeares, his research focuses on Serial Shakespeares, as well as space in Shakespearean performance. His work has been published in Atlantis, Shakespeare Bulletin, Sederi Yearbook, Cahiers Elisabethains, and Literature/Film Quarterly, amongst others.

**Of Muscles and Men** Michael G.

Cornelius 2011-09-29 Few movie genres have highlighted the male body more effectively than the "sword-and-sandal" film, where the rippling torso and the bulging muscle are displayed for all to appreciate.

Carrying his phallic sword and dressed in traditional garb calculated to bring attention to his magnificent physique, the sword-and-sandal hero is capable of toppling great nations, rescuing heroines, defeating monsters, and generally saving the day. Each of these essays examines the issues of masculinity and utility addressed in the sword-and-sandal genre. The contributors offer insights on a film form which showcases its male protagonists as heroic, violent, fleshy, and, in the end, extremely useful.

Broadcasting in the 21st Century

Richard Rudin 2017-09-16 The 21st century is already seeing fundamental changes in broadcasting. No longer are audiences limited to watching or listening to television and radio at the times and places dictated by the broadcasters, or on radio or TV 'sets'. Broadcasting in the 21st Century demonstrates how 'traditional' television and radio is being both challenged and supported by technological developments, including convergence and social media. Drawing on interviews with industry personnel and featuring case studies and research from many countries, including that from the UK, USA, China, India and South Africa, Richard Rudin explains not only the significance of these changes but also how many of the functions and pleasures of broadcasting that were established in the 20th century are being enhanced by new media. Opening with a substantial account of how broadcasting developed in the 20th century, the author goes on to explore how new media forms are changing audiences' pleasures, expectations and demands. Rudin's illuminating study highlights the changing relationship between audiences and broadcast output to examine a range of subjects including: - The impact of citizens' journalism - Political coverage - International TV formats and news output - The continuing appeal of radio as a distinct medium - Debates over bias, truth and trust in broadcasting and broadcasters In addition, Broadcasting in the 21st

Century addresses a range of broadcast forms and genres including the coverage of general elections, Reality TV and pirate radio.

Brooker on the BNP Party Political Broadcast: 'Nick Griffin's first line is "Don't turn it off!", which in terms of opening gambits is about as enticing as hearing someone shout "Try not to be sick!" immediately prior to intercourse.'  
Brooker on Philip from The Apprentice: 'If it were legal or even possible to do so, he'd probably marry himself, then conduct a long-term affair with himself behind himself's back, eventually fathering nine children with himself, all of whom would walk and talk like him. And then he'd lock those mini-hims in a secret underground dungeon to have his sick way with his selves, undetected, for decades.'  
Brooker on Royal Ascot: 'Every year it's the same thing: a 200-year-old countess you've never heard of, who closely resembles a Cruella De Vil mannequin

assembled entirely from heavily wrinkled scrotal tissue that's been soaked in tea for the past eight decades, attempts to draw attention away from her sagging neck - a droopy curtain of skin that hangs so low she has to repeatedly kick it out of her path as she crosses the royal compound - by balancing the millinery equivalent of Bilbao's Guggenheim museum on her head.'
