*Appreciating Melodrama* Piyush Roy 2022-01-30 *Appreciating Melodrama: Theory and Practice in Indian Cinema and Television* seeks to identify and appreciate the continual influence of the ancient Sanskrit drama treatise, the *Natyashastra*, and its theory of aesthetics, the *rasa* theory, on the unique narrative attributes of Indian cinema. This volume of work critically engages with a representative sample of landmark films from 100 years of Indian film history across genres, categories, regions and languages. This is the first time a case study-based rigorous academic review of popular Indian cinema is done using the Indian aesthetic appreciation theory of *rasa* (affect/emotion). It proposes a theoretical model for film appreciation, especially for content made in the melodramatic genre, and challenges existing First World/Euro-American film criticism canons and notions that privilege cinematic 'realism' over other narrative forms, which will generate passionate debates for and against its propositions in future studies and research on films. This is a valuable academic reference book for students of film and theatre, world cinema and Indian cinema studies, South Asian studies and culture, Indology and the 'Sociology of Cinema' studies. It is a must-have reference text in the curriculum of both practical-oriented acting schools, as well as courses and

modules focusing on a theoretical study of cinema, such as film criticism and appreciation, and the history of movies and performance studies.

**Indian Silver Screen** Dr. Paramveer Singh 2021-08-05 *Indian Silver Screen* Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. The book begins with the story of the introduction of television in various countries. It describes the development of television in Britain, America, Australia, China, Africa, and other countries of the continent of Asia. After this, the early experiments, projects, and history and current status of television in India are told. Many of the chapters in the book are about the

major television business groups in India that have deep penetration into the Indian television industry. The book also introduces programs that have become famous in India, which have proved to be milestones in Indian television history and reached heights of popularity. Apart from this, the book describes the laws of India which have been implemented to control the television industry. A chapter in the book is written about various television broadcasting techniques practiced in the country. Apart from this, there is a chapter about Direct to Home, which tells the story of the development of DTH in India. Television rating points determine the popularity of television channels and programs. The book introduces various agencies and institutions that determine TRP in India. In addition to this, the history of television journalism in India has also been discussed. A chapter about television journalism in various languages of India such as Hindi, Punjabi, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, Bengali, and Assamese is described in detail. The last chapter of the book discusses various international television channels that are broadcasting in India.

[Madras Studios](#) Swarnavel Eswaran Pillai 2015-01-27 This book documents the history of Tamil cinema, one of the most colossal film industries in the world, and studies the major studios of Madras, the largest outside classical Hollywood in the private sector. It engages with five major studios of Madras—Modern Theatres, AVM, Gemini, Vijaya-Vauhini, and Prasad— through the origins of their founders, and explicates how their history influenced the narratives, genre, and ideology of the canonical films made in Madras studios, arguing for their lasting influence on Tamil cinema. Based on rare primary and secondary materials, and oral history, this book engages with Tamil cinema at the intersection of its industrial, cultural, and socio-political history to argue for its

specificity in terms of its aesthetics and its belief in the potential of the medium to mobilize audiences for ideology, politics, and reflexivity.

*The Gods of Mars* Edgar Rice Burroughs 2020-05-24T01:36:48Z The Gods of Mars is Burroughs' sequel to A Princess of Mars. After ten long years, John Carter is again transported to Mars to try and determine the fate of his wife Dejah Thoris, but finds himself in the forbidden Valley Dor, from which no

man may return. Published serially in five parts between January and May 1913, this sequel appeared a year after the initial serialization of its predecessor. It was eventually published in its full novel form in 1918. Although the Martian series contains ten books in total, the first three—of which *The Gods of Mars* is the second—are often considered a stand-alone trilogy. Throughout the series, Burroughs' imagination and sense of adventure shine through, and his extravagant prose and innovative vocabulary raise the works up above run-of-the-mill pulp fiction. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Industrial Networks and Cinemas of India Monika Mehta 2020-12-13 This volume points to the limits of models such as regional, national, and transnational, and develops 'network' as a conceptual category to study cinemas of India. Through grounded and interdisciplinary research, it shows how film industries located in disparate territories have not functioned as isolated units and draws attention to the industrial traffic – of filmic material, actors, performers, authors, technicians, genres, styles, sounds, expertise, languages, and capital, across trans-regional contexts -- since the inception of cinema. It excavates histories of film production, distribution and exhibition, and their connections beyond regional and national boundaries, and between places, industrial practices, and multiple media. The chapters in this volume address a range of themes such as transgressive female figures; networks of authors and technicians; trans-regional production links and changing technologies, and new media geographies. By tracking manifold changes in the contexts of transforming media, and inter-connections between diverse industrial nodal points, this book expands the critical vocabulary in media and production studies and foregrounds new methods for examining cinema. A generative account of industrial networks, this volume will be useful for scholars and researchers of film studies, cinema studies, media studies, production studies, media sociology, gender studies, South Asian studies, and cultural studies.

Rethinking Transnational Chinese Cinemas Jeremy E. Taylor 2020-11-26 The Amoy-dialect film industry emerged in the 1950s, producing cheap, b-grade films in Hong Kong for direct export to the theatres of Manila Chinatown, southern Taiwan and Singapore. Films made in Amoy dialect - a dialect of Chinese - reflected a particular period in the history of the Chinese diaspora, and have been little studied due to their ambiguous place within the wider realm of Chinese and East Asian film history. This book represents the first full length, critical study of the origin, significant rise and rapid decline of the Amoy-dialect film industry. Rather than examining the industry for its own sake, however, this book focuses on its broader cultural, political and economic significance in the region. It questions many of the assumptions currently made about the 'recentness' of transnationalism in Chinese cultural production, particularly when addressing Chinese cinema in the Cold War years, as well as the prominence given to 'the nation' and 'transnationalism' in studies of Chinese cinemas and of the Chinese Diaspora. By examining a cinema that did not fit many of the scholarly models of 'transnationalism', that was not grounded in any particular national tradition of filmmaking and that was largely unconcerned with 'nation-building' in post-war Southeast Asia, this book challenges the ways in which the history of Chinese cinemas has been studied in the recent past.

Rajinikanth Naman Ramachandran 2014-01-15 Rajinikanth is, quite simply, the biggest superstar cinema-crazy India has ever seen. His stylized dialogues and screen mannerisms are legion, and his guy-next-door-cum-superhero image has found a hysterically appreciative following among millions of moviegoers. Naman Ramachandran's marvellous biography recounts Rajini's career in meticulous detail, tracing his incredible cinematic journey from Apoorva Raagangal (1975) to Kochadaiyaan (2013). Along the way, the book provides rare insights into the Thalaivar's personal life, from his childhood days to his times of struggle—when he was still Shivaji Rao Gaekwad—and then his eventual stardom: revealing how a legend was born.

**Misogyny across Global Media** Maria B. Marron 2021-02-25 Misogyny across Global Media argues that, although women's experiences under misogyny are by no means universal, patriarchal social and institutional systems facilitate

gender-based hostility across the globe. Contributors demonstrate how systemic misogyny and power inequities are at the root of women's suffering at the hands of misogyny, with consequences ranging from sexual harassment to rape and even murder. This book provides an interdisciplinary overview of systemic misogyny worldwide, analyzing specific cases such as the controversial Child Marriage Act in Bangladesh, sexual harassment in India's Bollywood culture, rape culture among military forces in Jammu and Kashmir, the murder of female students in Kenya, and femicide in Turkey. This collection discusses how misogyny creates a clash of cultures between men and women, the powerful and the oppressed, and the conservative and the liberal, and uncovers the evils that are perpetrated against women worldwide as a result of systemic misogyny. Scholars of gender studies, media studies, and cultural studies will find this book particularly useful.

**Tamil Cinema** Selvaraj Velayutham 2008-04-03 Hitherto, the academic study of Indian cinema has focused primarily on Bollywood, despite the fact that the Tamil film industry, based in southern India, has overtaken Bollywood in terms of annual output. This book examines critically the cultural and cinematic representations in Tamil cinema. It outlines its history and distinctive characteristics, and proceeds to consider a number of important themes such as gender, religion, class, caste, fandom, cinematic genre, the politics of identity and diaspora. Throughout, the book cogently links the analysis to wider social, political and cultural phenomena in Tamil and Indian society. Overall, it is an exciting and original contribution to an under-studied field, also facilitating a fresh consideration of the existing body of scholarship on Indian cinema.
