Small Ball Don Geidel
2016-09-11 September 11th,
2001 was America's wake up
call to terrorism.
Unfortunately, we hit the
snooze alarm. The next wave of

terror attacks won't be nation
shaking, cataclysmic events.
We're ready for that. Instead,
they'll be minor, localized
nightmares. Mere pinpricks to
our country, but catastrophic
to the small towns that find

themselves in the crosshairs. Worst of all, there's nothing we can do to stop it from happening - or is there? A gritty novel extrapolated from real world events, this fast-paced, riveting thriller will leave you alarmed, angry, and awestruck at America's unpreparedness for the next wave of terror attacks. Some might refer to it as death by a thousand cuts, but the counterterrorism community calls it Small Ball. Small Ball is an indictment of our woefully wrongheaded security infrastructure and a testament to the resilience, resourcefulness, and integrity of the average American. You'll wonder why it hasn't happened already. Perhaps it's happening right now...

Law and Global Health Michael Freeman 2014-05-29 Current Legal Issues, like its sister volume Current Legal Problems (now available in journal format), is based upon an annual colloquium held at University College London. Each year leading scholars from around the world gather to discuss the relationship between law and another discipline of thought. Each colloquium examines how the external discipline is conceived in legal thought and argument,

how the law is pictured in that discipline, and analyses points of controversy in the use, and abuse, of extra-legal arguments within legal theory and practice. Law and Global Health, the sixteenth volume in the Current Legal Issues series, offers an insight into the scholarship examining the relationship between global health and the law. Covering a wide range of areas from all over the world, articles in the volume look at areas of human rights, vulnerable populations, ethical issues, legal responses and governance.

Winter Interlude Sandy Loyd
2012-08-02 Do you remember your mother telling you when you were little that you'd never meet Mr. Right if you were spending all your time and energy with Mr. Wrong? And what about the book out a few years ago that created such a hoopla with the single crowd - He's Just Not That Into You? The two main characters in *Winter Interlude* either didn't heed their mother's advice or haven't read the book. Now, add into the plot that the two in

question are enemies who regularly run into each other, given their current relationships. Paul Morrison, a hunky, blond, financial planner, has been putting time and energy into winning the heart of Kate Winter's best friend for almost as long as Kate, a strong willed antiques dealer, has been dating James Morrison, Paul's brother. The sparks start to fly when the two get stuck together for a three-hour drive to the mountains and years of misconceptions about each other are slowly being wiped out. It is in the confines of the BMW that the two begin their journey, taking them from being mortal enemies to lovers. *Winter Interlude* tells the story of their adventure - of how they finally find love. Kate and Paul's story is the first one in a series of four friends caught in a time warp. They can't move on because they are stuck on their idea of their perfect dreams. But sometimes life works in mysterious ways and they are all forced by circumstances to change. Show More Show Less

The Psychology of Micro-Targeted Election Campaigns

Jens Koed Madsen 2019-09-26

This book examines the psychology behind micro-targeted tactics used in election campaigning and the advent of increasingly sophisticated dynamic Agent-Based Models (ABMs). It discusses individual profiling, how data and modelling are deployed to enhance the effectiveness of persuasion and mobilization efforts in campaigns, and the potential limitations of these approaches. Madsen particularly explores how psychological insight and personal data are used to generate individualised models of voters and how these in turn are applied to optimise persuasion strategies tailored to a specific person. Finally, the book considers the broader democratic dilemmas raised by the introduction of these tactics into politics and the critical civic importance of understanding how these campaigns function. This timely work offers fresh insights for

students and scholars of political psychology, philosophy, political marketing, media, and communications.

Philosophy in 30 Days

Structophis Joseph R. Lallo

2017-07-12 *Structophis* is a heartwarming YA adventure from the author of *The Book of Deacon*, *Bypass Gemini*, and *Free-Wrench*. It is based upon a concept and artwork by ProjectENDO. In a small town in Colorado, Markus Spiros was just getting his life on track. By day he worked as a veterinary tech, by night he took classes. His steady little routine was rolling along nicely when his impulsive Uncle Dimitrios threw a wrench in the works. Thanks to an unannounced trip, Markus had to swing by his uncle's bistro to tend to the 'special oven.' When he arrived, he discovered it wasn't the oven that was special, it was the rare and exotic egg that had been incubating inside it. And now it had hatched. Suddenly, Markus found his life had become a good deal more complicated. The creature was a *Structophis Gastrignae*—a strange creature that was equal parts dragon and oven—and she'd become quite a big girl. Large as a refrigerator and curious as a toddler, the creature he'd

dubbed Blodgette would have been a handful in any situation. Markus had bigger problems than figuring out how to take care of her, though. Owning such a rare and special beast was illegal, so should the cops learn of it, Markus would be destined for jail. Worse, there were certain unscrupulous people who would do anything to acquire Blodgette. Now, with the help of his old classmate Gale, Markus must scramble to stay two steps ahead of the authorities and a corrupt CEO, all while being the best 'mommy' he can be to his brand-new pizza dragon.

Curium Darrell B. Cobb
2015-09-20 CURIUM is the story of thirty-five year Park employee Jack Jones after he receives an unexpected death sentence from his doctor. Jack works at Steadyland -- the world's biggest, most successful and well-known amusement park. Designed and built in Beatrice, California in the early 1950's by animation genius Gomer Steady, the Park reinvented itself over time by incorporating tons of cutting-

edge technology as it grew in popularity. But some of these entertainment advances came at a high price. The computer-driven animated technology known as audioroboticals was developed in secret, with little or no oversight regarding safety. Over time, Park employees and even some Park Guests were exposed to dangerous side effects. The bigshots treated Park customers like lab rats flush with cash. During a period of rapid expansion, management installed those nasty little audioroboticals all over the Park. There were thousands of robots in the much-loved (and much-hated) It's A Doll's World and The Polynesian Bird Room. And then there was Steady's personal favorite - the patriotic George Washington exhibit - a presidential audiorobotical that was, in fact, as dangerous as Three Mile Island. The Park administrators knew of the problem, but they decided to cover-up the "situation" rather than spend hundreds of millions of dollars fixing it. As a result, many of the Park's long-

time employees began to experience gruesome metabolic deterioration. The Park's Suits retired the George Washington exhibit and mothballed the robot inside a storage facility deep underground. But "he" is about to be liberated from exile by ex-employees seeking revenge. And revenge - as everybody knows - is a dish best served very, very hot. Oh, and please keep your hands and feet inside the ride vehicle at all times.

Naturally Composed Marty Straub 2016-08-12 A look at why we are interested in what we see in art. Are we born with aesthetic preferences that are shaped by cultural influences? Is our natural attraction to Beauty another weapon in our arsenal of species' survival? This book examines many so-called rules of composition in the visual arts to find natural reasons for their existence. It is designed to aide the visual artist and those who appreciate

their work by bringing attention to subtle cues of attraction cultivated by our ancient and immediate ancestors. It calls upon recent work in neuroaesthetics and other scientific disciplines to back up its speculative claims, and asks the reader to contribute opinions of their own on the books' website at naturallycomposed.com. There are many examples of photos in the book, and the reader is again asked to insert their own examples to enforce or refute the claims.

The Horrors and Absurdities of Religion Arthur Schopenhauer 2009-08-27 A fascinating examination of ethics, religion and psychology, this selection of Schopenhauer's works contains scathing attack on the nature and logic of religion, and an essay on ethics that ranges from the American slavery debate to the vices of Buddhism. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and

revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

Where Angels & Devils

Tread Joy Lennick 2017-03-15

The joint ages of friends Joy Lennick and Jean Wilson may add up to one hundred and seventy one years, but there's nothing "old lace" about these two women writers; while the "arsenic" connection is questionable... Both adept at delving into the messy, murky world of murder, it is enlightening, and sometimes, a relief... to discover their added light, humorous touch. This makes for a diverse selection of highly entertaining short stories to tickle the fancy of readers of a variety of genres. Jean Wilson worked as a Queen's Nurse in the 1950s, and soon earned the affectionate nickname 'The Angel of Aldgate' for her cheerful, hard work among the sick of the East End of London; and Joy Lennick wore a few hats before becoming an author in 1984; adding many writing projects to her long list,

including five books.

Baseball Odyssey is a reflection on parenting a highly skilled, nationally-ranked and difficult baseball prodigy, told through the author's eyes as he witnessed and participated in the successes and failures of his son playing baseball and growing up in Central Florida. It deals with the changing

world of competitive youth sports, over-involved parents, fanatical coaches, the hypocrisies inherent in high school athletics, the college recruiting process and how we teach our kids to grow up and become decent human beings - despite ourselves. It involves well-known sports figures as well as local sports icons with traits and characteristics that everyone will recognize. It's a book about flawed parenting, about living vicariously through a gifted child and learning, finally, that being a good father is as much about letting go as it is about being there. Call it Moneyball meets Everything I Know I Learned in Kindergarten.

Backswipe Richard Nabstedt 2013-07 In the future, the past will never be the same... By the end of the 25th Century few had as storied a career as Doctor J. Burke. An historian who used quantum superluminal teleportation to mingle among her forebears through twenty different decades making discoveries and recovering lost artifacts,

she was the last of the Historical Archive Collection's 'big three' antiquinants. The physical effects of the profession had grounded jovial Ike Chernovich in old San Francisco, companion Braham Lilienthal had vanished without a trace three years before, and the indifference of the Minders from the future, who were best positioned to help, left Burke with a weary cynicism. Only the promise of a special mission, the brainchild of rookie archivist Nathan Rialto, brought her back again. It was Burke's specialty, the recovery of a glamorous old airliner from 1951 using a revolutionary new teleport, and in California as well. She would gather her trusty team of specialists, teach the rookie the ropes and perhaps contemplate a different kind of future afterward with Ike. From the moment it began it felt as if the whole mission had been created just for her...and that was only the beginning of her problems!

Huge robotic Sentries police the streets, but the Ten Laws are broken every time one turns its back. Eden is determined, smart, and a born survivor. Stripped of her memories and dumped on the streets of the Outpost, slavers and starvation are only the beginning of her problems. A devastating conflict is coming that threatens to consume her world and tear her newfound family apart. Life is harsh. It makes no exceptions. Not even for the innocent. "Absolutely heart-stopping! Grizzly, dark, haunting and gripping in a way that kept me glued in to the very end. The Art of Always Being Right: The 38 Ways to Win an Argument 2022-10-25

Tropiline Bajan Design Don J.b. Blackman 2014-01-16 This black and white (B&W) Edition of Tropiline Bajan Design (USA Design Patent Des 328198 S) was designed to be of special value to students, artists, and academics. It is about the best modern product design ever to come out of an emerging market and is a major advance in international modern art with cultural, personal, and regional influences all synthesized to produce a masterpiece. It is a single line drawn in space as the essence of the design, like Malevich's rotated linear squares, Saarinen's St. Louis Arch, and Brancusi's Bird in Space!“Even less is even more” permeates the philosophy, which is an

amazing chronology of the creative process, the struggles of innovative artists, perseverance and determination (as the design moves around the world from Barbados, to Denmark, to China); with a challenge to all emerging markets (and communities) to move forward modern progressive principles in an age of increasing globalization and international cooperation. The B&W version has a chiaroscuro that is very powerful allowing the brilliant modern forms throughout the book to emerge purely.

___ (From the Playboy interview with Jay-Z, April

2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, *Volume Three*, was wack. People set higher standards for me, and I love it. The Art of Always Being Right
Arthur Schopenhauer
2009-01-01 In discussions and

meetings the aim of everyone is to persuade. Yet we know that really the best result is obtained by the person who is most skilled in holding his position. This title catalogues the 38 subtle tricks businessmen, negotiators, politicians, lawyers use to gain advantage.

The Art Of Seduction Robert Greene 2010-09-03 Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most

resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of *The 48 Laws of Power*, *Mastery*, and *The 33 Strategies Of War*. [Growing Up Brooklyn](#) Tony Palermo 2017-08-31 Childhood memories become warm and rose colored, "and that's as it should be," so said an old friend of mine who shared

more than a few with me. Mine, too, are warm and rose colored; but also vivid. Yes, I really do remember being in a crib. Folks challenge me on that once in a while. But for how much longer, I'm not sure. Once the mental concrete hardens, I'll be left with what I can glean from pictures and second hand accounts. So I wrote this book. And of course, one memory led to another. Eleven years of them, the ones I spent growing up Brooklyn. What follows are the good stories of the people who mattered - still matter - to me. Today more than ever, I look at them with warm, rose colored sight, content that my earliest memories are true and valuable.

The Art of Strategic Non-Action

David Tuffley 2011-11-09

Strategic non-action is a powerful yet under-rated method of influencing worldly affairs. In cultures where action is favoured over inaction, like in the West, direct action is considered a virtue while inaction is little more than laziness or

cowardice. Let us be more subtle and nuanced in our understanding. There is a time for both action and inaction. Non-action gives access to a deeper intuitive awareness than that gained through action, since knowledge that comes through action is obscured by situation-specific reactions. Non-action is an aspect of going with the flow, not resisting the larger forces that govern a world of which you are a small part. It acknowledges that events are governed by the laws of Nature, and it is often best to simply allow those laws to operate and play out in their own time, in their own way. Non-action can help us towards our goals by encouraging patience and taking the long-view. Humanistic Psychology says that it is within our reach to create the life we want for ourselves. As we think and believe, so we create our world. This is indeed true, but only up to a point. We can transform our lives in goal fulfilling ways, but the transformation is relatively

slow, its progress measured in months and years.

Happy As a Rat in a Trash

Can Don Pasco 2013-05-03 On a scale of 1 to 10, with 1 being not happy at all and 10 being very, very happy, how happy would you say you are right now, BEFORE reading this book? Now remember that number. Inside "Happy As a Rat In a Trash Can" Don challenges the reader to raise that number just as a student would be challenged to raise up school grades. Don says this book is about YOU! It is about you becoming a little more faithful a little more grateful a little more understanding a little more forgiving a little more thoughtful a little more caring and a lot more loving Why? Because these are the things that beget happiness. In early 2008 Don's Mom went to be with the Lord. She was a person just like your Mom... very loving and invariably, always in your corner. Her Christian values were instilled in him and are presented to the readers throughout this book. Don presents his points with a

sense of humor (as reflected in the title) but never does he joke about the seriousness of becoming a happier person. He'll explain why faith is necessary and how the Law of sowing and reaping is creating the world YOU live in.
