research on public opinion. Organized around a series of questions—In a democratic society, what should be the relationship between citizens and their government? Are citizens' opinions pliable? Are they knowledgeable, attentive, and informed?—the text explores the tension between ideals and their practice. Each chapter focuses on exemplary studies, explaining not only the conclusion of the research, but how it was conducted, so students gain a richer understanding of the research process and see methods applied in context.

**Democracy and the Economy in Finland and Sweden since 1960** Ilkka Kärriälä 2021-10-01 This book explores the relationship between democracy and the economy in contemporary political thought and policy-making. Using the concepts of economic, industrial and enterprise democracy, the author focuses on the history of Finland and Sweden

during the latter part of the twentieth century. The three concepts are discussed in relation to various political groups, such as social democrats, conservatives and liberals, and the reforms that they were associated with, painting a picture of changing economic thought in the Nordic countries, and the West more generally. Arguing that the concept of democracy has evolved from representative parliamentary democracy towards 'participation' in civil society, this book demonstrates how the ideal of individual freedom and choice has surpassed collective decision-making. These shared characteristics between Finland, Sweden and other Western countries challenge the view that the Nordic countries have been exceptional in resisting neoliberalism. In fact, as this book shows, neoliberalism has been influential to the Nordics since the 1970s. Offering an innovative and conceptual perspective on European political

history, this book will appeal to scholars interested in Nordic political history and modern European history more generally.

The East Asian Challenge for Democracy Daniel A. Bell 2013-08-12 The rise of China, along with problems of governance in democratic countries, has reinvigorated the theory of political meritocracy. But what is the theory of political meritocracy and how can it set standards for evaluating political progress (and regress)? To help answer these questions, this volume gathers a series of commissioned research papers from an interdisciplinary group of leading philosophers, historians and social scientists. The result is the first book in decades to examine the rise (or revival) of political meritocracy and what it will mean for political developments in China and the rest of the world. Despite its limitations, meritocracy has contributed much to human flourishing in East Asia

and beyond and will continue to do so in the future. This book is essential reading for those who wish to further the debate and perhaps even help to implement desirable forms of political change.

Political Corruption Michael Johnston 2017-07-12 Corruption is once again high on the international policy agenda as a result of globalization, the spread of democracy, and major scandals and reform initiatives. But the concept itself has been a focus for social scientists for many years, and new findings and data take on richer meanings when viewed in the context of long-term developments and enduring conceptual debates. This compendium, a much-enriched version of a work that has been a standard reference in the field since 1970, offers concepts, cases, and fresh evidence for comparative analysis. Building on a nucleus of classic studies laying out the nature and development of the concept of corruption, the book also incorporates

recent work on economic, cultural, and linguistic dimensions of the problem, as well as critical analyses of several approaches to reform. While many authors are political scientists, work by historians, economists, and sociologists are strongly represented. Two-thirds of the nearly fifty articles are based either on studies especially written or translated for this volume, or on selected journal literature published in the 1990s. The tendency to treat corruption as merely a synonym for bribery is illuminated by analyses of the diverse terminology and linguistic techniques that help distinguish corruption problems in the major languages. Recent attempts to measure corruption, and to analyze its causes and effects quantitatively are also critically examined. New contributions emphasize especially: corruption phenomena in Asia and Africa; contrasts among region and regime types; comparing U.S. state corruption incidence; European Party finance

and corruption; assessments of international corruption rating project; analyses of international corruption control treaties; unintended consequences of anti-corruption efforts. Cumulatively, the book combines description richness, analytical thrust, conceptual awareness, and contextual articulation.

**Democracy and Equality** Geoffrey R. Stone  
2020-01-06 From 1953 to 1969, the Supreme Court under Chief Justice Earl Warren brought about many of the proudest achievements of American constitutional law. The Warren declared racial segregation and laws forbidding interracial marriage to be unconstitutional; it expanded the right of citizens to criticize public officials; it held school prayer unconstitutional; and it ruled that people accused of a crime must be given a lawyer even if they can't afford one. Yet, despite those and other achievements, conservative critics have fiercely

accused the justices of the Warren Court of abusing their authority by supposedly imposing their own opinions on the nation. As the eminent legal scholars Geoffrey R. Stone and David A. Strauss demonstrate in *Democracy and Equality*, the Warren Court's approach to the Constitution was consistent with the most basic values of our Constitution and with the most fundamental responsibilities of our judiciary. Stone and Strauss describe the Warren Court's extraordinary achievements by reviewing its jurisprudence across a range of issues addressing our nation's commitment to the values of democracy and equality. In each chapter, they tell the story of a critical decision, exploring the historical and legal context of each case, the Court's reasoning, and how the justices of the Warren Court fulfilled the Court's most important responsibilities. This powerfully argued evaluation of the Warren Court's legacy, in

commemoration of the 50th anniversary of the end of the Warren Court, both celebrates and defends the Warren Court's achievements against almost sixty-five years of unrelenting and unwarranted attacks by conservatives. It demonstrates not only why the Warren Court's approach to constitutional interpretation was correct and admirable, but also why the approach of the Warren Court was far superior to that of the increasingly conservative justices who have dominated the Supreme Court over the past half-century.

**The Third Wave** Samuel P. Huntington 2012-09-06  
Between 1974 and 1990 more than thirty countries in southern Europe, Latin America, East Asia, and Eastern Europe shifted from authoritarian to democratic systems of government. This global democratic revolution is probably the most important political trend in the late twentieth century. In *The Third Wave*, Samuel P.

Huntington analyzes the causes and nature of these democratic transitions, evaluates the prospects for stability of the new democracies, and explores the possibility of more countries becoming democratic. The recent transitions, he argues, are the third major wave of democratization in the modern world. Each of the two previous waves was followed by a reverse wave in which some countries shifted back to authoritarian government. Using concrete examples, empirical evidence, and insightful analysis, Huntington provides neither a theory nor a history of the third wave, but an explanation of why and how it occurred. Factors responsible for the democratic trend include the legitimacy dilemmas of authoritarian regimes; economic and social development; the changed role of the Catholic Church; the impact of the United States, the European Community, and the Soviet Union; and the "snowballing" phenomenon: change

in one country stimulating change in others. Five key elite groups within and outside the nondemocratic regime played roles in shaping the various ways democratization occurred. Compromise was key to all democratizations, and elections and nonviolent tactics also were central. New democracies must deal with the "torturer problem" and the "praetorian problem" and attempt to develop democratic values and processes. Disillusionment with democracy, Huntington argues, is necessary to consolidating democracy. He concludes the book with an analysis of the political, economic, and cultural factors that will decide whether or not the third wave continues. Several "Guidelines for Democratizers" offer specific, practical suggestions for initiating and carrying out reform. Huntington's emphasis on practical application makes this book a valuable tool for anyone engaged in the democratization process. At

this volatile time in history, Huntington's assessment of the processes of democratization is indispensable to understanding the future of democracy in the world.

Democracy in America Alexis de Tocqueville 1875

*A Diplomat's Handbook for Democracy*

*Development Support* Jeremy Kinsman 2016-10-17

In recent decades, the conduct of international relations among and within states has been very considerably altered. Today, the content of these relations relies as much on international professional and civil society networks as it does on state-to-state transactions. The role of the Internet has been fundamental in widening communications opportunities for citizens and civil society, with a profound effect on democracy transition. In consequence, diplomacy has taken on a much more human and public face. Twenty-first century ambassadors and diplomats are learning to engage

with civil societies, especially on the large themes of democratic change — an engagement that is often resisted by authoritarian regimes. A Diplomat's Handbook for Democracy Development Support presents a wide variety of specific experiences of diplomats on the ground, identifying creative, human and material resources. More broadly, it is about the policy-making experience in capitals, as democratic states try to align national interests and democratic values. The Handbook also documents the increasingly prominent role of civil society as the essential building block for successful democratic transitions, with each case study examining specific national experiences in the aspiration for democratic and pluralistic governance, and lessons learned on all sides — for better or for worse. While each situation is different — presenting unique, unstructured problems and opportunities — a review of these experiences bears out the validity

of the authors' belief in the interdependence of democratic engagements, and provides practitioners with encouragement, counsel and a greater capacity to support democracy everywhere.

*Remaking the Democratic Party* Hanes Walton

2016-08-09 Examining Southern support for

Johnson throughout his political career and his

transformative leadership of the Democratic Party

What Were We Thinking Carlos Lozada 2021-10-12

In this “crisp, engaging, and very smart” (The New

York Times Book Review) work, The Washington

Post's Pulitzer Prize-winning book critic digs into

books of the Trump era and finds that our response

to this presidency often reflects the same

polarization, contradictions, and resentments that

made it possible. It is an irony of our age that a man

who rarely reads has unleashed an onslaught of

books about his tenure and his time. Dissections of

the white working class. Manifestos of political

*the-enduring-democracy-3rd-edition-ebook*

resistance. Works on identity, gender, and migration. Memoirs on race and protest. Revelations of White House mayhem. Warnings over the future of conservatism, progressivism, and of American democracy itself. As a book critic for The Washington Post, Carlos Lozada has read just about all of them. In *What Were We Thinking*, he draws on some 150 recent volumes to explore how we understand ourselves in the Trump era. Lozada's characters are not the president, his advisers, or his antagonists but the political and cultural ideas at play—and at stake—in America. Just as Trump's election upended the country's political establishment, it shocked its intellectual class. Though some of the books of the Trump era skillfully illuminate the challenges and transformations the nation faces, too many works are more defensive than incisive, more righteous than right. Lozada offers a provocative argument:

Downloaded from [bucksandjakes.com](https://bucksandjakes.com)  
on November 30, 2022 by guest

Whether written by liberals or conservatives, activists or academics, true believers or harsh critics, the books of Trump's America are vulnerable to the same failures of imagination that gave us this presidency in the first place. In *What Were We Thinking*, Lozada's selections range from bestselling titles to little-known works, from thoroughly reported accounts of the administration to partisan polemics, from meditations on the fate of truth to memoirs about enduring—or enabling—the Trump presidency. He also identifies books that challenge entrenched assumptions and shift our vantage points, the books that best help us make sense of this era. The result is an “elegant yet lacerating” (The Guardian) intellectual history of our time, a work that transcends daily headlines to discern how we got here and how we thought here. *What Were We Thinking* will help today's readers understand America, and will help tomorrow's readers look

back and understand us.

**Shock to the System** Michael K. Miller 2021-07-20  
How violent events and autocratic parties trigger democratic change How do democracies emerge? *Shock to the System* presents a novel theory of democratization that focuses on how events like coups, wars, and elections disrupt autocratic regimes and trigger democratic change. Employing the broadest qualitative and quantitative analyses of democratization to date, Michael Miller demonstrates that more than nine in ten transitions since 1800 occur in one of two ways: countries democratize following a major violent shock or an established ruling party democratizes through elections and regains power within democracy. This framework fundamentally reorients theories on democratization by showing that violent upheavals and the preservation of autocrats in power—events typically viewed as antithetical to

democracy—are in fact central to its foundation. Through in-depth examinations of 139 democratic transitions, Miller shows how democratization frequently follows both domestic shocks (coups, civil wars, and assassinations) and international shocks (defeat in war and withdrawal of an autocratic hegemon) due to autocratic insecurity and openings for opposition actors. He also shows how transitions guided by ruling parties spring from their electoral confidence in democracy. Both contexts limit the power autocrats sacrifice by accepting democratization, smoothing along the transition. Miller provides new insights into democratization's predictors, the limited gains from events like the Arab Spring, the best routes to democratization for long-term stability, and the future of global democracy. Disputing commonly held ideas about violent events and their effects on democracy, *Shock to the System* offers new perspectives on

*the-enduring-democracy-3rd-edition-ebook*

how regimes are transformed.

**Learning and Teaching Together** Michele TD Tanaka 2016-03-01 Across Canada, teachers unfamiliar with Aboriginal approaches to learning are seeking ways to respectfully weave Aboriginal content into their lessons. This book introduces an indigenist approach to education. It recounts how pre-service teachers immersed in a crosscultural course in British Columbia began to practise Indigenous ways of knowing. Working alongside Indigenous wisdom keepers, they transformed earth fibres into a mural and, in the process, their own ideas about learning and teaching. By revealing how they worked to integrate Indigenous ways of knowing into their practice, this book opens a path for teachers to nurture indigenist crosscultural understanding in their classrooms.

serious introduction to the use of nonviolent action to topple dictatorships. Based on the author's study, over a period of forty years, on non-violent methods of demonstration, it was originally published in 1993 in Thailand for distribution among Burmese dissidents.

Readings in the Philosophy of Law - Third Edition

Keith C. Culver 2017-05-25 A rigorous introduction to profound questions about the nature and role of law.

Party Politics in America Marjorie Randon Hershey

2017-02-17 The seventeenth edition of Party Politics in America continues the comprehensive and authoritative coverage of political parties for which it is known while expanding and updating the treatment of key related topics including interest groups and elections. Marjorie Hershey builds on the book's three-pronged coverage of party organization, party in the electorate, and

party in government and integrates contemporary examples—such as campaign finance reform, party polarization, and social media—to bring to life the fascinating story of how parties shape our political system. New to the 17th Edition Fully updated through the 2016 election, including changes in virtually all of the boxed materials, the chapter openings, and the data presented. Explores increasing partisan hostility, the status of voter ID laws and other efforts to affect voter turnout, young voters' attitudes and participation, and the role of big givers such as the energy billionaire Koch brothers in the 2016 campaigns. Critically examines the idea that Super PACs are replacing, or can replace, the party organizations in running campaigns. New and expanded online Instructor's Resources, including author-written test banks, essay questions, relevant websites with correlated sample assignments, the book's appendix, and links to a collection of course

syllabi.

*The New American Democracy* Morris P. Fiorina  
1999

**American Government 3e** Glen Krutz 2021-07-28  
Principles of Comparative Politics William Roberts  
Clark 2017-02-23 Principles of Comparative Politics  
offers the most comprehensive and up-to-date  
introduction to comparative inquiry, research, and  
scholarship. In this thoroughly revised Third  
Edition, students now have an even better guide to  
cross-national comparison and why it matters. The  
new edition retains a focus on the enduring  
questions with which scholars grapple, the issues  
about which consensus has started to emerge, and  
the tools comparativists use to get at the complex  
problems in the field. Among other things, the  
updates to this edition include a thoroughly-revised  
chapter on dictatorships that incorporates a  
discussion of the two fundamental problems of

authoritarian rule: authoritarian power-sharing and  
authoritarian control; a revised chapter on culture  
and democracy that includes a more extensive  
examination of cultural modernization theory and a  
new overview of survey methods for addressing  
sensitive topics; a new section on issues related to  
electoral integrity; an expanded assessment of  
different forms of representation; and a new  
intuitive take on statistical analyses that provides a  
clearer explanation of how to interpret regression  
results. Examples from the gender and politics  
literature have been incorporated into various  
chapters, the Problems sections at the end of each  
chapter have been expanded, and the empirical  
examples and data on various types of institutions  
have been updated. Online videos and tutorials are  
available to address some of the more  
methodological components discussed in the book.

The authors have thoughtfully streamlined chapters

to better focus attention on key topics.

The Enduring Tension Donald J. Devine 2021-01-05

Western civilization fashioned a capitalism that created a worldwide economic cornucopia and higher standards of living than any other system, yet its legitimacy is often questioned by its beneficiaries. Boston University Emeritus Professor Angelo M. Codevilla, proclaims Donald Devine's *The Enduring Tension between Capitalism and the Moral Order*, "the best answer to this question since Adam Smith's. Like Smith, Devine shows the mutually sustaining nature of morality and economic freedom, and provides a much-needed clearing away of the confusion with which recent authors have befogged this essential relationship." Devine begins with Karl Marx setting capitalism's roots in feudalism and the implications of that traditionalist inheritance, finally transformed by Rousseau's "Christian heresy," which turned the

*the-enduring-democracy-3rd-edition-ebook*

vision of heavenly perfection into an impossibly perfect ideal for earthly society. To unravel this capitalist enigma, Devine identifies the roots of the confusion, critiques the rationalized responses, and identifies the remedy—the revival of an historical Lockean pluralism able to fuse a moral scaffolding sufficient to hold the walls and preserve the best of capitalist civilization.

**Islam** Tamara Sonn 2015-12-21 Now available in a fully-revised and updated third edition, *Islam: History, Religion and Politics*, provides a comprehensive and engaging introduction to the core teachings, historical development, and contemporary public struggles of Islam. Features a new chapter on the Arab Spring and the ongoing struggles for representative governance throughout the Muslim world Includes up-to-date analysis of the civil wars in Afghanistan, Syria, Iraq, and Yemen, including the rise of terrorist groups like

Boko Haram and ISIS Spans Islamic history from the life of Muhammad and the birth of Islamic ideals, through Islam's phenomenal geographical expansion and cultural development, to the creation of modern states and its role in today's global society Written by a leading scholar of Islamic studies

**An Introduction to Politics** Trevor Munroe 2002

This introduction to politics is designed for first-year students in social sciences and for the general reader interested in the basics of contemporary politics. The text's various sections and lecture summaries deal with the important areas of political science, different systems of democratic government, the fall of communism and post-communist politics, as well as issues in Caribbean politics such as globalization, constitutional reform and regional integration.

*Models of Democracy, 3rd Edition* David Held 2006

Models of Democracy provides a critical

*the-enduring-democracy-3rd-edition-ebook*

reassessment of major theories of democracy from ancient Greece to the present, along with the author's own prescription for revitalizing contemporary democratic politics.

American Government Glen Krutz 2017-12-30

American Government is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. The images in this textbook are grayscale.

*Democracy's Discontent and Civic Learning* Charles

Downloaded from [bucksandjakes.com](https://bucksandjakes.com)  
on November 30, 2022 by guest

S. White 2018-09-01 Around the globe, democracy is under assault. For a dozen years, global freedom has followed a downward slope, according to Freedom House. Once viewed as the world's model of freedom, the United States has slipped in world ratings of democracy. For a rising portion of the world's population, faith in democracy is flagging. At the same time, a wave of nationalism and xenophobia is rising in the West, questioning democracy's ability to meet the needs of its citizens. The contributors to this volume examine democracy's discontent from a variety of perspectives. What forces have produced the extreme partisanship and polarization roiling America's civic life and politics? How has today's populist movement challenged democratic norms and institutions? What role has social media played in democracy's discontent and its defense? How do we overcome persistent racism in the face of

emboldened White supremacist and anti-immigrant agitation? Across the pages of this book, teachers, teacher educators, and education policy makers will recognize a common theme in responding to democracy's discontent – the need to rebuild the nation's civic infrastructure. Research on best practices in civic learning and engagement serve as a guide to transforming how we prepare citizens for democratic deliberation and civic action. Creative and effective teaching materials and approaches await only the will to invest the needed time and support. Repairing our civic infrastructure will help to restore confidence in our civic capabilities and trust in our ability to work together for the public good. Without a serious recommitment to the civic mission of schools, the nation will be ill prepared to defend against those within and beyond our borders who are intent on undermining democracy.

**Burning the Reichstag** Benjamin Carter Hett

2014-02 Delving into the controversy surrounding the fire that burned down the Reichstag and ignited the Third Reich, this gripping account of Hitler's rise to dictatorship reopens the arson case, profiling key figures and making use of new sources and archives to reinvestigate one of the greatest mysteries of the Nazi period.

*Journalism and the Future of Democracy* Denis Muller 2021-08-09 This book is about how journalism can contribute to the recovery of democracy from the crisis exemplified by the Trump presidency, the Brexit referendum and the rise of populism across the Western world. It explores the ethical concepts that provide the foundation for journalism in modern democracies: pluralism, liberalism, tolerance, truth, free speech, and impartiality. History has shown that crisis brings opportunity for change on a scale that is unachievable under ordinary political conditions,

*the-enduring-democracy-3rd-edition-ebook*

and this book proposes fundamental ways in which journalism can help democratic societies seize the moment. It traces the development of traditional mass media and social media and explores how the two might work better together to benefit democratic life. The development of press theory is described, and enhanced by a proposed new theory, Democratic Revival.

*The Democratic Plan: Analysis and Diagnosis* Alan March 2016-03-16 Despite ongoing technical and professional advances, urban and regional planning is often far less effective than we might hope. Conflicting approaches and variable governmental settings have undermined planning's legitimacy and allowed its goals to be eroded and co-opted in the face of mounting challenges. Deeper organising principles for self-understanding, action and productive critique are lacking. This book takes steps toward resolving these problems by providing

16/24

Downloaded from [bucksandjakes.com](https://bucksandjakes.com)  
on November 30, 2022 by guest

a clear theoretical position to practically examine urban planning systems within democratic governance settings: the basis of planning's legitimacy and action. Joining practical planning with political science perspectives and the work of critical theorists such as Jürgen Habermas, it directly examines urban planning as a process of governance. The dilemmas inherent to democracy are used as key organising principles and challenges for planning. Collective knowledge development and steering processes are examined as the core purposes of urban planning. Communicative planning's grounding in the work of Habermas is revisited to develop practical ways of examining overall planning systems. This theoretical approach can be adapted to a range of planning systems and settings beyond those examined in the book, such as corporate or political realms. It is one of only a few analyses that bring together theoretical

*the-enduring-democracy-3rd-edition-ebook*

understandings and grounded and practical analyses of an Australian planning system. Conceptual and highly practical explanations of how and why the Victorian system does and doesn't 'work' are revealed. The book demonstrates how specific place-based understandings, and meaningful comparison between planning systems, can be made using critical theory to suggest positive change.

and democracy.

**The Decline and Rise of Democracy** David Stasavage 2021-08-24 "Historical accounts of democracy's rise tend to focus on ancient Greece and pre-Renaissance Europe. *The Decline and Rise of Democracy* draws from global evidence to show that the story is much richer--democratic practices were present in many places, at many other times, from the Americas before European conquest, to ancient Mesopotamia, to precolonial Africa. Delving into the prevalence of early democracy throughout the world, David Stasavage makes the case that understanding how and where these democracies flourished--and when and why they declined--can provide crucial information not just about the history of governance, but also about the ways modern democracies work and where they could manifest in the future."--

Popular Politics and the Path to Durable Democracy

*the-enduring-democracy-3rd-edition-ebook*

Mohammad Ali Kadivar 2022-11-22 A groundbreaking account of how prolonged grassroots mobilization lays the foundations for durable democratization. When protests swept through the Middle East at the height of the Arab Spring, the world appeared to be on the verge of a wave of democratization. Yet with the failure of many of these uprisings, it has become clearer than ever that the path to democracy is strewn with obstacles. Mohammad Ali Kadivar examines the conditions leading to the success or failure of democratization, shedding vital new light on how prodemocracy mobilization affects the fate of new democracies. Drawing on a wealth of new evidence, Kadivar shows how the longest episodes of prodemocracy protest give rise to the most durable new democracies. He analyzes more than one hundred democratic transitions in eighty countries between 1950 and 2010, showing how more robust

19/24

Downloaded from [bucksandjakes.com](https://bucksandjakes.com)  
on November 30, 2022 by guest

democracies emerge from lengthier periods of unarmed mobilization. Kadivar then analyzes five case studies—South Africa, Poland, Pakistan, Egypt, and Tunisia—to investigate the underlying mechanisms. He finds that organization building during the years of struggle develops the leadership needed for lasting democratization and strengthens civil society after dictatorship. *Popular Politics and the Path to Durable Democracy* challenges the prevailing wisdom in American foreign policy that democratization can be achieved through military or coercive interventions, revealing how lasting change arises from sustained, nonviolent grassroots mobilization.

**The Enduring Democracy** Kenneth J. Dautrich  
2019-11-12 *The Enduring Democracy* by Kenneth Dautrich, David A. Yalof, and Christina Bejarano examines the current state of American politics through the lenses of American history and the

*the-enduring-democracy-3rd-edition-ebook*

nation's changing demographics. This two-pronged approach encourages students to place current issues and controversies into historical perspective, and to think critically about how those issues and controversies are impacted by America's increasingly diverse population. By analyzing and understanding the influences of historical context and demographics, students can debate effectively with references, use historical outcomes to predict for the future, and create strong arguments based on what they know about fundamental changes in the political landscape. The highly anticipated Sixth Edition frames the 2016 general election and 2018 midterm elections from the perspective of what they mean to college students, so that they can see the relevance of American government in their daily lives. Also available as a digital option (courseware). Learn more about *The Enduring Democracy, Sixth Edition - Vantage Digital Option*.

20/24

**Four Crises of American Democracy** Alasdair Scott Roberts 2017 The "crisis of representation" occurred in the late nineteenth and early twentieth centuries, and was centered on the question of whether the people really controlled their government. This period was dominated by fears of plutocracy and debates about the rights of African Americans, women and immigrants. The "crisis of mastery" spanned the years 1917-1948, and was preoccupied with building administrative capabilities so that government could improve its control of economic and international affairs. The "crisis of discipline," beginning in the 1970s, was triggered by the perception that voters and special interests were overloading governments with unreasonable demands. In the final part of his analysis, Roberts asks whether the United States is entering a "crisis of anticipation," in which the question is whether democracies can handle long-

*the-enduring-democracy-3rd-edition-ebook*

term problems like global warming effectively.

**American Government** Marc Landy 2018-11-30 To understand contemporary American politics and government students need to see how political ideas, institutions and forces have developed over time. The fourth edition of American Government dwells on the seminal role played by political memory and path dependency in shaping contemporary institutions, political forces and public opinion as well as the critical choices that have caused them to shift course. It provides a comprehensive depiction of current demographic, political, attitudinal and governmental facts, trends and conditions. Each chapter begins with a detailed contemporary portrait of its subject.

international political economy thoroughly explore the concept of international regimes--the implicit and explicit principles, norms, rules, and procedures that guide international behavior. In the first section, the authors develop several theoretical views of regimes. In the following section, the theories are applied to specific issues in international relations, including the General Agreement on Tariffs and Trade (GATT) and on the still-enduring postwar regimes for money and security.

*Islam and Democracy After the Arab Spring* John L. Esposito 2016 The landscape of the Middle East has changed dramatically since 2011, as have the political arena and the discourse around democracy. In *Islam and Democracy after the Arab Spring*, John L. Esposito, John Voll, and Tamara Sonn examine the state of democracy in Muslim-majority societies today. Applying a twenty-first century perspective to the question of whether Islam is compatible with

democracy, they redirect the conversation toward a new politics of democracy that transcends both secular authoritarianism and Political Islam. While the opposition movements of the Arab Spring vary from country to country, each has raised questions regarding equality, economic justice, democratic participation, and the relationship between Islam and democracy in their respective countries. Does democracy require a secular political regime? Are religious movements the most effective opponents of authoritarian secularist regimes? Esposito, Voll, and Sonn examine these questions and shed light on how these opposition movements reflect the new global realities of media communication and sources of influence and power. Positioned for a broad readership of scholars and students, policy-makers, and media experts, *Islam and Democracy after the Arab Spring* will quickly become a go-to for all who watch the Middle East, inside and outside of

*The White Racial Frame* Joe R. Feagin 2013-08-21  
In this book Joe Feagin extends the systemic racism framework in previous Routledge books by developing an innovative concept, the white racial frame. Now four centuries-old, this white racial frame encompasses not only the stereotyping, bigotry, and racist ideology emphasized in other theories of "race," but also the visual images, array of emotions, sounds of accented language, interlinking interpretations and narratives, and inclinations to discriminate that are still central to the frame's everyday operations. Deeply imbedded in American minds and institutions, this white racial frame has for centuries functioned as a broad worldview, one essential to the routine legitimation, scripting, and maintenance of systemic racism in the United States. Here Feagin examines how and why this white racial frame emerged in

North America, how and why it has evolved socially over time, which racial groups are framed within it, how it has operated in the past and in the present for both white Americans and Americans of color, and how the latter have long responded with strategies of resistance that include enduring counter-frames. In this new edition, Feagin has included much new interview material and other data from recent research studies on framing issues related to white, black, Latino, and Asian Americans, and on society generally. The book also includes a new discussion of the impact of the white frame on popular culture, including on movies, video games, and television programs as well as a discussion of the white racial frame's significant impacts on public policymaking, immigration, the environment, health care, and crime and imprisonment issues.
