Sketching Stuff Charlie O'Shields
2018-11-22 Charlie O'Shields is the creator of Doodleshop®, founder of World Watercolor Month in July, and host of the Sketching Stuff podcast. Every single day, for over three years, he created a watercolor illustration and wrote a short essay about whatever came to mind that day and posted it on his blog. These are some of the collected favorites along with some brand new musings. With over 180 illustrations, this book is part personal memoir and sometimes just a randomly fun romp through the sillier bits of this crazy world we all inhabit. Written to take on the impossible task of inspiring creativity, unleashing your inner child, and instilling hope, it will, at the very least, make you smile and

Courageous Leadership in Early Childhood Education Susi Long 2015-12
In this inspiring collection, 13 early childhood leaders take action to challenge and change inequitable educational practices in preschools and elementary schools. For them, educating for social justice is not an empty platitude. Steadfast and resolute, they turn rhetoric into reality as they guide early childhood teachers to teach for social justice innovatively and strategically. Through the voices of families, teachers, and the administrators themselves, each chapter shares ways that these leaders use the power entrusted in them to question and disrupt discriminatory and marginalizing practices that deny opportunities for some students while

privileging others. The book includes insights, strategies, and resources that administrators can use to build confidence, knowledge, and skills as they invest in more equitable and just pre/schools.

Reconsidering Children's Early Development and Learning United States. National Education Goals Panel. Goal 1 Technical Planning Group 1995 In 1990, the National Education Goals were established by the President and the 50 state governors. Great attention has been given to Goal 1, dubbed the "readiness" goal: By the year 2000, all children in America will start

school ready to learn. The Goal 1 Resource Technical Planning Groups were asked to suggest ways in which Goal 1 could be measured. The purpose of this document is to further amplify the dimensions of early learning and development used by the National Educational Goals Panel to measure progress toward Goal 1. The following five dimensions are discussed: (1) "Physical Well-Being and Motor Development"; (2) "Social and Emotional Development," serving as the foundation for relationships which give meaning to school experience; (3) "Approaches toward Learning," referring to the inclinations, dispositions, or styles that reflect ways children become involved with learning; (4) "Language Development"; and (5) "Cognition and General Knowledge." For each of the

dimensions, a rationale; general definition; the relationship to individual, cultural, and contextual variation; and a summary are given. The report concludes with a discussion of underlying issues, implications, and action steps. (Contains 83 references.) (BGC)
