**Annapurna Devi** Atul Merchant 2021-11-22

Legendary musician Annapurna Devi's life has

been shrouded in mystery. Daughter of the unparalleled Allauddin Khan of Maitra and the first wife of Pandit Ravi Shankar, she conquered the summit of Indian classical music, only to later renounce public life to spend her entire life as a recluse in the confinement of her house. Until the age of sixteen, Annapurna Devi was confined to her family home at Maihar, where her father was a court musician and guru to the maharaja. During this period, she devoted herself exclusively to the deepest study and practice of Indian classical music under the strict tutelage of her father. After her estrangement from her husband Pandit Ravi Shankar, Annapurna Devi went ever deeper into self-imposed seclusion. The only people whom she met and communicated with were her disciples who used to visit her for music lessons, which included some of the greatest musicians our era has seen, including Pandit Nikhil Banerjee, Pandit Hariprasad Chaurasia, Ustad Bahadur Khan, Aashish Khan, Dhyanes Khan, Nityanand

Haldipur and Basant Kabra, to name a few. Full of anecdotes and untold stories, this is her life story as told by her to her disciples over a period of time, giving valuable insights into their Guru Ma's personality, music and teachings.

The Centre of Indian Culture Rabindranath Tagore 1921  
Gitanjali Rabindranath Tagore  
2017-06-25T16:22:32Z Widely regarded as one of the most important figures in Indian (and more specifically Bengali) literary history, Rabindranath Tagore was the first

Indian—indeed, the first person outside Europe—to win the Nobel Prize in Literature, largely in recognition of his “spiritual offering of songs,” *Gitanjali*. Tagore himself translated the poems from the original Bengali, taking many liberties in the process. His English translation is rightly recognized as a work distinct from the Bengali original, consisting of major revisions, many elisions, and many poems originally published in other collections. Tagore’s lyrical simplicity, vivid imagery, and themes of nature, spirituality, death, and transcendence combine to produce a truly unique, powerfully moving work of thoughtful beauty. For many who read it, Tagore’s words in Song XCVI ring true: “What I have seen is unsurpassable. I have tasted of the hidden honey of this lotus that expands on the ocean of light, and thus I am blessed.” This book is part of the Standard Ebooks project, which produces free public domain ebooks.

*Fitter Trade Theory* Balbir Singh 2006-01-01  
**Green Signals** Jairam Ramesh 2015-03-05 The

debate on whether to privilege economic growth over ecological security is passé. Environmental considerations must be at the heart of economic growth, especially for a country of 1.25 billion people destined to add another 400 million by the middle of the century. Green Signals chronicles the '1991 moment' in India's environmental decision-making, telling the story of how, for the first time, the doors of the environment ministry were opened to voices, hitherto unheard, into the policy-making process. It details efforts to change the way environment is viewed both by proponents of environmental security and those who prize economic growth at all costs. Told from the perspective of a pivotal decision maker, the book addresses the challenges involved in trying to ensure economic growth with ecological security. It takes us through India's coming of age in the global environmental and climate change community to take on a leadership role that is progressive, proactive, and steeped in national interest. Using

speaking orders on high-profile projects, notes and letters to the Prime Minister, ministerial colleagues, chief ministers and others, Jairam Ramesh gives an insight into the debates, struggles, challenges, and obstacles to bringing environmental considerations into the mainstream of political and economic decision-making. This collection reveals the story of the author's attempt at the highest levels of governance to introduce effective decision-making, a transparent and accountable administration, and to make environmental concerns an essential component of a nation's quest to accelerate economic growth and end the scourge of poverty and deprivation.

*Contradictory Lives* Lisa I. Knight 2014-10 In the popular imagination, Bauls in West Bengal (India) and Bangladesh are depicted as a sect of musical

mendicants with flowing hair clad in ochre-colored clothes and carrying a one-stringed instrument. Their popularity stems from their mystical songs and their carefree, whimsical behavior. Somewhat less celebrated are Baul beliefs and practices: they are fiercely opposed to the caste system and sectarianism and, at least in the context of their sexo-yogic rituals and philosophy, extol women over men. Despite the importance of women among Bauls, scholarly and popular discourses on Bauls marginalize Baul women by depicting the ideal Baul as male and as unencumbered by social constraints and worldly concerns. For Baul women, these ideals pose distinct challenges to their position and reputation as women in rural Bengal, where gendered norms limit women's actions. However, as musical performers hoping for patronage, behaving as a Baul can ensure their livelihood. This book shows how Baul women interpret and respond to these various constructions of gender and Baul identity and suggests that Baul women

are encumbered actors. It argues that Baul women negotiate their identity, position, and life choices in light of contradictory expectations of appropriate behavior for Bengali women and for Bauls. It demonstrates that Baul women draw on the very tools of their encumbering to create for themselves a meaningful life and a more just society. As they sing, wander, take renunciation, and raise a family, they expand ideas about both women and Bauls in Bengal. --Publisher description.
